

HSPT Exam Simulator

Full-Length Practice Exam 01

Complete printable test with 298 multiple-choice questions, answer key, and detailed explanations.

Section	Questions	Time
Verbal Skills	60	20 minutes
Quantitative Skills	52	35 minutes
Reading Comprehension	62	35 minutes
Mathematics	64	45 minutes
Language	60	30 minutes

General Directions

Work through each section within the recommended time. Choose the best answer for every question. Mark one answer (A-D) for each item. Use the answer key and explanations only after completing the test.

Recommended total testing time: 165 minutes. Calculators should be used only when permitted by the rules followed for your HSPT preparation.

Section 1: Verbal Skills

60 questions | Recommended time: 20 minutes

1. Which word is closest in meaning to diligent?

- A) hardworking
- B) hidden
- C) fragile
- D) ordinary

2. Which word is closest in meaning to reluctant?

- A) eager
- B) unwilling
- C) certain
- D) careless

3. Which word is closest in meaning to verify?

- A) postpone
- B) estimate
- C) confirm
- D) announce

4. Which word is most nearly opposite in meaning to rigid?

- A) narrow
- B) rough
- C) heavy
- D) flexible

5. Which word is most nearly opposite in meaning to conceal?

- A) reveal
- B) gather
- C) protect
- D) replace

6. Which word is most nearly opposite in meaning to scarce?

- A) valuable
- B) plentiful
- C) distant
- D) divided

7. Petal is to flower as page is to ____.

- A) ink
- B) chapter
- C) book
- D) reader

8. Thermometer is to temperature as scale is to ____.

- A) balance
- B) length
- C) metal
- D) weight

9. Sapling is to tree as calf is to ____.

- A) cow
- B) pasture
- C) herd
- D) milk

10. Which word does not belong with the others?

- A) copper
- B) granite
- C) silver
- D) iron

11. Which word belongs with sonnet, haiku, and limerick?

- A) portrait
- B) chapter
- C) ode
- D) melody

12. Robin, sparrow, and finch are all members of which group?

- A) insects
- B) reptiles
- C) mammals
- D) birds

13. Every student on the debate team practices on Tuesday. Lena is on the debate team. Which conclusion must be true?

- A) Lena practices on Tuesday.
- B) Lena practices only on Tuesday.
- C) Every Tuesday student joins the debate team.
- D) Lena leads the debate team.

14. Four folders—green, red, blue, and yellow—stand in a row. Green is immediately before red. Blue is last. Yellow is not first. Which folder must be first?

- A) red
- B) green
- C) yellow
- D) blue

15. If the library is open, its front light is on. The front light is not on. Which conclusion follows logically?

- A) The library has no books.
- B) The light is broken.
- C) The library is not open.
- D) The library will open later.

16. Which word is closest in meaning to tranquil?

- A) crowded
- B) peaceful
- C) distant
- D) useful

17. Which word is closest in meaning to elaborate?

- A) unfinished
- B) ordinary
- C) detailed
- D) ancient

18. Which word is closest in meaning to diminish?

- A) measure
- B) divide
- C) return
- D) decrease

19. Which word is most nearly opposite in meaning to temporary?

- A) permanent
- B) brief
- C) timely
- D) changing

20. Which word is most nearly opposite in meaning to cautious?

- A) patient
- B) reckless
- C) observant
- D) quiet

21. Which word is most nearly opposite in meaning to expand?

- A) explain
- B) surround
- C) contract
- D) develop

22. Carpenter is to hammer as painter is to ____.

- A) gallery
- B) canvas
- C) color
- D) brush

23. Wool is to sweater as clay is to ____.

- A) pottery
- B) soil
- C) wheel
- D) sculptor

24. Hunger is to food as fatigue is to ____.

- A) effort
- B) rest
- C) exercise
- D) health

25. Which word does not belong with the others?

- A) whisper
- B) murmur
- C) sprint
- D) mutter

26. Which word belongs with cedar, maple, and birch?

- A) tulip
- B) moss
- C) wheat
- D) elm

27. Compass, ruler, and protractor are all members of which group?

- A) measuring tools
- B) musical instruments
- C) writing surfaces
- D) building materials

28. Ava presents before Ben. Carlos presents after Ben. Dana presents before Ava. Who must present first?

- A) Ava
- B) Dana
- C) Ben
- D) Carlos

29. No glass objects are flexible. Every item in box K is flexible. Which statement must be true?

- A) Box K is empty.
- B) Some glass objects are in box K.
- C) No item in box K is made of glass.
- D) Every flexible object is in box K.

30. A workshop occurs on Monday, Wednesday, or Friday. If it occurs Monday, the coach cannot attend. If the coach attends, the workshop is not Friday. The coach attends. On which day must the workshop occur?

- A) Monday
- B) Monday or Friday
- C) Friday
- D) Wednesday

31. Which word is closest in meaning to resilient?

- A) polished
- B) narrow
- C) adaptable
- D) silent

32. Which word is closest in meaning to concise?

- A) cheerful
- B) repeated
- C) uncertain
- D) brief

33. Which word is closest in meaning to obstruct?

- A) block
- B) observe
- C) repair
- D) arrange

34. Which word is most nearly opposite in meaning to generous?

- A) patient
- B) stingy
- C) grateful
- D) honest

35. Which word is most nearly opposite in meaning to artificial?

- A) colorful
- B) modern
- C) natural
- D) smooth

36. Which word is most nearly opposite in meaning to frequent?

- A) regular
- B) expected
- C) nearby
- D) rare

37. Orchard is to fruit as vineyard is to ____.

- A) grapes
- B) vines
- C) farmer
- D) juice

38. Apprentice is to expert as dawn is to ____.

- A) night
- B) morning
- C) noon
- D) sunset

39. Glove is to hand as sheath is to ____.

- A) belt
- B) leather
- C) sword
- D) pocket

40. Which word does not belong with the others?

- A) triangle
- B) pentagon
- C) rectangle
- D) cylinder

41. Which word belongs with violin, cello, and harp?

- A) guitar
- B) flute
- C) trumpet
- D) drum

42. Mercury, Venus, and Mars are all members of which group?

- A) stars
- B) moons
- C) planets
- D) galaxies

43. Exactly one of two doors is unlocked. The north door is locked. Which statement must be true?

- A) Both doors are locked.
- B) Both doors are unlocked.
- C) The north door will open later.
- D) The south door is unlocked.

44. A red token cannot be beside a blue token. Three tokens—red, green, and blue—are placed in a row. Which token must be in the middle?

- A) green
- B) red
- C) blue
- D) The position cannot be determined.

45. All certified guides completed the safety course. Some museum volunteers are certified guides. Which conclusion must be true?

- A) Every volunteer completed the course.
- B) Some museum volunteers completed the safety course.
- C) Only volunteers are certified guides.
- D) No guide is a volunteer.

46. Which word is closest in meaning to vigilant?

- A) confused
- B) watchful
- C) cheerful
- D) hurried

47. Which word is closest in meaning to feasible?

- A) costly
- B) familiar
- C) possible
- D) immediate

48. Which word is closest in meaning to retain?

- A) borrow
- B) examine
- C) improve
- D) keep

49. Which word is most nearly opposite in meaning to vacant?

- A) occupied
- B) distant
- C) enormous
- D) useful

50. Which word is most nearly opposite in meaning to approve?

- A) suggest
- B) reject
- C) consider
- D) request

51. Which word is most nearly opposite in meaning to transparent?

- A) smooth
- B) delicate
- C) opaque
- D) visible

52. Aviary is to birds as aquarium is to ____.

- A) water
- B) glass
- C) visitors
- D) fish

53. Blueprint is to building as recipe is to ____.

- A) meal
- B) kitchen
- C) ingredient
- D) chef

54. Spark is to fire as idea is to ____.

- A) memory
- B) invention
- C) question
- D) notebook

55. Which word does not belong with the others?

- A) applaud
- B) cheer
- C) praise
- D) complain

56. Which word belongs with ruby, emerald, and sapphire?

- A) diamond
- B) marble
- C) quartzite
- D) copper

57. Novel, biography, and dictionary are all members of which group?

- A) poems
- B) newspapers
- C) books
- D) speeches

58. A package is delivered only if someone signs for it. The package was delivered. Which statement must be true?

- A) The package arrived early.
- B) The recipient was home all day.
- C) The driver called first.
- D) Someone signed for the package.

59. Four runners—J, K, L, and M—finish a race. J finishes after K but before L. M finishes after L. Who finishes second?

- A) K
- B) J
- C) L
- D) M

60. Either the oak trail or the lake trail is open, but not both. If the oak trail is open, the bridge is inspected. The bridge was not inspected. Which trail is open?

- A) Neither trail
- B) Both trails
- C) The lake trail
- D) The oak trail

Section 2: Quantitative Skills

52 questions | Recommended time: 35 minutes

61. What number comes next? 7, 12, 17, 22, ____

- A) 27
- B) 26
- C) 28
- D) 32

62. What number comes next? 3, 6, 18, 72, ____

- A) 144
- B) 360
- C) 288
- D) 432

63. What number comes next? 40, 35, 31, 28, ____

- A) 24
- B) 27
- C) 26
- D) 25

64. What number comes next? 2, 9, 4, 11, 6, 13, ____

- A) 15
- B) 7
- C) 20
- D) 8

65. Which number is divisible by both 6 and 9?

- A) 54
- B) 36
- C) 45
- D) 63

66. A quantity increases from 80 to 100. What is the percent increase?

- A) 20%
- B) 25%
- C) 40%
- D) 80%

67. If $\frac{3}{5}$ of a number is 27, what is the number?

- A) 16.2
- B) 32
- C) 45
- D) 81

68. x is a nonzero number. Quantity A: x . Quantity B: $-x$.

- A) Quantity A is greater.
- B) Quantity B is greater.
- C) The two quantities are equal.
- D) The relationship cannot be determined from the information given.

69. n is a positive integer. Quantity A: $n + 6$. Quantity B: $n + 2$.

- A) Quantity A is greater.
- B) Quantity B is greater.
- C) The two quantities are equal.
- D) The relationship cannot be determined from the information given.

70. Quantity A: $5^2 - 10$. Quantity B: $2^3 + 8$.

- A) Quantity A is greater.
- B) Quantity B is greater.
- C) The two quantities are equal.
- D) The relationship cannot be determined from the information given.

71. A rectangle has length 6 units and width 3 units. Quantity A: its area. Quantity B: its perimeter.

- A) Quantity A is greater.
- B) Quantity B is greater.
- C) The two quantities are equal.
- D) The relationship cannot be determined from the information given.

72. An isosceles triangle has a vertex angle of x° . Quantity A: either base angle. Quantity B: 60° .

- A) Quantity A is greater.
- B) Quantity B is greater.
- C) The two quantities are equal.
- D) The relationship cannot be determined from the information given.

73. A circle has a radius of 4 units. Quantity A: the circle's diameter. Quantity B: 9 units.

- A) Quantity A is greater.
- B) Quantity B is greater.
- C) The two quantities are equal.
- D) The relationship cannot be determined from the information given.

74. What number comes next? 1, 4, 10, 19, 31, ____

- A) 40
- B) 43
- C) 46
- D) 50

75. What number comes next? 160, 80, 40, 20, ____

- A) 15
- B) 8
- C) 5
- D) 10

76. What number comes next? 5, 8, 16, 19, 38, ____

- A) 41
- B) 57
- C) 76
- D) 35

77. Which expression has the same value as $7(12 - 5)$?

- A) $84 - 5$
- B) $7 \times 12 - 7 \times 5$
- C) $12 - 35$
- D) $7 \times 12 + 7 \times 5$

78. The ratio of blue flags to red flags is 4:7. If there are 28 red flags, how many blue flags are there?

- A) 12
- B) 14
- C) 16
- D) 49

79. Which value makes $0.6 \times n = 7.2$ true?

- A) 4.32
- B) 7.8
- C) 43.2
- D) 12

80. A number rounds to 5,300 to the nearest hundred. Which could be the number?

- A) 5,297
- B) 5,348
- C) 5,351
- D) 5,449

81. Quantity A: $\frac{3}{5} \div \frac{2}{3}$. Quantity B: 1.

- A) Quantity A is greater.
- B) Quantity B is greater.
- C) The two quantities are equal.
- D) The relationship cannot be determined from the information given.

82. Quantity A: the least common multiple of 8 and 12. Quantity B: 30.

- A) Quantity A is greater.
- B) Quantity B is greater.
- C) The two quantities are equal.
- D) The relationship cannot be determined from the information given.

83. $y = 3$. Quantity A: y^2 . Quantity B: $3y$.

- A) Quantity A is greater.
- B) Quantity B is greater.
- C) The two quantities are equal.
- D) The relationship cannot be determined from the information given.

84. A square has side length s units, where $s > 0$. Quantity A: its area. Quantity B: its perimeter.

- A) Quantity A is greater.
- B) Quantity B is greater.
- C) The two quantities are equal.
- D) The relationship cannot be determined from the information given.

85. Two angles form a linear pair. One angle measures 60° . Quantity A: the other angle. Quantity B: 90° .

- A) Quantity A is greater.
- B) Quantity B is greater.
- C) The two quantities are equal.
- D) The relationship cannot be determined from the information given.

86. A rectangular prism measures 2 units by 3 units by 4 units. Quantity A: its volume. Quantity B: 24 cubic units.

- A) Quantity A is greater.
- B) Quantity B is greater.
- C) The two quantities are equal.
- D) The relationship cannot be determined from the information given.

87. What number comes next? 2, 5, 11, 23, 47, ____

- A) 71
- B) 93
- C) 96
- D) 95

88. What number comes next? 81, 64, 49, 36, ____

- A) 25
- B) 24
- C) 18
- D) 16

89. What number comes next? 6, 7, 14, 16, 48, 51, ____

- A) 102
- B) 204
- C) 54
- D) 153

90. What number comes next? $\frac{3}{4}$, $\frac{3}{8}$, $\frac{3}{16}$, $\frac{3}{32}$, ____

- A) $\frac{3}{36}$
- B) $\frac{3}{48}$
- C) $\frac{3}{64}$
- D) $\frac{3}{96}$

91. If $\frac{2}{7}$ of the students equals 10 students, how many students are there altogether?

- A) 28
- B) 30
- C) 32
- D) 35

92. Which expression has the greatest value?

- A) $3^2 + 4$
- B) 2×7
- C) $20 - 5$
- D) $32 \div 2$

93. A \$50 item is increased in price by 20% and then decreased by 20%. What is the final price?

- A) \$48
- B) \$50
- C) \$40
- D) \$52

94. Quantity A: the remainder when 53 is divided by 6. Quantity B: 4.

- A) Quantity A is greater.
- B) Quantity B is greater.
- C) The two quantities are equal.
- D) The relationship cannot be determined from the information given.

95. k is a negative number. Quantity A: $k - 2$. Quantity B: k.

- A) Quantity A is greater.
- B) Quantity B is greater.
- C) The two quantities are equal.
- D) The relationship cannot be determined from the information given.

96. Quantity A: 0.45×200 . Quantity B: 90.

- A) Quantity A is greater.
- B) Quantity B is greater.
- C) The two quantities are equal.
- D) The relationship cannot be determined from the information given.

97. A triangle has side lengths 5, 5, and x, where x is a positive integer. Quantity A: its perimeter. Quantity B: 18.

- A) Quantity A is greater.
- B) Quantity B is greater.
- C) The two quantities are equal.
- D) The relationship cannot be determined from the information given.

98. A cube has edge length 3 units. Quantity A: the area of one face. Quantity B: the cube's volume.

- A) Quantity A is greater.
- B) Quantity B is greater.
- C) The two quantities are equal.
- D) The relationship cannot be determined from the information given.

99. A parallelogram has base b and height h. Quantity A: its area. Quantity B: bh.

- A) Quantity A is greater.
- B) Quantity B is greater.
- C) The two quantities are equal.
- D) The relationship cannot be determined from the information given.

100. What number comes next? 4, 6, 10, 18, 34, ____

- A) 66
- B) 52
- C) 68
- D) 50

101. What number comes next? 100, 96, 88, 76, 60, ____

- A) 44
- B) 40
- C) 36
- D) 32

102. What number comes next? 2, 6, 12, 20, 30, ____

- A) 36
- B) 40
- C) 42
- D) 44

103. Which value of n makes $5n + 2 = 3n + 18$ true?

- A) 6
- B) 7
- C) 10
- D) 8

104. What is the smallest positive number divisible by 9, 12, and 15?

- A) 180
- B) 90
- C) 120
- D) 540

105. A mixture uses juice and water in a ratio of 3:2. If the mixture totals 25 cups, how many cups are water?

- A) 5
- B) 10
- C) 15
- D) 20

106. Which decimal is equal to $7/16$?

- A) 0.375
- B) 0.425
- C) 0.4375
- D) 0.625

107. Quantity A: $2\Box$. Quantity B: $5^2 + 7$.

- A) Quantity A is greater.
- B) Quantity B is greater.
- C) The two quantities are equal.
- D) The relationship cannot be determined from the information given.

108. $m > 0$. Quantity A: $m/4$. Quantity B: $m/5$.

- A) Quantity A is greater.
- B) Quantity B is greater.
- C) The two quantities are equal.
- D) The relationship cannot be determined from the information given.

109. x is a nonzero number. Quantity A: x . Quantity B: $|x|$.

- A) Quantity A is greater.
- B) Quantity B is greater.
- C) The two quantities are equal.
- D) The relationship cannot be determined from the information given.

110. A right angle is divided into two angles. One measures x° . Quantity A: the other angle. Quantity B: 55° .

- A) Quantity A is greater.
- B) Quantity B is greater.
- C) The two quantities are equal.
- D) The relationship cannot be determined from the information given.

111. A circle has diameter 12 units. Quantity A: its radius. Quantity B: 5 units.

- A) Quantity A is greater.
- B) Quantity B is greater.
- C) The two quantities are equal.
- D) The relationship cannot be determined from the information given.

112. A rectangle has area 48 square units and length 8 units. Quantity A: its width. Quantity B: 7 units.

- A) Quantity A is greater.
- B) Quantity B is greater.
- C) The two quantities are equal.
- D) The relationship cannot be determined from the information given.

Section 3: Reading Comprehension

62 questions | Recommended time: 35 minutes

Literary Passage: The Unfinished Kite

Mara had promised to bring a handmade kite to Saturday's neighborhood festival. By Friday evening, however, the frame still leaned crookedly across her worktable. She tugged at the string binding two reeds, but the knot slipped again.

Her grandfather watched from the doorway. Mara expected him to take the frame and fix it. Instead, he placed an old blue kite beside her. One side was patched with newspaper, and its tail was made from mismatched strips of cloth.

"This won no prizes," he said, "but it stayed in the air longer than every perfect-looking kite that day." He showed Mara how each patch had strengthened a weak spot, then left her to work.

Mara studied her frame. Rather than starting over, she loosened one joint, shortened a reed, and retied the knot. The kite was not symmetrical, but its paper covering finally lay smooth. At the festival, a sudden gust sent several bright store-bought kites spinning toward the ground. Mara's kite dipped, shuddered, and then climbed. As its uneven tail flickered above the field, Mara stopped noticing the crooked edge. She felt the pull of the string in her hands and smiled.

113. What does Mara change after examining the frame?

- A) She loosens a joint and shortens a reed.
- B) She replaces the paper with cloth.
- C) She copies her grandfather's kite exactly.
- D) She buys a stronger frame.

114. Why does Mara's grandfather show her his old kite?

- A) To persuade her to enter a different contest
- B) To show that usefulness can matter more than perfect appearance
- C) To warn her that newspaper tears easily
- D) To ask her to repair it before the festival

115. As used in the final paragraph, shuddered most nearly means ____.

- A) disappeared
- B) floated silently
- C) shook briefly
- D) broke apart

116. The grandfather's patched kite mainly serves as a symbol of ____.

- A) a forgotten competition
- B) the risks of poor planning
- C) the value of expensive materials
- D) strength gained through repair and persistence

117. Which statement best expresses the passage's central idea?

- A) Imperfect work can succeed when it is thoughtfully improved.
- B) Winning a contest requires help from an expert.
- C) Handmade objects are always stronger than manufactured ones.
- D) People should ignore deadlines when learning a skill.

Informational Passage: A Second Life for City Rain

In many cities, rainwater flows from roofs and pavement into storm drains. During heavy storms, the drainage system may fill faster than it can empty. One method of reducing this strain is the rain garden: a shallow planted area designed to collect runoff temporarily.

A rain garden is usually placed lower than nearby hard surfaces. Water enters it through a channel or opening and spreads across soil planted with grasses, flowers, and shrubs. The garden does not remain a pond. Instead, its layers allow water to soak gradually into the ground. Plant roots create small pathways in the soil, and leaves slow the force of falling rain.

Rain gardens can also trap some sediment before it reaches streams. Yet their location and construction matter. A garden built too close to a foundation may direct moisture toward a building. Soil that drains very slowly may require a special underlayer or another solution entirely. For this reason, planners first study the site's slope, soil, and typical rainfall.

Although one rain garden cannot prevent every flood, many small gardens distributed across a neighborhood can reduce the amount of water entering drains at the same moment. They turn overlooked spaces into working parts of a city's water system.

118. According to the passage, what do plant roots do in a rain garden?

- A) Remove all pollution from runoff
- B) Create pathways that help water enter the soil
- C) Prevent any soil from moving
- D) Keep the garden permanently filled

119. What should planners examine before building a rain garden?

- A) The age of nearby buildings
- B) The number of neighborhood streets
- C) The site's slope, soil, and typical rainfall
- D) The color of the planned flowers

120. How is the passage mainly organized?

- A) It compares two cities and judges which is safer.
- B) It gives instructions in a strict numbered sequence.
- C) It tells the history of one gardening invention.
- D) It identifies a drainage problem, explains a response, and notes limitations.

121. As used in the first paragraph, strain most nearly means ____.

- A) pressure
- B) measurement
- C) filter
- D) damage

122. Why can many rain gardens be more useful than a single one?

- A) They eliminate the need for storm drains.
- B) They can collect runoff in several places before it reaches drains.
- C) They make all types of soil drain at the same rate.
- D) They prevent rain from landing on pavement.

Humanities Passage: The Value of a Pause

When people speak together, silence is often treated as an empty space that someone should quickly fill. A pause, however, can do useful work. It gives a listener time to consider what has been said, and it gives a speaker time to choose an accurate response rather than the fastest one.

Different settings give pauses different meanings. During a performance, a brief silence may create suspense. In a classroom discussion, it may signal that students are still forming ideas. In a conversation between friends, it can show careful attention. Of course, silence can also result from confusion or discomfort. Its meaning depends on what happens before and after it.

Because rapid replies are often praised as signs of confidence, people may fear that pausing makes them appear uncertain. Yet a quick response is not always a thoughtful response. Skilled interviewers sometimes wait after an answer instead of rushing to the next question. The person being interviewed may then add a detail that would otherwise have remained unspoken.

Learning to tolerate a short silence does not mean avoiding conversation. It means recognizing that communication includes timing as well as words. A pause is not necessarily the absence of meaning; sometimes it is the space in which meaning becomes clearer.

123. What is the author's main purpose?

- A) To teach performers how to memorize lines
- B) To prove that rapid speakers are usually mistaken
- C) To explain how pauses can contribute to communication
- D) To discourage conversation in uncomfortable settings

124. What may happen when an interviewer waits after an answer?

- A) The interview must end early.
- B) The next question becomes unnecessary.
- C) The speaker forgets the original question.
- D) The interviewee may provide an additional detail.

125. Which belief would the author most likely support?

- A) Thoughtful timing can be as important as word choice.
- B) Every silence indicates careful attention.
- C) Confident people should answer immediately.
- D) Classroom discussions should contain no pauses.

126. As used in the last paragraph, tolerate most nearly means ____.

- A) measure
- B) accept
- C) shorten
- D) create

127. In the phrase “a pause can do useful work,” the author uses personification to emphasize that a pause ____.

- A) is difficult to notice
- B) should replace spoken language
- C) can actively serve a purpose
- D) lasts longer than expected

128. Which choice best describes the tone of the passage?

- A) humorous and playful
- B) impatient and critical
- C) mysterious and uneasy
- D) thoughtful and explanatory

Literary Passage: The Last Rehearsal

Nico had practiced the opening notes of his cello solo until his fingers moved without hesitation. Yet during the final rehearsal, a rattling sound followed every low note. He checked the strings, adjusted his chair, and began again. The rattle returned.

Across the empty auditorium, custodian Ms. Bell paused beside a heating vent. "Play that phrase once more," she called. When Nico did, she walked slowly along the front row and stopped at a music stand. A loose pencil on its shelf trembled whenever the cello's low notes filled the room.

Nico removed the pencil and laughed with relief. Then Ms. Bell asked him to repeat the phrase. This time the sound was clear, but Nico noticed that he had rushed the final measure. He played it again, listening more carefully than before.

The next evening, the auditorium was crowded. Nico could not see Ms. Bell from the stage, but he remembered how patiently she had searched for the small disturbance. Instead of hurrying through the difficult measure, he let each note settle before beginning the next. When the final note faded, the room remained silent for one breath—and then the applause began.

129. What causes the rattling sound?

- A) A loose pencil
- B) A cello string
- C) A heating vent
- D) A folding chair

130. What does Nico learn from Ms. Bell's search?

- A) Difficult music should be shortened.
- B) Careful attention can solve small problems and improve performance.
- C) Equipment should be replaced before every performance.
- D) An audience rarely notices mistakes.

131. As used in the final paragraph, settle most nearly means ____.

- A) become fully heard before the next note
- B) fall to the floor
- C) become less valuable
- D) choose a permanent location

132. The loose pencil is important to the plot because it ____.

- A) reveals why Nico selected the cello
- B) leads Nico to practice with greater attention
- C) prevents the concert from beginning
- D) proves Ms. Bell is a musician

133. Which statement best expresses the passage's central idea?

- A) Musical skill depends mainly on natural talent.
- B) Small audiences are harder to please than large ones.
- C) Patient observation can reveal opportunities for improvement.
- D) Performers should avoid changing anything before a concert.

Scientific Passage: Why Some Seeds Wait

Many seeds begin growing soon after they receive water, warmth, and oxygen. Others remain inactive even when these conditions seem favorable. This delay, called dormancy, helps prevent a seed from sprouting at a dangerous time.

Seed coats provide one form of dormancy. A hard coat may block water until weather, soil particles, or an

animal's digestion weakens it. Other seeds contain chemical controls that change only after a period of cold. Such seeds may fall in autumn but wait through winter before sprouting. By spring, the cold requirement has been met, and young plants face a longer growing season.

Dormancy does not guarantee survival. A seed may still land where there is too little sunlight or where animals can eat it. However, dormancy spreads risk over time. Seeds from the same plant do not always sprout together; some may wait months or even years. If drought destroys one group of seedlings, later seeds may encounter better conditions.

Farmers and gardeners sometimes imitate natural processes to end dormancy. They may gently scratch a hard seed coat or keep certain seeds in a cool, damp place for several weeks. These methods do not force growth by themselves. They remove a barrier so that a seed can respond when other needs are met.

134. What may weaken a hard seed coat?

- A) Bright light alone
- B) Added fertilizer
- C) A longer stem
- D) Weather, soil particles, or animal digestion

135. Why do some autumn seeds benefit from a cold requirement?

- A) They wait until spring, when a longer growing season begins.
- B) They become impossible for animals to eat.
- C) They no longer require water or oxygen.
- D) They can grow beneath frozen soil.

136. What is the main idea of the passage?

- A) Most seeds require gardeners to begin growing.
- B) Dormancy delays sprouting in ways that can improve a seed's chances.
- C) Hard seed coats are the only cause of dormancy.
- D) Seeds from one plant always sprout together.

137. Why does the author say dormancy “spreads risk over time”?

- A) Dormant seeds move to several locations.
- B) Seeds become larger while inactive.
- C) Not all seedlings face the same period of poor conditions.
- D) Every dormant seed survives for years.

138. Which choice best summarizes the final paragraph?

- A) Natural seed barriers cannot be changed.
- B) Gardeners can supply every condition a seed needs.
- C) Cool storage always causes immediate sprouting.
- D) People can copy natural processes to remove certain barriers to sprouting.

Informational Passage: Messages in the Margins

Before inexpensive printed books became common, producing a book required extensive labor. Scribes copied words by hand, and other workers prepared pages, bindings, and colored decorations. Because books were valuable, owners sometimes recorded more than the main text on their pages.

Notes written in margins are called marginalia. A reader might define an unfamiliar word, disagree with an argument, mark an important passage, or record when the book was purchased. Some notes are no more than quick symbols. Others form a conversation across generations: one reader responds to the text, and a later reader responds to the earlier note.

For historians, marginalia can reveal how people actually used a book. A spotless volume may show what

information was available, but an annotated one can show which ideas attracted attention. Still, researchers must be cautious. A name written inside a cover does not always identify the person who made every note, and handwriting can be difficult to date.

Modern readers also write beside texts, whether on paper or with digital annotation tools. The technology has changed, but the impulse is familiar. Readers do not merely receive words; they question, connect, and select. A margin may look like unused space, yet it can preserve evidence of an active mind meeting a text.

139. As used in the third paragraph, spotless most nearly means ____.

- A) expensive
- B) unreadable
- C) unmarked
- D) recently printed

140. Why must historians be cautious when studying marginalia?

- A) All old notes use secret symbols.
- B) Printed books contain no useful evidence.
- C) Digital notes cannot be preserved.
- D) A book owner's name may not identify the writer of each note.

141. What is the author's main purpose?

- A) To explain how readers' notes can reveal their interaction with texts
- B) To argue that all valuable books should remain unmarked
- C) To teach readers how to identify old handwriting
- D) To compare the cost of paper and digital books

142. Which statement would the author most likely agree with?

- A) Only professional scholars should annotate books.
- B) Annotations can make reading a more active process.
- C) Brief symbols have no value to historians.
- D) Modern annotation is unrelated to older marginalia.

143. The phrase “an active mind meeting a text” emphasizes that reading can be ____.

- A) silent
- B) expensive
- C) interactive
- D) difficult

144. How does the final paragraph relate to the rest of the passage?

- A) It rejects the historical evidence discussed earlier.
- B) It introduces an unrelated method of printing.
- C) It lists rules for writing in borrowed books.
- D) It connects historical marginalia with a similar modern practice.

Literary Passage: The Quiet Mechanism

When the clock above the town hall stopped, everyone noticed. Its hands pointed stubbornly to 2:17, and people crossing the square began checking their phones. Mr. Imani, who repaired clocks in a narrow shop nearby, was asked to inspect it. He invited his niece Leila to carry the tool case.

Inside the tower, Leila expected to find a broken gear. Instead, every brass wheel appeared whole. Mr. Imani wound the mechanism and listened. A faint scrape sounded, paused, and sounded again. Rather than opening the largest section, he followed the rhythm to a thin metal arm near the bell.

A single screw had loosened. Each time the arm moved, it brushed another piece and slowed the mechanism. Leila handed over a screwdriver, and Mr. Imani tightened the screw by half a turn. The gears stirred, and the minute hand advanced.

"That was all?" Leila asked as the bell marked the next hour.

"Small causes can make loud problems," he replied.

On the way down, Leila carried the case more carefully. It no longer seemed like a box of tools. It seemed like a collection of ways to pay attention.

145. What stopped the clock from working properly?

- A) A loose screw allowed a metal arm to scrape another piece.
- B) A large brass gear had cracked.
- C) The clock had not been wound for years.
- D) Leila moved the minute hand.

146. Why does Leila view the tool case differently at the end?

- A) She wants to own the tools herself.
- B) She understands that careful observation is central to repair.
- C) She discovers that the tools are unusually valuable.
- D) She plans to repair the town hall alone.

147. As used in the first paragraph, stubbornly suggests that the hands ____.

- A) moved unpredictably
- B) were difficult to see
- C) remained fixed despite expectations
- D) pointed toward the wrong number on purpose

148. Mr. Imani's statement "Small causes can make loud problems" mainly expresses the passage's ____.

- A) setting
- B) conflict
- C) point of view
- D) theme

149. Which statement best expresses the central idea?

- A) Careful attention can uncover a simple cause behind a major problem.
- B) Old machines should always be replaced.
- C) Public clocks are more useful than phones.
- D) Repair work depends on carrying many tools.

Literary Passage: One More Chair

For the school storytelling night, Amara arranged twelve chairs in a semicircle. Twelve children had registered, so twelve chairs seemed exact. Then she noticed a boy lingering near the doorway with his father. He had no name tag and kept glancing toward the empty stage.

Amara found another chair in the hallway and placed it at the end of the row. Her teammate Jonah frowned. "If we keep changing the plan, we'll start late," he whispered.

Before Amara could answer, a family entered with two registered children and their younger sister. The sister sat in the extra chair while the boy at the doorway remained standing. Amara brought a second chair. Soon another child arrived unexpectedly, and Jonah silently went to the hallway himself.

When the first storyteller began, the semicircle was uneven and crowded. Yet no one stood at the doorway.

During the final story, Jonah leaned toward Amara. "Next time," he said, "we should plan for more than the plan."

Afterward, the boy's father explained that they had only intended to listen from the hall. His son had been nervous about entering. The extra chair, he said, had felt like an invitation.

150. Why does Amara first add a chair?

- A) A registered child asks for a different seat.
- B) She notices an unregistered boy near the doorway.
- C) Jonah tells her the row is too small.
- D) A storyteller needs a place onstage.

151. Which statement best expresses the passage's central idea?

- A) Events should always begin at the exact scheduled time.
- B) Registration lists usually contain errors.
- C) Leaving room for unexpected needs can help people feel welcome.
- D) Children prefer listening to stories from a hallway.

152. What does Jonah's action of fetching a chair show?

- A) He wants to leave the event.
- B) He thinks the semicircle should be straight.
- C) He has forgotten the original plan.
- D) He has begun to understand Amara's reasoning.

153. The extra chair mainly symbolizes ____.

- A) welcome and possibility
- B) poor organization
- C) competition between teammates
- D) the end of the event

154. Which choice best summarizes the passage?

- A) Jonah reorganizes an event after several families complain.
- B) Amara's willingness to add seats helps unexpected guests join the event.
- C) A child tells a story after watching from the doorway.
- D) Two teammates cancel a program because attendance is too high.

Informational Passage: Cooling a City with Shade

On a sunny day, dark pavement absorbs energy and becomes much warmer than nearby grass. Buildings and roads then release some of that stored heat, keeping developed areas warm even after sunset. This pattern contributes to what researchers call the urban heat-island effect.

Shade can reduce surface temperatures by blocking direct sunlight. Trees provide shade while also releasing water vapor through their leaves, a process that can cool surrounding air. Covered walkways, awnings, and specially designed shade structures can offer similar protection where trees cannot grow.

Placement matters. A single tree in an unused corner may cool less useful space than a row of trees beside a busy sidewalk. Cities must also choose species suited to local rainfall, soil, and available space. Large trees can provide broad shade, but their roots and branches need room. Young trees require years of care before they reach their full cooling potential.

Shade alone cannot solve every problem caused by extreme heat. Buildings may still need efficient cooling, and residents need access to water and safe indoor spaces. Even so, carefully planned shade can make streets more comfortable and reduce the amount of heat that pavement and walls absorb.

155. Besides providing shade, how can trees cool surrounding air?

- A) By reflecting every ray of sunlight
- B) By releasing water vapor through their leaves
- C) By preventing all wind
- D) By warming nearby soil

156. What is the passage mainly about?

- A) Why all city pavement should be removed
- B) How to grow large trees quickly
- C) Why heat islands occur only after sunset
- D) How thoughtfully placed shade can help reduce urban heat

157. Why might a city use an awning instead of a tree in some locations?

- A) The site may lack enough growing space for roots and branches.
- B) Awnings release more water vapor than leaves.
- C) Trees cannot block direct sunlight.
- D) Awnings require many years to provide shade.

158. As used in the first paragraph, contributes most nearly means ____.

- A) measures precisely
- B) completely prevents
- C) increases slightly
- D) helps cause

159. How is the passage mainly organized?

- A) It presents two opposing opinions about city design.
- B) It gives a chronological history of tree planting.
- C) It explains a problem, describes one response, and discusses practical limits.
- D) It lists city temperatures from highest to lowest.

Literary Passage: The Borrowed Bowl

For the spring market, Tessa planned to sell small bowls she had shaped in the school pottery studio. Most were smooth and evenly glazed, but one pale bowl tilted slightly to the left. She placed it beneath the table, certain no customer would choose it.

Just before the market opened, the art teacher asked to borrow a bowl for holding raffle tickets. Tessa offered the tilted one. As people arrived, they reached into it again and again. A little girl traced the uneven rim and said it looked like a wave. Another visitor asked whether the pale streak in its glaze was intentional.

By noon, the raffle ended, and the teacher returned the empty bowl. Tessa set it beside the bowls for sale, though she turned the tilted side toward the wall. Within minutes, an older woman picked it up. She said she wanted a bowl for keys near her front door and liked that this one seemed to lean toward whoever approached it. After the woman bought it, Tessa did not decide that every flaw was beautiful. She still wanted to shape clay skillfully. But when she packed the unsold bowls, she stopped measuring success only by perfect circles.

160. Why does Tessa initially place the pale bowl beneath the table?

- A) She wants to reserve it for the raffle.
- B) She believes its tilt will make it undesirable.
- C) Its glaze has not dried.
- D) The teacher tells her to hide it.

161. What most changes Tessa's view of the bowl?

- A) The other bowls remain unsold.
- B) Her teacher explains how to repair it.
- C) Several people respond positively to its unusual features.
- D) The raffle raises more money than expected.

162. As used in the last paragraph, measuring most nearly means ____.

- A) calculating a physical width
- B) drawing a straight line
- C) comparing two objects by weight
- D) judging

163. The tilted bowl mainly symbolizes ____.

- A) value that can exist without perfection
- B) the importance of winning a raffle
- C) the difficulty of using pottery tools
- D) the cost of handmade goods

164. Which choice best summarizes the passage?

- A) A teacher teaches Tessa to make a perfectly round bowl.
- B) Customers help Tessa see that an imperfect bowl can still be useful and appealing.
- C) Tessa sells every bowl after displaying them in a raffle.
- D) A customer buys a bowl because it matches her other pottery.

Scientific Passage: Life on a Fallen Log

A fallen tree may look like forest waste, but it can become a busy habitat. Once a trunk lies on the ground, fungi begin breaking down its wood. Their threadlike structures spread through cracks and release substances that help decompose tough plant material.

As the wood softens, insects tunnel beneath the bark. These tunnels create spaces where moisture collects. Salamanders and other small animals may shelter in the cool, damp areas, while birds search the log for insects. Mosses sometimes grow on the surface and hold additional water.

Decomposition also returns nutrients to the soil. The process is gradual: a large trunk may take decades to become part of the forest floor. During that time, it changes from solid wood to a softer material sometimes called nurse wood. Seeds that land on it may sprout above the crowded ground, where they can reach light without competing with as many low plants.

Removing every fallen tree can therefore reduce shelter, food, moisture, and growing sites. In places where a log creates a safety hazard, removal may be necessary. Elsewhere, leaving some dead wood allows a tree to continue supporting forest life long after it has stopped growing.

165. What do insect tunnels help create?

- A) Stronger bark
- B) New branches
- C) Spaces where moisture collects
- D) Areas without fungi

166. What is the main idea of the passage?

- A) Fallen logs should always be removed immediately.
- B) Only insects benefit from dead wood.
- C) Fallen logs support forest life as they gradually decompose.
- D) Nurse wood forms only in crowded forests.

167. Why may seedlings benefit from growing on nurse wood?

- A) They no longer need nutrients.
- B) They are protected from every animal.
- C) Their roots never touch moisture.
- D) They may face less competition from low plants.

168. As used in the final paragraph, hazard most nearly means ____.

- A) danger
- B) habitat
- C) resource
- D) boundary

169. How is the passage mainly organized?

- A) It argues against two equally supported positions.
- B) It follows changes in a fallen log and explains their ecological effects.
- C) It compares forests in four climates.
- D) It gives directions for cutting a tree safely.

Historical-Style Passage: Maps Made from Reports

Before satellites photographed storms, weather information traveled by message. In the nineteenth century, expanding telegraph networks allowed observers in different towns to report temperature, wind, and air pressure to a central office. For the first time, measurements taken far apart could be compared soon after they were recorded.

Workers plotted the reports on maps. When similar air-pressure readings were connected, patterns appeared across regions. A single observation could describe only one place, but a map assembled from many observations could show the movement of a weather system. These early maps did not provide the detailed forecasts people expect today, yet they made short-term warnings more practical.

The system had limits. Instruments were not always calibrated alike, messages could arrive late, and large areas had few reporting stations. Mapmakers had to decide how much confidence to place in incomplete information. They revised maps as new reports arrived rather than treating the first version as final.

This work established an important principle of modern forecasting: useful predictions depend not only on gathering data but also on combining observations from many locations. Technology has transformed the speed and scale of that work, but the need to connect separate measurements remains.

170. What allowed distant weather measurements to be compared quickly?

- A) Printed atlases
- B) Satellite photographs
- C) Weather balloons
- D) Telegraph networks

171. What is the passage mainly about?

- A) Why nineteenth-century forecasts were always accurate
- B) How satellites replaced all ground measurements
- C) How combining telegraphed observations advanced weather mapping
- D) Why mapmakers avoided revising their work

172. Why did mapmakers revise maps when new reports arrived?

- A) They wanted every map to use different symbols.
- B) Telegraph messages erased earlier data.
- C) Weather instruments worked only once.
- D) Later information could improve an incomplete picture.

173. As used in the third paragraph, calibrated most nearly means ____.

- A) adjusted to measure accurately
- B) transported by train
- C) protected from rain
- D) connected by wire

174. The contrast between “a single observation” and “a map assembled from many observations” emphasizes ____.

- A) the artistic beauty of weather maps
- B) the value of combining separate pieces of information
- C) the cost of operating telegraph stations
- D) the difference between wind and air pressure

Section 4: Mathematics

64 questions | Recommended time: 45 minutes

175. What is the value of $18 - 3 \times 4 + 2$?

- A) 8
- B) 62
- C) 2
- D) 20

176. Which fraction is equivalent to 0.625?

- A) $\frac{3}{5}$
- B) $\frac{5}{8}$
- C) $\frac{2}{3}$
- D) $\frac{7}{10}$

177. What is the greatest common factor of 36 and 54?

- A) 6
- B) 9
- C) 18
- D) 27

178. Which number is prime?

- A) 51
- B) 57
- C) 69
- D) 71

179. Evaluate $2a^2 - 3b$ when $a = 4$ and $b = 2$.

- A) 26
- B) 10
- C) 58
- D) 29

180. Solve $4(x - 3) = 2x + 10$.

- A) 8
- B) 11
- C) 5
- D) 14

181. A taxi charges a fixed fee of \$3 plus \$2 per mile. Which expression gives the total cost for m miles?

- A) $3m + 2$
- B) $5m$
- C) $2m + 3$
- D) $2(m + 3)$

182. A recipe uses 2 cups of flour for every 3 batches. At this rate, how many cups are needed for 12 batches?

- A) 6
- B) 9
- C) 18
- D) 8

183. Two angles are complementary. One angle measures 37° . What is the measure of the other angle?

- A) 53°
- B) 143°
- C) 63°
- D) 323°

184. A square has an area of 144 square centimeters. What is its perimeter?

- A) 36 centimeters
- B) 48 centimeters
- C) 24 centimeters
- D) 576 centimeters

185. A right triangle has legs of 6 units and 8 units. What is the length of its hypotenuse?

- A) 12 units
- B) 14 units
- C) 10 units
- D) 7 units

186. A movie begins at 6:47 p.m. and ends at 8:35 p.m. How long is the movie?

- A) 1 hour 38 minutes
- B) 2 hours 12 minutes
- C) 1 hour 52 minutes
- D) 1 hour 48 minutes

187. A map uses a scale of 1 inch = 18 miles. Two towns are 3.5 inches apart on the map. What is their actual distance?

- A) 63 miles
- B) 54 miles
- C) 72 miles
- D) 21.5 miles

188. The mean of five numbers is 18. Four of the numbers are 12, 17, 20, and 24. What is the fifth number?

- A) 15
- B) 17
- C) 19
- D) 21

189. A bag contains 4 red, 3 blue, and 5 green tiles. What is the probability of drawing a blue tile?

- A) $\frac{1}{3}$
- B) $\frac{3}{8}$
- C) $\frac{1}{4}$
- D) $\frac{3}{5}$

190. The data set is 6, 8, 8, 11, 14, 17. Which statement is true?

- A) The mean is 11.
- B) The mode is 11.
- C) The range is 9.
- D) The median is 9.5.

191. What is $2\frac{1}{4} + 3\frac{2}{3}$?

- A) $5\frac{5}{7}$
- B) $6\frac{1}{12}$
- C) $5\frac{11}{12}$
- D) $5\frac{1}{2}$

192. What is $|-14| - |5|$?

- A) -19
- B) -9
- C) 19
- D) 9

193. A jacket priced at \$60 is discounted by 15%. What is the sale price?

- A) \$51
- B) \$45
- C) \$54
- D) \$9

194. Simplify $3(2x + 5) - 4x$.

- A) $2x + 5$
- B) $2x + 15$
- C) $6x + 1$
- D) $10x + 15$

195. Which inequality represents “five less than twice a number is at least 17”?

- A) $5 - 2n \geq 17$
- B) $2(n - 5) > 17$
- C) $2n + 5 \leq 17$
- D) $2n - 5 \geq 17$

196. The function rule is $f(x) = 3x - 4$. What is $f(-2)$?

- A) -10
- B) -2
- C) 2
- D) 10

197. Priya has \$18 and saves \$7 each week. After how many weeks will she have \$60?

- A) 5
- B) 6
- C) 7
- D) 8

198. Each exterior angle of a regular polygon measures 45° . How many sides does the polygon have?

- A) 6
- B) 7
- C) 8
- D) 9

199. A circle has circumference 10π centimeters. What is its radius?

- A) 10 centimeters
- B) 20 centimeters
- C) 2.5 centimeters
- D) 5 centimeters

200. A rectangle has vertices at (1, 2), (1, 7), (6, 7), and (6, 2). What is its area?

- A) 25 square units
- B) 10 square units
- C) 30 square units
- D) 36 square units

201. A container holds 2.75 liters. How many milliliters does it hold?

- A) 27.5
- B) 2,750
- C) 275
- D) 27,500

202. A cyclist travels 42 miles in 3.5 hours. What is the average speed?

- A) 10 miles per hour
- B) 11 miles per hour
- C) 12 miles per hour
- D) 14 miles per hour

203. A board 8 feet long is cut into pieces 16 inches long. How many complete pieces are made?

- A) 4
- B) 5
- C) 8
- D) 6

204. The numbers of books read are 3, 5, 5, 6, 9, 12, 14. What is the range?

- A) 11
- B) 9
- C) 8
- D) 17

205. A spinner has four equal sections labeled 1, 2, 3, and 4. It is spun twice. What is the probability of spinning a 4 both times?

- A) $\frac{1}{8}$
- B) $\frac{1}{16}$
- C) $\frac{1}{4}$
- D) $\frac{1}{2}$

206. Set A is 4, 6, 8, 10. Set B is 1, 6, 8, 13. Which statement is true?

- A) Set A has a greater mean.
- B) Set B has a greater median.
- C) The sets have equal means but Set B has a greater range.
- D) The sets have equal ranges but different means.

207. What is $\frac{5}{6} - \frac{1}{4}$?

- A) $\frac{1}{2}$
- B) $\frac{2}{3}$
- C) $\frac{3}{10}$
- D) $\frac{7}{12}$

208. Which number is a multiple of 14 and a factor of 98?

- A) 7
- B) 21
- C) 28
- D) 14

209. What is the value of $-6 + 4(-3)$?

- A) -18
- B) -6
- C) 6
- D) 18

210. Which is the best estimate of 19.8×4.1 ?

- A) 40
- B) 80
- C) 100
- D) 120

211. Solve $3x/4 = 18$.

- A) 12
- B) 18
- C) 21
- D) 24

212. Simplify $5y - 2(3y - 4)$.

- A) $8 - y$
- B) $y + 8$
- C) $11y - 8$
- D) $-y - 8$

213. A line follows the rule $y = 2x + 1$. Which ordered pair lies on the line?

- A) (1, 2)
- B) (2, 5)
- C) (3, 5)
- D) (4, 7)

214. Three consecutive integers have a sum of 72. What is the greatest integer?

- A) 23
- B) 24
- C) 25
- D) 26

215. A trapezoid has bases of 8 and 14 units and a height of 5 units. What is its area?

- A) 55 square units
- B) 44 square units
- C) 70 square units
- D) 110 square units

216. Two similar triangles have corresponding sides of 6 and 9 units. If another side of the smaller triangle is 10 units, what is the corresponding side of the larger triangle?

- A) 12
- B) 15
- C) 16
- D) 18

217. What is the sum of the interior angles of a hexagon?

- A) 360°
- B) 540°
- C) 720°
- D) 900°

218. A package weighs 3 pounds 8 ounces. How many ounces does it weigh?

- A) 44
- B) 48
- C) 52
- D) 56

219. A faucet fills 15 gallons in 6 minutes. At the same rate, how many gallons does it fill in 14 minutes?

- A) 30
- B) 35
- C) 36
- D) 42

220. The median of 4, 7, 9, x , and 15 is 9, and the numbers are listed in order. Which could be x ?

- A) 6
- B) 8
- C) 12
- D) 17

221. A jar contains 3 white and 7 black beads. One bead is drawn, replaced, and another is drawn. What is the probability that both are white?

- A) $\frac{9}{100}$
- B) $\frac{3}{10}$
- C) $\frac{6}{10}$
- D) $\frac{9}{20}$

222. A survey recorded 8 votes for music, 12 for art, 5 for drama, and 15 for sports. What percent chose art?

- A) 12%
- B) 24%
- C) 30%
- D) 40%

223. What is $3.6 \div 0.12$?

- A) 30
- B) 3
- C) 0.3
- D) 300

224. Which value is greatest?

- A) 62%
- B) $\frac{3}{5}$
- C) 0.61
- D) $\frac{5}{8}$

225. What is the least common denominator of $\frac{1}{6}$, $\frac{5}{8}$, and $\frac{7}{12}$?

- A) 12
- B) 18
- C) 48
- D) 24

226. Solve $7 - 2x = -11$.

- A) -9
- B) 2
- C) 7
- D) 9

227. Which expression represents the total cost of n notebooks at \$2.50 each and one \$6 binder?

- A) $2.50n + 6$
- B) $8.50n$
- C) $6n + 2.50$
- D) $2.50(n + 6)$

228. If $g(x) = x^2 - 2$, what is $g(5) - g(3)$?

- A) 12
- B) 16
- C) 18
- D) 20

229. Solve the inequality $3x + 4 < 19$.

- A) $x < 3$
- B) $x > 5$
- C) $x < 5$
- D) $x > 3$

230. A rectangular prism has dimensions 5, 4, and 3 units. What is its surface area?

- A) 47 square units
- B) 60 square units
- C) 120 square units
- D) 94 square units

231. One angle of an isosceles triangle measures 100° . What is the measure of each of the other two angles?

- A) 40°
- B) 50°
- C) 80°
- D) 100°

232. A circle has radius 7 centimeters. Using $\pi = 22/7$, what is its area?

- A) 44 square centimeters
- B) 154 square centimeters
- C) 308 square centimeters
- D) 484 square centimeters

233. A 750-gram bag of rice is combined with a 1.25-kilogram bag. What is the total mass in kilograms?

- A) 1.325
- B) 1.75
- C) 2
- D) 2.75

234. A train travels 210 miles at 60 miles per hour. How long does the trip take?

- A) 3 hours 30 minutes
- B) 3 hours 15 minutes
- C) 4 hours
- D) 4 hours 30 minutes

235. A rectangular garden measures 12 meters by 9 meters. Fencing costs \$8 per meter. What is the total fencing cost?

- A) \$168
- B) \$336
- C) \$864
- D) \$1,344

236. The mean of 6, 10, 14, and x is 12. What is x ?

- A) 12
- B) 16
- C) 18
- D) 20

237. A fair coin is tossed and a standard number cube is rolled. What is the probability of heads and an even number?

- A) $\frac{1}{6}$
- B) $\frac{1}{4}$
- C) $\frac{1}{3}$
- D) $\frac{1}{2}$

238. A data set has a minimum of 8, a maximum of 26, and a median of 17. If 30 is added, which measure must change?

- A) The minimum
- B) The original median
- C) The range
- D) All three measures

Section 5: Language

60 questions | Recommended time: 30 minutes

239. Which sentence is punctuated correctly?

- A) After the final bell rang, the students hurried outside.
- B) After the final bell rang the students, hurried outside.
- C) After, the final bell rang the students hurried outside.
- D) After the final bell, rang the students hurried outside.

240. Which sentence uses the apostrophe correctly?

- A) The two players uniforms were muddy.
- B) The two players' uniforms were muddy.
- C) The two player's uniforms were muddy.
- D) The two players's uniforms were muddy.

241. Which sentence is punctuated correctly?

- A) I packed three items, a flashlight, a compass, and a map.
- B) I packed: three items a flashlight, a compass, and a map.
- C) I packed three items: a flashlight, a compass, and a map.
- D) I packed three items; a flashlight, a compass, and a map.

242. Which sentence uses capitalization correctly?

- A) Our class visited the statue of Liberty in October.
- B) Our Class visited the Statue of Liberty in october.
- C) Our class visited the Statue Of Liberty in October.
- D) Our class visited the Statue of Liberty in October.

243. Which sentence uses capitalization correctly?

- A) Professor Elena Ruiz teaches Spanish on Mondays.
- B) professor Elena Ruiz teaches spanish on Mondays.
- C) Professor Elena Ruiz teaches Spanish on mondays.
- D) Professor elena Ruiz teaches spanish on Mondays.

244. Which word is spelled correctly?

- A) neccessary
- B) necessary
- C) necesary
- D) necessery

245. Which sentence contains a misspelled word?

- A) The committee reviewed the proposal.
- B) Please separate the white shirts from the dark ones.
- C) The guide described the ancint bridge.
- D) We were grateful for the assistance.

246. Which sentence is grammatically correct?

- A) The basket of clean towels were on the bench.
- B) The basket of clean towels are on the bench.
- C) The basket of clean towels have been on the bench.
- D) The basket of clean towels was on the bench.

247. Which sentence uses the correct pronoun?

- A) Jordan and I prepared the display.
- B) Me and Jordan prepared the display.
- C) Jordan and me prepared the display.
- D) Jordan and myself prepared the display.

248. Which revision correctly completes the sentence? By the time the guests arrived, we ____ dinner.

- A) prepare
- B) had prepared
- C) will prepare
- D) preparing

249. Which word correctly completes the sentence? The new schedule will ____ when the buses arrive.

- A) effect
- B) effected
- C) affect
- D) affection

250. Which sentence is the clearest and most concise?

- A) At this point in time, we are currently ready.
- B) We are ready now at this current point.
- C) Currently now, we are ready at this time.
- D) We are ready now.

Editing Passage: A Useful Corner of the Schoolyard

(1) An unused corner of our schoolyard could become an outdoor reading area. (2) Several shady trees already make the space comfortable during warm weather. 251. Which sentence should be removed because it does not support the paragraph's main idea?

- A) Sentence 4
- B) Sentence 2
- C) Sentence 5
- D) Sentence 6

252. Which sentence would best follow sentence 3?

- A) Reading is one of many skills taught in school.
- B) Some cabinets are made from painted metal.
- C) A student committee could rotate the book selection each month.
- D) The schoolyard is larger than the parking lot.

253. Which is the best title for the paragraph?

- A) Why Basketball Practice Matters
- B) Trees Found in Many Schoolyards
- C) How to Build a Wooden Cabinet
- D) Turning Empty Space into a Learning Area

254. Which sentence is punctuated correctly?

- A) The rain stopped we continued the game.
- B) The rain stopped, we continued the game.
- C) The rain stopped: and we continued the game.
- D) The rain stopped; we continued the game.

255. Which sentence uses quotation marks and punctuation correctly?

- A) Maya asked, "Where did you put the tickets?"
- B) Maya asked "Where did you put the tickets"?
- C) Maya asked, "Where did you put the tickets"?
- D) Maya asked "Where did you put the tickets?"

256. Which sentence uses capitalization correctly?

- A) We drove West across Kansas in July.
- B) We drove west across Kansas in July.
- C) We drove west across kansas in July.
- D) We drove West across Kansas in july.

257. Which sentence uses capitalization correctly?

- A) The science club meets on Tuesday in the Library.
- B) The Science Club meets on tuesday in the library.
- C) The science club meets on Tuesday in the library.
- D) The Science club meets on Tuesday in the Library.

258. Which word is spelled correctly?

- A) embarass
- B) embaras
- C) embarras
- D) embarrass

259. Which sentence contains a misspelled word?

- A) The package arived yesterday.
- B) Her explanation was reasonable.
- C) We admired the brilliant performance.
- D) The path was completely blocked.

260. Which word correctly completes the sentence? The hikers carried enough ____ for the trip.

- A) supplies
- B) supplies
- C) supplys
- D) supples

261. Which sentence is grammatically correct?

- A) Neither of the answers are correct.
- B) Neither of the answers be correct.
- C) Neither of the answers is correct.
- D) Neither of the answers have been correct.

262. Which sentence has correct parallel structure?

- A) Lena enjoys sketching, to swim, and baking.
- B) Lena enjoys to sketch, swimming, and to bake.
- C) Lena enjoys sketching, to swim, and to bake.
- D) Lena enjoys sketching, swimming, and baking.

263. Which choice is a complete sentence?

- A) We followed the marked detour.
- B) While waiting near the gate.
- C) The lantern on the porch.
- D) Because the road was closed.

264. Which word correctly completes the sentence? The puppy wagged ____ tail.

- A) it's
- B) its
- C) its'
- D) it is

265. Which transition best completes the sentence? The trail was steep and rocky; ____, the hikers reached the summit before noon.

- A) for example
- B) similarly
- C) nevertheless
- D) therefore

Editing Passage: Sharing Tools at School

(1) Our school could create a tool-lending shelf for student projects. (2) Many students need rulers, scissors, calculators, or art supplies only for a short time. (3) Donated tools could be labeled and stored near the library desk. (4) Students would sign each item out and return it by an assigned date. (5) The cafeteria serves soup on Wednesdays. 266. Which sentence should be removed to improve paragraph unity?

- A) Sentence 3
- B) Sentence 6
- C) Sentence 2
- D) Sentence 5

267. Which sentence would best follow sentence 4?

- A) A student volunteer could check returned tools for damage.
- B) Some projects take several weeks to finish.
- C) Libraries contain many kinds of books.
- D) The shelf could be painted blue or green.

268. Which revision best combines sentences 3 and 4?

- A) Donated tools labeled and stored near the desk, students signing them out.
- B) Donated tools could be labeled, stored near the library desk, signed out, and returned by an assigned date.
- C) Donated tools could be labeled near the library desk, but students returned them.
- D) Because donated tools could be stored, and students would sign each item out by a date.

269. Which sentence is punctuated correctly?

- A) Before leaving, check the windows, lock the door, and turn off the lights.
- B) Before leaving check, the windows lock the door and turn off the lights.
- C) Before leaving; check the windows, lock the door and turn off the lights.
- D) Before leaving check the windows; lock the door, and turn off the lights.

270. Which sentence is punctuated correctly?

- A) My aunt who lives in Denver, arrives tomorrow.
- B) My aunt, who lives in Denver, arrives tomorrow.
- C) My aunt who lives, in Denver arrives tomorrow.
- D) My aunt; who lives in Denver; arrives tomorrow.

271. Which sentence is punctuated correctly?

- A) Yes I remembered, the permission slip.
- B) Yes; I remembered the permission slip.
- C) Yes, I remembered the permission slip.
- D) Yes I remembered the permission slip,

272. Which sentence uses capitalization correctly?

- A) We celebrate independence Day in July.
- B) We celebrate Independence day in july.
- C) We Celebrate Independence Day in July.
- D) We celebrate Independence Day in July.

273. Which sentence uses capitalization correctly?

- A) Dr. Chen spoke at Lincoln Middle School on Friday.
- B) dr. Chen spoke at lincoln Middle School on Friday.
- C) Dr. chen spoke at Lincoln middle school on friday.
- D) Dr. Chen spoke at Lincoln Middle school on Friday.

274. Which word is spelled correctly?

- A) occurrence
- B) occurence
- C) occurence
- D) occuranse

275. Which sentence contains a misspelled word?

- A) The audience remained attentive.
- B) We followed the familiar route.
- C) The machine requires regular maintenence.
- D) Her response was immediate.

276. Which sentence uses pronouns correctly?

- A) The coach gave the forms to Marcus and me.
- B) The coach gave the forms to Marcus and myself.
- C) The coach gave the forms to he and Marcus.
- D) The coach gave the forms to Marcus and I.

277. Which sentence places the modifier correctly?

- A) Wearing a yellow jacket, Talia was easy to spot.
- B) Talia was easy to spot wearing a yellow jacket the crowd.
- C) Wearing a yellow jacket, the crowd spotted Talia easily was.
- D) The crowd wearing a yellow jacket easily spotted Talia.

278. Which sentence is grammatically correct?

- A) The dog barked, the baby woke up.
- B) The dog barked, and the baby woke up.
- C) The dog barking and the baby woke up.
- D) The dog barked and, the baby woke up.

279. Which word correctly completes the sentence? There are ____ chairs in this room than in the hall.

- A) less
- B) little
- C) fewer
- D) fewest

280. Which sentence uses the most precise language?

- A) The bird went across the yard.
- B) The bird did something near the fence.
- C) The bird was there for a while.
- D) The sparrow darted across the yard.

- A) Sentence 4
- B) Sentence 5
- C) Sentence 6
- D) Sentence 7

283. Which transition would best begin sentence 5?

- A) In contrast,
- B) For example,
- C) Meanwhile,
- D) In addition,

284. Which sentence is punctuated correctly?

- A) We need the following supplies: tape, string, cardboard, and paint.
- B) We need: the following supplies tape, string, cardboard, and paint.
- C) We need the following supplies; tape, string, cardboard, and paint.
- D) We need the following supplies, tape, string, cardboard, and paint.

285. Which sentence is punctuated correctly?

- A) Although it was late we finished, the puzzle.
- B) Although it was late, we finished the puzzle.
- C) Although, it was late we finished the puzzle.
- D) Although it was late; we finished the puzzle.

286. Which sentence uses capitalization correctly?

- A) The Pacific ocean borders California.
- B) The pacific Ocean borders California.
- C) The Pacific Ocean borders California.
- D) The Pacific Ocean borders california.

287. Which sentence uses capitalization correctly?

- A) Mayor Ortiz visited our School in March.
- B) mayor Ortiz visited our school in March.
- C) Mayor ortiz visited our school in march.
- D) Mayor Ortiz visited our school in March.

288. Which word is spelled correctly?

- A) privilege
- B) privelege
- C) priviledge
- D) priveledge

289. Which sentence contains a misspelled word?

- A) The result was surprising.
- B) We visited a nearby restaurant.
- C) She recieved a thoughtful note.
- D) Please answer the question carefully.

290. Which word correctly completes the sentence? The team showed great ____ during the long match.

- A) endurance
- B) endurance
- C) endurane
- D) endurance

291. Which sentence is grammatically correct?

- A) Each of the paintings has a wooden frame.
- B) Each of the paintings have a wooden frame.
- C) Each of the painting have wooden frames.
- D) Each of the paintings are having a wooden frame.

292. Which sentence uses verb tense correctly?

- A) Yesterday we walk to the pond and watched ducks.
- B) Yesterday we walked to the pond and watched ducks.
- C) Yesterday we had walk to the pond and watch ducks.
- D) Yesterday we walking to the pond and watched ducks.

293. Which sentence is grammatically correct?

- A) The books is stacked beside the cabinet.
- B) The books beside the cabinet.
- C) The books are stacked beside the cabinet.
- D) The books they are stacked beside the cabinet.

294. Which word correctly completes the sentence? We divided the snacks ____ the six teams.

- A) between
- B) inside
- C) beside
- D) among

Detailed Explanations

Verbal Skills

1. HSPT-V1-001 - Answer A: hardworking

Diligent describes someone who works carefully and steadily, so hardworking is the closest synonym.

2. HSPT-V1-002 - Answer B: unwilling

Reluctant describes someone who is hesitant or unwilling to act.

3. HSPT-V1-003 - Answer C: confirm

To verify something is to check and confirm that it is true or accurate.

4. HSPT-V1-004 - Answer D: flexible

Rigid means stiff or unable to bend, while flexible means able to bend.

5. HSPT-V1-005 - Answer A: reveal

Conceal means to hide; reveal means to make known or visible.

6. HSPT-V1-006 - Answer B: plentiful

Scarce means limited or hard to find, whereas plentiful means abundant.

7. HSPT-V1-007 - Answer C: book

A petal is part of a flower, just as a page is part of a book.

8. HSPT-V1-008 - Answer D: weight

A thermometer measures temperature, while a scale measures weight.

9. HSPT-V1-009 - Answer A: cow

A sapling is a young tree, and a calf is a young cow.

10. HSPT-V1-010 - Answer B: granite

Copper, silver, and iron are metals; granite is a rock.

11. HSPT-V1-011 - Answer C: ode

A sonnet, haiku, limerick, and ode are all forms of poetry.

12. HSPT-V1-012 - Answer D: birds

Robins, sparrows, and finches are all birds.

13. HSPT-V1-013 - Answer A: Lena practices on Tuesday.

The rule applies to every debate-team student, and Lena is identified as one.

14. HSPT-V1-014 - Answer B: green

Blue is last, and yellow cannot be first; only green can begin the green-red pair.

15. HSPT-V1-015 - Answer C: The library is not open.

If being open requires the light to be on, an unlit light proves the library is not open.

16. HSPT-V1-016 - Answer B: peaceful

Tranquil means calm and free from disturbance, so peaceful is the closest synonym.

17. HSPT-V1-017 - Answer C: detailed

Elaborate describes something containing many carefully developed details.

18. HSPT-V1-018 - Answer D: decrease

To diminish is to become or make smaller, which means decrease.

19. HSPT-V1-019 - Answer A: permanent

Temporary means lasting a limited time; permanent means lasting indefinitely.

20. HSPT-V1-020 - Answer B: reckless

Cautious behavior avoids risk, while reckless behavior ignores it.

21. HSPT-V1-021 - Answer C: contract

Expand means grow larger; contract means become smaller.

22. HSPT-V1-022 - Answer D: brush

A carpenter uses a hammer, just as a painter uses a brush.

23. HSPT-V1-023 - Answer A: pottery

Wool is material made into a sweater, and clay is material made into pottery.

24. HSPT-V1-024 - Answer B: rest
Food responds to hunger, just as rest responds to fatigue.
25. HSPT-V1-025 - Answer C: sprint
Whisper, murmur, and mutter are ways of speaking quietly; sprint is a way of running.
26. HSPT-V1-026 - Answer D: elm
Cedar, maple, birch, and elm are kinds of trees.
27. HSPT-V1-027 - Answer A: measuring tools
A compass, ruler, and protractor are tools used to measure or construct geometric figures.
28. HSPT-V1-028 - Answer B: Dana
The required order is Dana, Ava, Ben, Carlos, so Dana must be first.
29. HSPT-V1-029 - Answer C: No item in box K is made of glass.
All box K items are flexible, and no glass object can be flexible.
30. HSPT-V1-030 - Answer D: Wednesday
Attendance rules out Monday and Friday, leaving Wednesday as the only possible day.
31. HSPT-V1-031 - Answer C: adaptable
Resilient describes an ability to recover and adjust, making adaptable the closest choice.
32. HSPT-V1-032 - Answer D: brief
Concise language expresses an idea clearly in few words, so it is brief.
33. HSPT-V1-033 - Answer A: block
To obstruct something is to block its movement or progress.
34. HSPT-V1-034 - Answer B: stingy
Generous means willing to give; stingy means unwilling to give.
35. HSPT-V1-035 - Answer C: natural
Artificial means made rather than naturally occurring, so natural is its opposite.
36. HSPT-V1-036 - Answer D: rare
Frequent means happening often, while rare means happening seldom.
37. HSPT-V1-037 - Answer A: grapes
An orchard produces fruit, just as a vineyard produces grapes.
38. HSPT-V1-038 - Answer B: morning
An apprentice develops into an expert, while dawn develops into morning.
39. HSPT-V1-039 - Answer C: sword
A glove covers and protects a hand, while a sheath covers and protects a sword.
40. HSPT-V1-040 - Answer D: cylinder
The other choices are two-dimensional polygons; a cylinder is a three-dimensional solid.
41. HSPT-V1-041 - Answer A: guitar
Violin, cello, harp, and guitar are stringed instruments.
42. HSPT-V1-042 - Answer C: planets
Mercury, Venus, and Mars are planets in the solar system.
43. HSPT-V1-043 - Answer D: The south door is unlocked.
Exactly one door is unlocked, and it cannot be the locked north door.
44. HSPT-V1-044 - Answer A: green
Green must separate red and blue because those two cannot be adjacent.
45. HSPT-V1-045 - Answer B: Some museum volunteers completed the safety course.
Some volunteers are certified guides, and every certified guide completed the course.
46. HSPT-V1-046 - Answer B: watchful
Vigilant means staying alert and watchful for possible problems.
47. HSPT-V1-047 - Answer C: possible
Feasible describes something that can be done, meaning possible.
48. HSPT-V1-048 - Answer D: keep
To retain something is to continue to have or keep it.
49. HSPT-V1-049 - Answer A: occupied
Vacant means empty or unoccupied; occupied is its opposite.

50. HSPT-V1-050 - Answer B: reject
To approve is to accept or authorize, while to reject is to refuse.
51. HSPT-V1-051 - Answer C: opaque
Transparent material permits sight through it; opaque material does not.
52. HSPT-V1-052 - Answer D: fish
An aviary houses birds, just as an aquarium houses fish.
53. HSPT-V1-053 - Answer A: meal
A blueprint guides the creation of a building, while a recipe guides the creation of a meal.
54. HSPT-V1-054 - Answer B: invention
A spark can begin a fire, just as an idea can begin an invention.
55. HSPT-V1-055 - Answer D: complain
Applaud, cheer, and praise express approval; complain expresses dissatisfaction.
56. HSPT-V1-056 - Answer A: diamond
Ruby, emerald, sapphire, and diamond are gemstones.
57. HSPT-V1-057 - Answer C: books
A novel, biography, and dictionary are all types of books.
58. HSPT-V1-058 - Answer D: Someone signed for the package.
Delivery occurs only when the required signature is provided.
59. HSPT-V1-059 - Answer B: J
The only possible order is K, J, L, M, so J finishes second.
60. HSPT-V1-060 - Answer C: The lake trail
The uninspected bridge proves the oak trail is closed; exactly one trail is open, so the lake trail is open.

Quantitative Skills

61. HSPT-Q1-001 - Answer A: 27

Each term increases by 5, so $22 + 5 = 27$.

62. HSPT-Q1-002 - Answer B: 360

The terms are multiplied successively by 2, 3, 4, and then 5; $72 \times 5 = 360$.

63. HSPT-Q1-003 - Answer C: 26

The differences are -5, -4, and -3, so the next difference is -2; $28 - 2 = 26$.

64. HSPT-Q1-004 - Answer D: 8

Two interwoven sequences increase by 2: 2, 4, 6, 8 and 9, 11, 13.

65. HSPT-Q1-005 - Answer A: 54

A number divisible by both 6 and 9 must be divisible by 18, and $54 \div 18 = 3$.

66. HSPT-Q1-006 - Answer B: 25%

The increase is 20, and $20 \div 80 = 0.25 = 25\%$.

67. HSPT-Q1-007 - Answer C: 45

Divide 27 by $\frac{3}{5}$: $27 \times \frac{5}{3} = 45$.

68. HSPT-Q1-008 - Answer D: The relationship cannot be determined from the information given.

If x is positive, Quantity A is greater; if x is negative, Quantity B is greater.

69. HSPT-Q1-009 - Answer A: Quantity A is greater.

Both quantities contain n , and 6 is greater than 2, so Quantity A is always 4 greater.

70. HSPT-Q1-010 - Answer B: Quantity B is greater.

Quantity A is $25 - 10 = 15$, while Quantity B is $8 + 8 = 16$.

71. HSPT-Q1-011 - Answer C: The two quantities are equal.

The area is $6 \times 3 = 18$, and the perimeter is $2(6 + 3) = 18$.

72. HSPT-Q1-012 - Answer D: The relationship cannot be determined from the information given.

Each base angle is $(180^\circ - x^\circ) \div 2$, which may be above, below, or equal to 60° .

73. HSPT-Q1-013 - Answer B: Quantity B is greater.

The diameter is $2 \times 4 = 8$ units, which is less than 9 units.

74. HSPT-Q1-014 - Answer C: 46

The increases are 3, 6, 9, and 12; adding the next increase, 15, gives 46.

75. HSPT-Q1-015 - Answer D: 10

Each term is half the preceding term, so $20 \div 2 = 10$.

76. HSPT-Q1-016 - Answer A: 41

The pattern alternates between adding 3 and multiplying by 2; $38 + 3 = 41$.

77. HSPT-Q1-017 - Answer B: $7 \times 12 - 7 \times 5$

The distributive property gives $7(12 - 5) = 7 \times 12 - 7 \times 5$.

78. HSPT-Q1-018 - Answer C: 16

Twenty-eight red flags represent four groups of 7, so blue flags equal $4 \times 4 = 16$.

79. HSPT-Q1-019 - Answer D: 12

Divide both sides by 0.6: $n = 7.2 \div 0.6 = 12$.

80. HSPT-Q1-020 - Answer A: 5,297

Numbers from 5,250 through 5,349 round to 5,300, so 5,297 qualifies.

81. HSPT-Q1-021 - Answer B: Quantity B is greater.

$\frac{3}{5} \div \frac{2}{3} = \frac{3}{5} \times \frac{3}{2} = \frac{9}{10}$, which is less than 1.

82. HSPT-Q1-022 - Answer B: Quantity B is greater.

The least common multiple of 8 and 12 is 24, which is less than 30.

83. HSPT-Q1-023 - Answer C: The two quantities are equal.

With $y = 3$, both y^2 and $3y$ equal 9.

84. HSPT-Q1-024 - Answer D: The relationship cannot be determined from the information given.

Comparing s^2 with $4s$ depends on whether s is below, equal to, or above 4.

85. HSPT-Q1-025 - Answer A: Quantity A is greater.
The other angle is $180^\circ - 60^\circ = 120^\circ$, which is greater than 90° .
86. HSPT-Q1-026 - Answer C: The two quantities are equal.
The volume is $2 \times 3 \times 4 = 24$ cubic units, equal to Quantity B.
87. HSPT-Q1-027 - Answer D: 95
Each term is twice the preceding term plus 1, so $47 \times 2 + 1 = 95$.
88. HSPT-Q1-028 - Answer A: 25
The terms are descending squares: $9^2, 8^2, 7^2, 6^2$, then $5^2 = 25$.
89. HSPT-Q1-029 - Answer B: 204
The operations are $+1, \times 2, +2, \times 3, +3$, then $\times 4$; $51 \times 4 = 204$.
90. HSPT-Q1-030 - Answer C: $3/64$
Each term is divided by 2, so $3/32 \div 2 = 3/64$.
91. HSPT-Q1-031 - Answer D: 35
If 2 parts equal 10, one part equals 5; therefore 7 parts equal 35.
92. HSPT-Q1-032 - Answer D: $32 \div 2$
The values are 13, 14, 15, and 16, so $32 \div 2$ is greatest.
93. HSPT-Q1-033 - Answer A: \$48
The price becomes \$60, then decreases by \$12; $\$60 - \$12 = \$48$.
94. HSPT-Q1-034 - Answer A: Quantity A is greater.
 $53 \div 6$ leaves remainder 5, and 5 is greater than 4.
95. HSPT-Q1-035 - Answer B: Quantity B is greater.
Subtracting 2 makes any number smaller, so k is greater than $k - 2$.
96. HSPT-Q1-036 - Answer C: The two quantities are equal.
 $0.45 \times 200 = 90$, which equals Quantity B.
97. HSPT-Q1-037 - Answer D: The relationship cannot be determined from the information given.
Valid integer values of x can make $10 + x$ less than, equal to, or greater than 18.
98. HSPT-Q1-038 - Answer B: Quantity B is greater.
One face has area $3^2 = 9$, while the cube's volume is $3^3 = 27$.
99. HSPT-Q1-039 - Answer C: The two quantities are equal.
The area formula for a parallelogram is base $\times$ height, or bh .
100. HSPT-Q1-040 - Answer A: 66
The differences double: 2, 4, 8, 16, then 32; $34 + 32 = 66$.
101. HSPT-Q1-041 - Answer B: 40
Successive subtractions are 4, 8, 12, and 16; subtracting 20 next gives 40.
102. HSPT-Q1-042 - Answer C: 42
The terms are products $1 \times 2, 2 \times 3, 3 \times 4$, and so on; $6 \times 7 = 42$.
103. HSPT-Q1-043 - Answer D: 8
Subtract $3n$ and 2 : $2n = 16$, so $n = 8$.
104. HSPT-Q1-044 - Answer A: 180
The least common multiple of 9, 12, and 15 is $2^2 \times 3^2 \times 5 = 180$.
105. HSPT-Q1-045 - Answer B: 10
Water is 2 of 5 equal parts, so $2/5 \times 25 = 10$ cups.
106. HSPT-Q1-046 - Answer C: 0.4375
Dividing 7 by 16 gives 0.4375.
107. HSPT-Q1-047 - Answer C: The two quantities are equal.
Both quantities equal 32: $2\square = 32$ and $5^2 + 7 = 32$.
108. HSPT-Q1-048 - Answer A: Quantity A is greater.
For positive m , dividing by 4 gives a larger result than dividing by 5.
109. HSPT-Q1-049 - Answer D: The relationship cannot be determined from the information given.
If x is positive the quantities are equal; if x is negative, Quantity B is greater.
110. HSPT-Q1-050 - Answer D: The relationship cannot be determined from the information given.
The other angle is $90^\circ - x^\circ$, so its relationship to 55° depends on x .

111. HSPT-Q1-051 - Answer A: Quantity A is greater.
The radius is $12 \div 2 = 6$ units, which is greater than 5.
112. HSPT-Q1-052 - Answer B: Quantity B is greater.
The width is $48 \div 8 = 6$ units, which is less than 7.

Reading Comprehension

113. HSPT-R1-001 - Answer A: She loosens a joint and shortens a reed.
The final paragraph directly states that Mara makes these two adjustments.
114. HSPT-R1-002 - Answer B: To show that usefulness can matter more than perfect appearance
The patched kite looked imperfect but remained airborne longer than the perfect-looking kites.
115. HSPT-R1-003 - Answer C: shook briefly
The surrounding actions—dipping and then climbing—show that shuddered means shook briefly.
116. HSPT-R1-004 - Answer D: strength gained through repair and persistence
Its patches strengthen weak places and encourage Mara to improve rather than abandon her kite.
117. HSPT-R1-005 - Answer A: Imperfect work can succeed when it is thoughtfully improved.
Mara repairs an uneven kite, which then succeeds despite its imperfect appearance.
118. HSPT-R1-006 - Answer B: Create pathways that help water enter the soil
The passage explicitly says roots create small pathways through which water can soak.
119. HSPT-R1-007 - Answer C: The site's slope, soil, and typical rainfall
These three site conditions are named in the third paragraph.
120. HSPT-R1-008 - Answer D: It identifies a drainage problem, explains a response, and notes limitations.
The passage introduces overloaded drains, describes rain gardens, and explains conditions affecting their use.
121. HSPT-R1-009 - Answer A: pressure
Heavy runoff places pressure or demand on a drainage system that may fill too quickly.
122. HSPT-R1-010 - Answer B: They can collect runoff in several places before it reaches drains.
Distributed gardens reduce how much water enters the drainage system at one time.
123. HSPT-R1-011 - Answer C: To explain how pauses can contribute to communication
The passage describes several ways silence can support thought, attention, and clearer meaning.
124. HSPT-R1-012 - Answer D: The interviewee may provide an additional detail.
The third paragraph directly explains that waiting may prompt an otherwise unspoken detail.
125. HSPT-R1-013 - Answer A: Thoughtful timing can be as important as word choice.
The author concludes that communication includes timing as well as words.
126. HSPT-R1-014 - Answer B: accept
In context, tolerate means allow or accept a brief silence without rushing to fill it.
127. HSPT-R1-015 - Answer C: can actively serve a purpose
Giving a pause the ability to “work” emphasizes its active contribution to communication.
128. HSPT-R1-016 - Answer D: thoughtful and explanatory
The author calmly considers several meanings and functions of pauses while explaining the idea.
129. HSPT-R1-017 - Answer A: A loose pencil
Ms. Bell discovers that a pencil vibrates when Nico plays the low notes.
130. HSPT-R1-018 - Answer B: Careful attention can solve small problems and improve performance.
Ms. Bell's patience solves the rattle and inspires Nico to listen more closely.
131. HSPT-R1-019 - Answer A: become fully heard before the next note
Nico slows down so that each note finishes sounding before he begins another.
132. HSPT-R1-020 - Answer B: leads Nico to practice with greater attention
Removing the pencil clears the rattle, after which Nico notices his rushed measure.
133. HSPT-R1-021 - Answer C: Patient observation can reveal opportunities for improvement.
Careful listening identifies both the external rattle and Nico's own rushed playing.
134. HSPT-R1-022 - Answer D: Weather, soil particles, or animal digestion
The second paragraph explicitly names these forces as ways to weaken a hard coat.
135. HSPT-R1-023 - Answer A: They wait until spring, when a longer growing season begins.
Cold delays autumn sprouting until conditions offer more time for growth.
136. HSPT-R1-024 - Answer B: Dormancy delays sprouting in ways that can improve a seed's chances.
The passage explains forms of dormancy and how their timing can reduce risk.

137. HSPT-R1-025 - Answer C: Not all seedlings face the same period of poor conditions.
Staggered sprouting allows later seedlings to avoid a drought that harms earlier ones.
138. HSPT-R1-026 - Answer D: People can copy natural processes to remove certain barriers to sprouting.
Scratching or cooling seeds removes a dormancy barrier without independently causing growth.
139. HSPT-R1-027 - Answer C: unmarked
Spotless contrasts with annotated and therefore describes a volume without readers' marks.
140. HSPT-R1-028 - Answer D: A book owner's name may not identify the writer of each note.
The passage directly warns that ownership and authorship of notes may differ.
141. HSPT-R1-029 - Answer A: To explain how readers' notes can reveal their interaction with texts
The passage describes marginalia and what it shows about active reading.
142. HSPT-R1-030 - Answer B: Annotations can make reading a more active process.
The author says readers question, connect, and select rather than merely receive words.
143. HSPT-R1-031 - Answer C: interactive
The metaphor presents reading as an encounter between a reader's thinking and written ideas.
144. HSPT-R1-032 - Answer D: It connects historical marginalia with a similar modern practice.
The final paragraph links older handwritten notes to paper and digital annotations today.
145. HSPT-R1-033 - Answer A: A loose screw allowed a metal arm to scrape another piece.
The passage identifies the loosened screw and scraping arm as the source of the slowdown.
146. HSPT-R1-034 - Answer B: She understands that careful observation is central to repair.
Leila sees that listening and tracing a small sound led to the solution.
147. HSPT-R1-035 - Answer C: remained fixed despite expectations
The clock should move, but its hands remain fixed at 2:17.
148. HSPT-R1-036 - Answer D: theme
The statement expresses the broader lesson that a small cause may create a major visible problem.
149. HSPT-R1-037 - Answer A: Careful attention can uncover a simple cause behind a major problem.
Mr. Imani solves the stopped clock by tracing a faint scrape to one screw.
150. HSPT-R1-038 - Answer B: She notices an unregistered boy near the doorway.
His hesitation prompts Amara to find the first additional chair.
151. HSPT-R1-039 - Answer C: Leaving room for unexpected needs can help people feel welcome.
Extra chairs allow unplanned guests to participate and make one child feel invited.
152. HSPT-R1-040 - Answer D: He has begun to understand Amara's reasoning.
Jonah first resists changes but later adds a chair without being asked.
153. HSPT-R1-041 - Answer A: welcome and possibility
The father explains that the available chair felt like an invitation to his nervous son.
154. HSPT-R1-042 - Answer B: Amara's willingness to add seats helps unexpected guests join the event.
This choice includes the central action and its important effect without unnecessary details.
155. HSPT-R1-043 - Answer B: By releasing water vapor through their leaves
The second paragraph explicitly identifies this cooling process.
156. HSPT-R1-044 - Answer D: How thoughtfully placed shade can help reduce urban heat
The passage explains shade's benefits, placement, options, and limitations in cities.
157. HSPT-R1-045 - Answer A: The site may lack enough growing space for roots and branches.
The passage says structures can provide shade where trees cannot grow and notes trees' space requirements.
158. HSPT-R1-046 - Answer D: helps cause
Heat stored and released by developed surfaces helps cause the urban heat-island effect.
159. HSPT-R1-047 - Answer C: It explains a problem, describes one response, and discusses practical limits.
The passage introduces urban heat, presents shade strategies, and notes placement and other needed protections.
160. HSPT-R1-048 - Answer B: She believes its tilt will make it undesirable.
Tessa hides the bowl because she assumes no customer will choose its uneven shape.
161. HSPT-R1-049 - Answer C: Several people respond positively to its unusual features.
Visitors admire the rim and glaze, and a customer values the bowl's welcoming tilt.
162. HSPT-R1-050 - Answer D: judging
Tessa stops judging success solely according to perfectly circular shapes.

163. HSPT-R1-051 - Answer A: value that can exist without perfection
Though imperfect, the bowl is useful, admired, and purchased.
164. HSPT-R1-052 - Answer B: Customers help Tessa see that an imperfect bowl can still be useful and appealing.
This choice captures both Tessa's changed view and the events that cause it.
165. HSPT-R1-053 - Answer C: Spaces where moisture collects
The second paragraph directly states that insect tunnels create moisture-holding spaces.
166. HSPT-R1-054 - Answer C: Fallen logs support forest life as they gradually decompose.
The passage describes shelter, food, moisture, nutrients, and growing sites supplied by decomposing logs.
167. HSPT-R1-055 - Answer D: They may face less competition from low plants.
Growing above the crowded ground can give seedlings better access to light with fewer nearby competitors.
168. HSPT-R1-056 - Answer A: danger
A safety hazard is something that presents danger and may require removal.
169. HSPT-R1-057 - Answer B: It follows changes in a fallen log and explains their ecological effects.
Each stage of decomposition is connected to benefits for organisms and soil.
170. HSPT-R1-058 - Answer D: Telegraph networks
Telegraph systems carried observations from distant towns to a central office quickly.
171. HSPT-R1-059 - Answer C: How combining telegraphed observations advanced weather mapping
The passage traces how shared measurements produced regional maps and more practical warnings.
172. HSPT-R1-060 - Answer D: Later information could improve an incomplete picture.
Reports could be delayed or sparse, so new data made a map more complete.
173. HSPT-R1-061 - Answer A: adjusted to measure accurately
Instruments not calibrated alike could produce readings that were difficult to compare reliably.
174. HSPT-R1-062 - Answer B: the value of combining separate pieces of information
The contrast shows that many observations reveal regional patterns one report cannot show.

Mathematics

175. HSPT-M1-001 - Answer A: 8

Multiply first: $3 \times 4 = 12$; then $18 - 12 + 2 = 8$.

176. HSPT-M1-002 - Answer B: $\frac{5}{8}$

$0.625 = \frac{625}{1000}$, which simplifies to $\frac{5}{8}$.

177. HSPT-M1-003 - Answer C: 18

The common factors include 1, 2, 3, 6, 9, and 18; the greatest is 18.

178. HSPT-M1-004 - Answer D: 71

The other choices are divisible by 3; 71 has no positive factors other than 1 and 71.

179. HSPT-M1-005 - Answer A: 26

Substitute the values: $2(4^2) - 3(2) = 32 - 6 = 26$.

180. HSPT-M1-006 - Answer B: 11

Expand and solve: $4x - 12 = 2x + 10$, so $2x = 22$ and $x = 11$.

181. HSPT-M1-007 - Answer C: $2m + 3$

The mileage charge is $2m$ dollars, and the fixed \$3 fee is added.

182. HSPT-M1-008 - Answer D: 8

Twelve batches are four groups of three, so the flour needed is $4 \times 2 = 8$ cups.

183. HSPT-M1-009 - Answer A: 53°

Complementary angles total 90° , and $90^\circ - 37^\circ = 53^\circ$.

184. HSPT-M1-010 - Answer B: 48 centimeters

The side length is $\sqrt{144} = 12$ centimeters, so the perimeter is $4 \times 12 = 48$ centimeters.

185. HSPT-M1-011 - Answer C: 10 units

By the Pythagorean relationship, $\sqrt{(6^2 + 8^2)} = \sqrt{100} = 10$.

186. HSPT-M1-012 - Answer D: 1 hour 48 minutes

From 6:47 to 7:47 is one hour, and from 7:47 to 8:35 is 48 minutes.

187. HSPT-M1-013 - Answer A: 63 miles

Multiply the map distance by the scale: $3.5 \times 18 = 63$ miles.

188. HSPT-M1-014 - Answer B: 17

The total is $5 \times 18 = 90$; the four known numbers total 73, leaving 17.

189. HSPT-M1-015 - Answer C: $\frac{1}{4}$

There are 12 tiles total, so the probability of blue is $\frac{3}{12} = \frac{1}{4}$.

190. HSPT-M1-016 - Answer D: The median is 9.5.

The middle values are 8 and 11, so the median is $(8 + 11) \div 2 = 9.5$.

191. HSPT-M1-017 - Answer C: $5\frac{11}{12}$

$2\frac{3}{12} + 3\frac{8}{12} = 5\frac{11}{12}$.

192. HSPT-M1-018 - Answer D: 9

$|-14| - |5| = 14 - 5 = 9$.

193. HSPT-M1-019 - Answer A: \$51

The discount is $0.15 \times \$60 = \9 , so the price is $\$60 - \$9 = \$51$.

194. HSPT-M1-020 - Answer B: $2x + 15$

Distribute and combine like terms: $6x + 15 - 4x = 2x + 15$.

195. HSPT-M1-021 - Answer D: $2n - 5 \geq 17$

Twice a number is $2n$, five less is $2n - 5$, and at least means $\geq$.

196. HSPT-M1-022 - Answer A: -10

$f(-2) = 3(-2) - 4 = -6 - 4 = -10$.

197. HSPT-M1-023 - Answer B: 6

Solve $18 + 7w = 60$: $7w = 42$, so $w = 6$.

198. HSPT-M1-024 - Answer C: 8

Exterior angles total 360° , so the polygon has $360^\circ \div 45^\circ = 8$ sides.

199. HSPT-M1-025 - Answer D: 5 centimeters
Since $C = 2\pi r$, $10\pi = 2\pi r$ and $r = 5$ centimeters.
200. HSPT-M1-026 - Answer A: 25 square units
Both side lengths are 5 units, so the area is $5 \times 5 = 25$ square units.
201. HSPT-M1-027 - Answer B: 2,750
One liter equals 1,000 milliliters, so $2.75 \times 1,000 = 2,750$.
202. HSPT-M1-028 - Answer C: 12 miles per hour
Average speed is $42 \div 3.5 = 12$ miles per hour.
203. HSPT-M1-029 - Answer D: 6
Eight feet equals 96 inches, and $96 \div 16 = 6$ pieces.
204. HSPT-M1-030 - Answer A: 11
The range is the maximum minus the minimum: $14 - 3 = 11$.
205. HSPT-M1-031 - Answer B: $1/16$
The probability is $1/4 \times 1/4 = 1/16$.
206. HSPT-M1-032 - Answer C: The sets have equal means but Set B has a greater range.
Both totals are 28, but the ranges are 6 for Set A and 12 for Set B.
207. HSPT-M1-033 - Answer D: $7/12$
Use denominator 12: $10/12 - 3/12 = 7/12$.
208. HSPT-M1-034 - Answer D: 14
Fourteen divides 98 evenly and is itself a multiple of 14.
209. HSPT-M1-035 - Answer A: -18
Multiply first: $4(-3) = -12$; then $-6 + (-12) = -18$.
210. HSPT-M1-036 - Answer B: 80
Round 19.8 to 20 and 4.1 to 4; $20 \times 4 = 80$.
211. HSPT-M1-037 - Answer D: 24
Multiply both sides by $4/3$: $x = 18 \times 4/3 = 24$.
212. HSPT-M1-038 - Answer A: $8 - y$
Distribute and combine: $5y - 6y + 8 = 8 - y$.
213. HSPT-M1-039 - Answer B: (2, 5)
Substituting $x = 2$ gives $y = 2(2) + 1 = 5$.
214. HSPT-M1-040 - Answer C: 25
The integers are 23, 24, and 25, which total 72; the greatest is 25.
215. HSPT-M1-041 - Answer A: 55 square units
The area is $1/2(8 + 14)(5) = 55$ square units.
216. HSPT-M1-042 - Answer B: 15
The scale factor is $9/6 = 1.5$, so $10 \times 1.5 = 15$.
217. HSPT-M1-043 - Answer C: 720°
A hexagon's angle sum is $(6 - 2) \times 180^\circ = 720^\circ$.
218. HSPT-M1-044 - Answer D: 56
Three pounds equal 48 ounces; $48 + 8 = 56$ ounces.
219. HSPT-M1-045 - Answer B: 35
The rate is $15 \div 6 = 2.5$ gallons per minute; $2.5 \times 14 = 35$.
220. HSPT-M1-046 - Answer C: 12
Any x from 9 through 15 preserves 9 as the middle value; 12 qualifies.
221. HSPT-M1-047 - Answer A: $9/100$
With replacement, the probability is $3/10 \times 3/10 = 9/100$.
222. HSPT-M1-048 - Answer C: 30%
There are 40 votes total, and $12/40 = 0.30 = 30\%$.
223. HSPT-M1-049 - Answer A: 30
Multiply both numbers by 100: $3.6 \div 0.12 = 360 \div 12 = 30$.
224. HSPT-M1-050 - Answer D: $5/8$
The values are 0.62, 0.60, 0.61, and 0.625; 0.625 is greatest.

225. HSPT-M1-051 - Answer D: 24
Twenty-four is the least number divisible by 6, 8, and 12.
226. HSPT-M1-052 - Answer D: 9
Subtract 7: $-2x = -18$; dividing by -2 gives $x = 9$.
227. HSPT-M1-053 - Answer A: $2.50n + 6$
The notebooks cost $2.50n$ dollars, and the single binder adds \$6.
228. HSPT-M1-054 - Answer B: 16
 $g(5) = 23$ and $g(3) = 7$, so $23 - 7 = 16$.
229. HSPT-M1-055 - Answer C: $x < 5$
Subtract 4 and divide by 3: $3x < 15$, so $x < 5$.
230. HSPT-M1-056 - Answer D: 94 square units
Surface area is $2(5 \times 4 + 5 \times 3 + 4 \times 3) = 2(47) = 94$.
231. HSPT-M1-057 - Answer A: 40°
The remaining 80° is divided equally between the two congruent base angles, giving 40° each.
232. HSPT-M1-058 - Answer B: 154 square centimeters
Area is $\pi r^2 = 22/7 \times 7^2 = 154$ square centimeters.
233. HSPT-M1-059 - Answer C: 2
Seven hundred fifty grams is 0.75 kilogram; $0.75 + 1.25 = 2$ kilograms.
234. HSPT-M1-060 - Answer A: 3 hours 30 minutes
Time is $210 \div 60 = 3.5$ hours, or 3 hours 30 minutes.
235. HSPT-M1-061 - Answer B: \$336
The perimeter is $2(12 + 9) = 42$ meters; $42 \times \$8 = \336 .
236. HSPT-M1-062 - Answer C: 18
The required total is $4 \times 12 = 48$; the known values total 30, leaving 18.
237. HSPT-M1-063 - Answer B: $1/4$
 $P(\text{heads}) = 1/2$ and $P(\text{even}) = 3/6 = 1/2$; their product is $1/4$.
238. HSPT-M1-064 - Answer C: The range
The maximum becomes 30 while the minimum stays 8, so the range must increase.

Language

239. HSPT-L1-001 - Answer A: After the final bell rang, the students hurried outside.

A comma correctly follows the introductory dependent clause.

240. HSPT-L1-002 - Answer B: The two players' uniforms were muddy.

The apostrophe follows the plural noun players to show that the uniforms belong to both players.

241. HSPT-L1-003 - Answer C: I packed three items: a flashlight, a compass, and a map.

A colon correctly introduces a list after the complete independent clause.

242. HSPT-L1-004 - Answer D: Our class visited the Statue of Liberty in October.

The landmark's proper name and the month are capitalized, while of remains lowercase.

243. HSPT-L1-005 - Answer A: Professor Elena Ruiz teaches Spanish on Mondays.

The title before a name, the language, and the day are properly capitalized.

244. HSPT-L1-006 - Answer B: necessary

Necessary is correctly spelled with one c and two s's.

245. HSPT-L1-007 - Answer C: The guide described the ancint bridge.

Ancint is misspelled; the correct spelling is ancient.

246. HSPT-L1-008 - Answer D: The basket of clean towels was on the bench.

The singular subject basket requires the singular verb was.

247. HSPT-L1-009 - Answer A: Jordan and I prepared the display.

The subject pronoun I is correct because Jordan and I perform the action.

248. HSPT-L1-010 - Answer B: had prepared

Past perfect shows that preparing dinner occurred before the guests arrived.

249. HSPT-L1-011 - Answer C: affect

Affect is the verb meaning influence, which fits what the schedule will do.

250. HSPT-L1-012 - Answer D: We are ready now.

This sentence conveys the complete idea without repetitive time expressions.

251. HSPT-L1-013 - Answer A: Sentence 4

Basketball practice in the gym d

252. HSPT-L1-014 - Answer C: A student committee could rotate the book selection each month.

This sentence logically follows the description of the covered book cabinet by explaining how its selection could be refreshed and managed.

253. HSPT-L1-015 - Answer D: Turning Empty Space into a Learning Area

The paragraph focuses on converting an unused schoolyard corner into a useful learning space, so this title best expresses its central idea.

254. HSPT-L1-016 - Answer D: The rain stopped; we continued the game.

A semicolon correctly joins two closely related independent clauses.

255. HSPT-L1-017 - Answer A: Maya asked, "Where did you put the tickets?"

The comma introduces the quotation, and the question mark belongs inside the closing quotation mark.

256. HSPT-L1-018 - Answer B: We drove west across Kansas in July.

Kansas and July are proper names; west indicates direction and remains lowercase.

257. HSPT-L1-019 - Answer C: The science club meets on Tuesday in the library.

The generic club and library remain lowercase, while the day Tuesday is capitalized.

258. HSPT-L1-020 - Answer D: embarrass

Embarrass is correctly spelled with two r's and two s's.

259. HSPT-L1-021 - Answer A: The package arived yesterday.

Arived is misspelled; the correct spelling is arrived.

260. HSPT-L1-022 - Answer B: supplies

Supplies is the correctly spelled plural form needed in the sentence.

261. HSPT-L1-023 - Answer C: Neither of the answers is correct.

The singular subject neither requires the singular verb is.

262. HSPT-L1-024 - Answer D: Lena enjoys sketching, swimming, and baking.

All three items use parallel gerund forms.

263. HSPT-L1-025 - Answer A: We followed the marked detour.
This choice contains both a complete subject and a complete predicate.
264. HSPT-L1-026 - Answer B: its
The possessive pronoun its correctly shows that the tail belongs to the puppy.
265. HSPT-L1-027 - Answer C: nevertheless
Nevertheless signals the contrast between the difficult trail and the hikers' timely arrival.
266. HSPT-L1-028 - Answer D: Sentence 5
The cafeteria detail is unrelated to lending tools for student projects.
267. HSPT-L1-029 - Answer A: A student volunteer could check returned tools for damage.
This sentence logically adds a useful step to the checkout and return process.
268. HSPT-L1-030 - Answer B: Donated tools could be labeled, stored near the library desk, signed out, and returned by an assigned date.
The revision combines both ideas concisely with a parallel series of verb phrases.
269. HSPT-L1-031 - Answer A: Before leaving, check the windows, lock the door, and turn off the lights.
The introductory phrase takes a comma, and commas separate the three parallel commands.
270. HSPT-L1-032 - Answer B: My aunt, who lives in Denver, arrives tomorrow.
Commas correctly set off the nonessential clause about where the aunt lives.
271. HSPT-L1-033 - Answer C: Yes, I remembered the permission slip.
A comma correctly follows the introductory word Yes.
272. HSPT-L1-034 - Answer D: We celebrate Independence Day in July.
The holiday name and month are proper nouns and require capitalization.
273. HSPT-L1-035 - Answer A: Dr. Chen spoke at Lincoln Middle School on Friday.
The title, person's name, school's full name, and day are correctly capitalized.
274. HSPT-L1-036 - Answer B: occurrence
Occurrence is correctly spelled with two c's, two r's, and the ending -ence.
275. HSPT-L1-037 - Answer C: The machine requires regular maintenance.
Maintenance is misspelled; the correct spelling is maintenance.
276. HSPT-L1-038 - Answer A: The coach gave the forms to Marcus and me.
The object pronoun me correctly follows the preposition to.
277. HSPT-L1-039 - Answer A: Wearing a yellow jacket, Talia was easy to spot.
The opening modifier clearly and logically describes Talia.
278. HSPT-L1-040 - Answer B: The dog barked, and the baby woke up.
A comma and coordinating conjunction correctly join the two independent clauses.
279. HSPT-L1-041 - Answer C: fewer
Fewer is used when comparing countable plural nouns such as chairs.
280. HSPT-L1-042 - Answer D: The sparrow darted across the yard.
Sparrow and darted identify the subject and action more precisely than general words.
281. HSPT-L1-043 - Answer B: Luis called Omar while Omar was leaving.
Repeating Omar removes uncertainty about who was leaving.
282. HSPT-L1-044 - Answer C: Sentence 6
Resurfacing the parking lot does not support the proposal for a repair table.
283. HSPT-L1-045 - Answer D: In addition,
Sentence 5 adds another benefit of the proposed repair table.
284. HSPT-L1-046 - Answer A: We need the following supplies: tape, string, cardboard, and paint.
A colon correctly introduces the list after a complete clause.
285. HSPT-L1-047 - Answer B: Although it was late, we finished the puzzle.
A comma correctly separates the introductory dependent clause from the independent clause.
286. HSPT-L1-048 - Answer C: The Pacific Ocean borders California.
The ocean's proper name and the state name are correctly capitalized.
287. HSPT-L1-049 - Answer D: Mayor Ortiz visited our school in March.
The title before the name, surname, and month are capitalized; generic school remains lowercase.

288. HSPT-L1-050 - Answer A: privilege
Privilege is correctly spelled without a d before the g.
289. HSPT-L1-051 - Answer C: She recieved a thoughtful note.
Recieved is misspelled; the correct spelling is received.
290. HSPT-L1-052 - Answer D: endurance
Endurance is the correctly spelled noun that fits the sentence.
291. HSPT-L1-053 - Answer A: Each of the paintings has a wooden frame.
The singular subject each requires the singular verb has.
292. HSPT-L1-054 - Answer B: Yesterday we walked to the pond and watched ducks.
Both coordinated verbs correctly use the simple past tense.
293. HSPT-L1-055 - Answer C: The books are stacked beside the cabinet.
The plural subject books agrees with are, and the sentence is complete.
294. HSPT-L1-056 - Answer D: among
Among is appropriate when something is distributed to more than two groups.
295. HSPT-L1-057 - Answer A: The experiment produced an unexpected result.
This sentence uses precise, neutral language suitable for a formal report.
296. HSPT-L1-058 - Answer D: The outcome surprised us.
This choice states the idea without redundant words such as final outcome or returned back.
297. HSPT-L1-059 - Answer C: Sentence 4
The copier purchase is unrelated to creating and interpreting a neighborhood sound map.
298. HSPT-L1-060 - Answer B: The project would help students discover patterns in an environment they hear every day.
This conclusion reinforces the project's purpose and connects its activities to a meaningful result.
