

HSPT Exam Simulator

Full-Length Practice Exam 03

Complete printable test with 298 multiple-choice questions, answer key, and detailed explanations.

Section	Questions	Time
Verbal Skills	60	20 minutes
Quantitative Skills	52	35 minutes
Reading Comprehension	62	35 minutes
Mathematics	64	45 minutes
Language	60	30 minutes

General Directions

Work through each section within the recommended time. Choose the best answer for every question. Mark one answer (A-D) for each item. Use the answer key and explanations only after completing the test.

Recommended total testing time: 165 minutes. Calculators should be used only when permitted by the rules followed for your HSPT preparation.

Section 1: Verbal Skills

60 questions | Recommended time: 20 minutes

1. Which word is closest in meaning to courteous?

- A) polite
- B) careless
- C) silent
- D) fragile

2. Which word is closest in meaning to immense?

- A) crowded
- B) vast
- C) valuable
- D) hidden

3. Which word is closest in meaning to perceive?

- A) question
- B) repeat
- C) notice
- D) arrange

4. Which word is most nearly opposite in meaning to broad?

- A) transparent
- B) heavy
- C) polished
- D) narrow

5. Which word is most nearly opposite in meaning to inferior?

- A) superior
- B) improved
- C) measured
- D) divided

6. Which word is most nearly opposite in meaning to innocent?

- A) careful
- B) guilty
- C) quiet
- D) ordinary

7. Rudder is to direction as thermostat is to ____.

- A) building
- B) electricity
- C) temperature
- D) clock

8. Gills are to fish as lungs are to ____.

- A) water
- B) fin
- C) oxygen
- D) mammal

9. Sapling is to tree as foal is to ____.

- A) horse
- B) stable
- C) herd
- D) hay

10. Which instrument belongs to a different measurement group?

- A) ruler
- B) thermometer
- C) yardstick
- D) tape measure

11. Which word belongs with whisper, murmur, and mutter?

- A) stare
- B) stride
- C) mumble
- D) signal

12. Which pair has the same relationship as chapter and book?

- A) ink and pen
- B) author and story
- C) shelf and library
- D) scene and play

13. Every banner in the hall is blue or gold. No gold banner has stripes. Banner K has stripes. What must be true?

- A) Banner K is blue.
- B) Banner K is gold.
- C) Every blue banner has stripes.
- D) Only Banner K is blue.

14. Five talks—J, K, L, M, and N—are scheduled once each. L is immediately before M. J is first. N is last. K is before L. Which talk is third?

- A) K
- B) L
- C) M
- D) N

15. If the garden gate is open, the path light is on. The path light is off. What follows?

- A) The bulb is broken.
- B) The garden is empty.
- C) The garden gate is not open.
- D) The gate was never used.

16. Select the best answer. Which word is closest in meaning to meticulous?

- A) reckless
- B) careful
- C) ordinary
- D) rapid

17. Select the best answer. Which word is closest in meaning to reluctant?

- A) cheerful
- B) skillful
- C) unwilling
- D) certain

18. Select the best answer. Which word is closest in meaning to diminish?

- A) display
- B) combine
- C) predict
- D) decrease

19. Select the best answer. Which word is most nearly opposite in meaning to scarce?

- A) abundant
- B) costly
- C) hidden
- D) useful

20. Select the best answer. Which word is most nearly opposite in meaning to rigid?

- A) smooth
- B) flexible
- C) heavy
- D) simple

21. Select the best answer. Which word is most nearly opposite in meaning to conceal?

- A) collect
- B) repair
- C) reveal
- D) protect

22. Select the best answer. Compass is to navigation as scale is to ____.

- A) music
- B) distance
- C) temperature
- D) weight

23. Select the best answer. Hive is to bee as den is to ____.

- A) bear
- B) bird
- C) horse
- D) sheep

24. Select the best answer. Pebble is to rock as drizzle is to ____.

- A) cloud
- B) rain
- C) wind
- D) snow

25. Select the best answer. Which word does not belong with the others?

- A) crimson
- B) maroon
- C) emerald
- D) vermilion

26. Select the best answer. Which item belongs with sonnet, ode, and haiku?

- A) chapter
- B) portrait
- C) melody
- D) limerick

27. Select the best answer. Which pair has the same relationship as lens and camera?

- A) key and piano
- B) wheel and road
- C) paint and wall
- D) page and reader

28. Select the best answer. All cedar boxes are wooden. No wooden object is transparent. What must be true of every cedar box?

- A) It is painted.
- B) It is not transparent.
- C) It is heavy.
- D) It is locked.

29. Select the best answer. P, Q, R, and S each present once. Q presents immediately after P. R presents before P. S presents last. Who presents first?

- A) P
- B) Q
- C) R
- D) S

30. Select the best answer. If the alarm is armed, the green light glows. The green light does not glow. Which conclusion is valid?

- A) The power failed.
- B) The alarm is broken.
- C) The door is open.
- D) The alarm is not armed.

31. Select the best answer. Which word is closest in meaning to resilient?

- A) fragile
- B) careless
- C) adaptable
- D) ordinary

32. Select the best answer. Which word is closest in meaning to concise?

- A) lengthy
- B) uncertain
- C) brief
- D) informal

33. Select the best answer. Which word is closest in meaning to verify?

- A) confirm
- B) divide
- C) predict
- D) replace

34. Select the best answer. Which word is most nearly opposite in meaning to tranquil?

- A) silent
- B) peaceful
- C) orderly
- D) agitated

35. Select the best answer. Which word is most nearly opposite in meaning to expand?

- A) contract
- B) display
- C) measure
- D) continue

36. Select the best answer. Which word is most nearly opposite in meaning to permanent?

- A) useful
- B) visible
- C) stable
- D) temporary

37. Select the best answer. Wool is to sweater as clay is to ____.

- A) shovel
- B) kiln
- C) pottery
- D) soil

38. Select the best answer. Rehearsal is to performance as blueprint is to ____.

- A) building
- B) pencil
- C) architect
- D) measurement

39. Select the best answer. Thirst is to water as fatigue is to ____.

- A) effort
- B) speed
- C) hunger
- D) rest

40. Select the best answer. Which word does not belong with the others?

- A) copper
- B) bronze
- C) iron
- D) silver

41. Select the best answer. Which item belongs with cedar, maple, and birch?

- A) granite
- B) willow
- C) clover
- D) moss

42. Select the best answer. Which pair has the same relationship as flock and birds?

- A) school and fish
- B) bark and tree
- C) stable and horse
- D) fur and rabbit

43. Select the best answer. Some lanterns are brass. Every brass object in the cabinet is polished. Which conclusion must be true?

- A) Every lantern is polished.
- B) No polished object is a lantern.
- C) Some lanterns are polished.
- D) Some brass objects are not lanterns.

44. Select the best answer. A workshop offers pottery only on Monday or Thursday. Elena cannot attend Monday. If Elena attends pottery, when must she attend?

- A) Tuesday
- B) Thursday
- C) Wednesday
- D) It cannot be determined.

45. Select the best answer. Four folders—W, X, Y, and Z—are stacked. W is above X. Z is below Y but above W. Which folder must be on top?

- A) W
- B) X
- C) Z
- D) Y

46. Which word is closest in meaning to "steadfast"?

- A) cautious
- B) resolute
- C) uncertain
- D) cheerful

47. Which word is closest in meaning to "arduous"?

- A) ordinary
- B) silent
- C) demanding
- D) distant

48. Which word is closest in meaning to "recede"?

- A) retreat
- B) gather
- C) announce
- D) remain

49. Which word is most nearly opposite in meaning to "lenient"?

- A) patient
- B) realistic
- C) curious
- D) strict

50. Which word is most nearly opposite in meaning to "chaotic"?

- A) fragile
- B) orderly
- C) smooth
- D) shallow

51. Which word is most nearly opposite in meaning to "accelerate"?

- A) wander
- B) pause
- C) decelerate
- D) approach

52. Applause is to performance as laughter is to ____ .

- A) joke
- B) audience
- C) stage
- D) speaker

53. Key is to lock as password is to _____ .

- A) keyboard
- B) account
- C) message
- D) screen

54. Easel is to painter as lectern is to _____ .

- A) carpenter
- B) singer
- C) librarian
- D) speaker

55. Which word does not belong with the others?

- A) maple
- B) cedar
- C) tulip
- D) birch

56. Which word belongs with waltz, tango, and foxtrot?

- A) melody
- B) polka
- C) canvas
- D) sonnet

57. Granite, marble, and slate belong to which group?

- A) metals
- B) fabrics
- C) woods
- D) rocks

58. A workshop offers pottery only on Tuesday or Thursday. Photography is offered the day after pottery. If photography is offered on Friday, when is pottery offered?

- A) Monday
- B) Tuesday
- C) Saturday
- D) Thursday

59. Every bronze token is stamped. No stamped token is wooden. Which conclusion must be true?

- A) No bronze token is wooden.
- B) Every wooden token is bronze.
- C) Some stamped tokens are bronze.
- D) No wooden token exists.

60. Four folders—J, K, L, and M—are stacked. J is above L. M is below K but above J. Which folder must be on top?

- A) J
- B) L
- C) K
- D) M

Section 2: Quantitative Skills

52 questions | Recommended time: 35 minutes

61. What number comes next? 6, 11, 19, 30, 44, ____

- A) 61
- B) 58
- C) 60
- D) 63

62. What number comes next? 160, 80, 20, 10, 2.5, ____

- A) 0.5
- B) 1.25
- C) 1
- D) 5

63. What number comes next? 2, 6, 5, 15, 14, 42, ____

- A) 40
- B) 43
- C) 41
- D) 126

64. What number comes next? 3, 4, 7, 11, 18, 29, ____

- A) 40
- B) 45
- C) 58
- D) 47

65. A number is increased by 25% and becomes 90. What was the original number?

- A) 72
- B) 67.5
- C) 75
- D) 112.5

66. Which number is divisible by 6 but not by 9?

- A) 108
- B) 132
- C) 144
- D) 162

67. If $\frac{3}{4}$ of a number is 27, what is $\frac{2}{3}$ of the number?

- A) 18
- B) 24
- C) 30
- D) 36

68. Quantity A: 35% of 80. Quantity B: $\frac{7}{20}$ of 80.

- A) Quantity A is greater.
- B) Quantity B is greater.
- C) The two quantities are equal.
- D) The relationship cannot be determined from the information given.

69. x is a positive number less than 1. Quantity A: x . Quantity B: x^2 .

- A) Quantity A is greater.
- B) Quantity B is greater.
- C) The two quantities are equal.
- D) The relationship cannot be determined from the information given.

70. $a + b = 10$. Quantity A: $a - b$. Quantity B: 0.

- A) Quantity A is greater.
- B) Quantity B is greater.
- C) The two quantities are equal.
- D) The relationship cannot be determined from the information given.

71. A rectangle measures 9 by 4. A square has side 6. Quantity A: area of the rectangle. Quantity B: area of the square.

- A) Quantity A is greater.
- B) Quantity B is greater.
- C) The two quantities are equal.
- D) The relationship cannot be determined from the information given.

72. A triangle has sides 5, 5, and 8. Quantity A: its perimeter. Quantity B: 19.

- A) Quantity A is greater.
- B) Quantity B is greater.
- C) The two quantities are equal.
- D) The relationship cannot be determined from the information given.

73. Two angles are supplementary. One angle measures x° . Quantity A: x . Quantity B: 90.

- A) Quantity A is greater.
- B) Quantity B is greater.
- C) The two quantities are equal.
- D) The relationship cannot be determined from the information given.

74. Select the best answer. What number comes next? 4, 9, 16, 25, 36, ____

- A) 42
- B) 45
- C) 49
- D) 48

75. Select the best answer. What number comes next? 96, 48, 44, 22, 18, ____

- A) 8
- B) 12
- C) 14
- D) 9

76. Select the best answer. What number comes next? 5, 8, 14, 23, 35, ____

- A) 50
- B) 47
- C) 48
- D) 52

77. Select the best answer. If five-sixths of a number is 45, what is the number?

- A) 48
- B) 54
- C) 50
- D) 60

78. Select the best answer. A price of \$64 is increased by 12.5%. What is the new price?

- A) \$68
- B) \$76
- C) \$72
- D) \$80

79. Select the best answer. Which integer has exactly six positive factors?

- A) 8
- B) 11
- C) 16
- D) 12

80. Select the best answer. The ratio of blue beads to white beads is 3:7. If there are 50 beads, how many are blue?

- A) 10
- B) 15
- C) 20
- D) 35

81. Select the best answer. Quantity A: 0.6×45 . Quantity B: 30.

- A) Quantity A is greater.
- B) Quantity B is greater.
- C) The two quantities are equal.
- D) The relationship cannot be determined from the information given.

82. Select the best answer. Quantity A: 2 to the fifth power. Quantity B: 4 cubed divided by 2.

- A) Quantity A is greater.
- B) Quantity B is greater.
- C) The two quantities are equal.
- D) The relationship cannot be determined from the information given.

83. Select the best answer. k is an integer. Quantity A: $k + 3$. Quantity B: 3.

- A) Quantity A is greater.
- B) Quantity B is greater.
- C) The two quantities are equal.
- D) The relationship cannot be determined from the information given.

84. Select the best answer. A circle has radius 4. Quantity A: its diameter. Quantity B: 9.

- A) Quantity A is greater.
- B) Quantity B is greater.
- C) The two quantities are equal.
- D) The relationship cannot be determined from the information given.

85. Select the best answer. A rectangle has length 11 and width 3. Quantity A: its area. Quantity B: its perimeter.

- A) Quantity A is greater.
- B) Quantity B is greater.
- C) The two quantities are equal.
- D) The relationship cannot be determined from the information given.

86. Select the best answer. An equilateral triangle has side length t . Quantity A: its perimeter. Quantity B: $3t$.

- A) Quantity A is greater.
- B) Quantity B is greater.
- C) The two quantities are equal.
- D) The relationship cannot be determined from the information given.

87. Select the best answer. What number comes next? 81, 27, 9, 3, ____

- A) 1
- B) 0
- C) $\frac{1}{3}$
- D) 6

88. Select the best answer. What number comes next? 7, 10, 16, 25, 37, ____

- A) 49
- B) 50
- C) 51
- D) 52

89. Select the best answer. What number comes next? 2, 5, 4, 10, 8, 20, ____

- A) 40
- B) 16
- C) 18
- D) 22

90. Select the best answer. What number comes next? 1, 4, 10, 19, 31, ____

- A) 43
- B) 44
- C) 45
- D) 46

91. Select the best answer. Which value is 15% less than 200?

- A) 170
- B) 175
- C) 180
- D) 185

92. Select the best answer. If 7 boxes hold 84 markers equally, how many markers do 5 boxes hold?

- A) 50
- B) 55
- C) 60
- D) 70

93. Select the best answer. What digit makes 4,7_2 divisible by 9?

- A) 2
- B) 3
- C) 4
- D) 5

94. Select the best answer. Quantity A: $\frac{3}{8}$ of 64. Quantity B: 30.

- A) Quantity A is greater.
- B) Quantity B is greater.
- C) The two quantities are equal.
- D) The relationship cannot be determined from the information given.

95. Select the best answer. Quantity A: the least positive multiple of 6 and 8. Quantity B: 24.

- A) Quantity A is greater.
- B) Quantity B is greater.
- C) The two quantities are equal.
- D) The relationship cannot be determined from the information given.

96. Select the best answer. p and q are positive and $p > q$. Quantity A: $\frac{p}{q}$. Quantity B: 1.

- A) Quantity A is greater.
- B) Quantity B is greater.
- C) The two quantities are equal.
- D) The relationship cannot be determined from the information given.

97. Select the best answer. A square has perimeter 28. Quantity A: its side length. Quantity B: 8.

- A) Quantity A is greater.
- B) Quantity B is greater.
- C) The two quantities are equal.
- D) The relationship cannot be determined from the information given.

98. Select the best answer. A right angle is divided into two angles, one measuring 38° . Quantity A: the other angle. Quantity B: 52° .

- A) Quantity A is greater.
- B) Quantity B is greater.
- C) The two quantities are equal.
- D) The relationship cannot be determined from the information given.

99. Select the best answer. A triangle has area 30 and base 10. Quantity A: its height. Quantity B: 5.

- A) Quantity A is greater.
- B) Quantity B is greater.
- C) The two quantities are equal.
- D) The relationship cannot be determined from the information given.

100. What number comes next? 2, 6, 5, 15, 14, 42, _____

- A) 40
- B) 41
- C) 43
- D) 126

101. What number comes next? 4, 7, 13, 22, 34, _____

- A) 46
- B) 48
- C) 52
- D) 49

102. What number comes next? $\frac{3}{4}$, $\frac{3}{8}$, $\frac{3}{16}$, $\frac{3}{32}$, _____

- A) $\frac{3}{48}$
- B) $\frac{6}{64}$
- C) $\frac{3}{64}$
- D) $\frac{1}{64}$

103. A number is increased by 20% and then decreased by 20%. If the original number is 50, what is the final number?

- A) 48
- B) 50
- C) 52
- D) 40

104. Which value of n makes $\frac{3}{5} = \frac{(n + 2)}{20}$?

- A) 8
- B) 9
- C) 12
- D) 10

105. When a positive integer is divided by 7, the remainder is 5. What is the remainder when 3 is added to that integer?

- A) 0
- B) 1
- C) 2
- D) 3

106. A recipe uses flour and oats in a ratio of 5:2. If 3 cups of oats are used, how many cups of flour are needed?

- A) 7.5
- B) 7
- C) 6
- D) 8.5

107. x is a negative number. Quantity A: x^2 . Quantity B: x .

- A) Quantity A is greater.
- B) Quantity B is greater.
- C) The two quantities are equal.
- D) The relationship cannot be determined from the information given.

108. Quantity A: The least common multiple of 6 and 15. Quantity B: 3 times the greatest common factor of 20 and 30.

- A) Quantity A is greater.
- B) Quantity B is greater.
- C) The two quantities are equal.
- D) The relationship cannot be determined from the information given.

109. $p + q = 12$. Quantity A: p . Quantity B: q .

- A) Quantity A is greater.
- B) Quantity B is greater.
- C) The two quantities are equal.
- D) The relationship cannot be determined from the information given.

110. Quantity A: The area of a square with perimeter 32 units. Quantity B: The area of a rectangle 10 units long and 6 units wide.

- A) Quantity A is greater.
- B) Quantity B is greater.
- C) The two quantities are equal.
- D) The relationship cannot be determined from the information given.

111. An isosceles triangle has a vertex angle of 40° . Quantity A: One base angle. Quantity B: 70° .

- A) Quantity A is greater.
- B) Quantity B is greater.
- C) The two quantities are equal.
- D) The relationship cannot be determined from the information given.

112. A rectangular prism has volume 96 cubic units and base area 24 square units. Quantity A: Its height. Quantity B: 5 units.

- A) Quantity A is greater.
- B) Quantity B is greater.
- C) The two quantities are equal.
- D) The relationship cannot be determined from the information given.

Section 3: Reading Comprehension

62 questions | Recommended time: 35 minutes

Literary Passage: The Unmarked Trail

Mara had walked the cedar trail many times with her grandfather, but never before had she led the way. At the fork beyond the creek, the painted trail marker was missing. One path climbed sharply; the other curved into ferns. Her cousin Eli pointed uphill, certain that height meant progress.

Mara studied the ground. The afternoon rain had softened the soil, revealing several boot prints on the fern-lined path. Yet the prints might belong to hikers going elsewhere. She remembered her grandfather mentioning a boulder shaped like a sleeping bear near the correct turn. Through the trees beside the lower path, she spotted a rounded gray ridge.

They followed it and soon reached the familiar boulder. Eli laughed and admitted that his confident guess would have added an hour to their walk. Mara felt relief, but also something steadier: she had not merely remembered a direction. She had gathered two clues and decided which one mattered most.

At the next junction, an intact blue marker pointed home. Mara touched it as they passed, then turned to memorize the nearby trees. Markers were useful, she realized, but attention was a guide she could carry anywhere.

113. What clue first makes Mara consider the fern-lined path?

- A) Boot prints in the softened soil
- B) A blue trail marker
- C) Eli's memory of the route
- D) The sound of the creek

114. Why is the boulder a stronger clue than the boot prints?

- A) It was newer than the footprints.
- B) Her grandfather had connected it specifically with the correct turn.
- C) Eli had drawn it on a map.
- D) It stood at the highest point.

115. As used in paragraph 3, steady most nearly means ____.

- A) physically balanced
- B) slow in speed
- C) lasting and calm
- D) unchanging in volume

116. The missing marker mainly serves to ____.

- A) explain why the trail was recently built
- B) show that Eli dislikes hiking
- C) prove that all signs are unreliable
- D) create a problem that reveals Mara's growing judgment

117. Which statement best expresses the story's central idea?

- A) Careful observation can build confidence and guide sound decisions.
- B) Familiar trails should never be changed.
- C) Hiking alone is better than hiking with family.
- D) The shortest route is always the safest.

Informational Passage: Cooling a City Block

On sunny days, dark roofs and pavement absorb energy and release it as heat. In neighborhoods with few trees, this process can make outdoor temperatures noticeably higher than in nearby areas with more vegetation. City planners use several strategies to reduce this local warming.

One strategy is to install reflective roofs. Their light-colored or specially coated surfaces send more sunlight away instead of absorbing it. Another approach adds plants to rooftops. These green roofs provide shade, and water evaporating from their soil and leaves helps cool the surrounding air. Street trees can offer similar benefits while also shading sidewalks and building walls.

No single method works best everywhere. A green roof is heavier than a conventional roof and may require structural reinforcement. Trees need room for roots and years to mature. Reflective coatings are comparatively quick to apply, but they do not create habitat or capture rainwater as planted roofs can.

For this reason, planners first examine a block's buildings, available space, rainfall, and budget. A combination—perhaps reflective roofs on warehouses and trees beside homes—often provides greater benefits than repeating one solution throughout an entire neighborhood.

118. How do reflective roofs reduce warming?

- A) They store rainwater beneath buildings.
- B) They send more sunlight away instead of absorbing it.
- C) They create shade with tall plants.
- D) They release heat only at night.

119. Which benefit of green roofs is not provided by reflective coatings?

- A) They can be placed on buildings.
- B) They reduce absorbed sunlight.
- C) They can capture rainwater.
- D) They cost money to install.

120. Why might a planner choose reflective coating for a warehouse?

- A) Warehouses never need structural repairs.
- B) Reflective roofs grow habitat immediately.
- C) Trees cannot shade any warehouse.
- D) It can be applied relatively quickly without the weight of a green roof.

121. As used in the last paragraph, examine most nearly means ____.

- A) evaluate carefully
- B) repair completely
- C) measure only
- D) decorate attractively

122. Which description best captures the organization of “Cooling a City Block”?

- A) It lists city temperatures in chronological order.
- B) It presents a problem, compares solutions, and explains how choices are made.
- C) It argues that one method is always superior.
- D) It narrates the construction of one roof.

Reflective Passage: What a Map Leaves Out

A map appears to offer certainty. Lines define roads, colors separate land from water, and symbols promise that important places can be reduced to a tidy key. Yet every map is also a collection of choices. Its maker decides what to include, what to simplify, and what scale will serve the map's purpose.

A subway map, for example, may bend geography so riders can understand connections quickly. A hiking map

emphasizes elevation and water sources, details that a highway map may omit. Neither map is dishonest because it leaves something out. Each becomes useful by refusing to show everything.

This selectiveness carries a responsibility. If a map intended for emergency planning omits a small bridge, the absence may matter greatly. Likewise, an old map can reveal the priorities of its time through the names and borders it displays. Readers should therefore ask not only, “What does this map show?” but also, “Who made it, for whom, and why?”

Maps guide us best when we treat them neither as perfect mirrors nor as mere decorations. They are arguments made with distance and direction—powerful precisely because they turn a crowded world into a pattern we can examine.

123. Why may a subway map bend geographic accuracy?

- A) To hide stations from travelers
- B) To show changes in elevation
- C) To make route connections easier to understand
- D) To copy the shape of a highway map

124. What is the author’s main point?

- A) Maps become useful only when they show every detail.
- B) Old maps are more accurate than modern maps.
- C) Decorative maps cannot communicate ideas.
- D) Maps are purposeful selections that should be read with attention to their makers and uses.

125. What would the author most likely say about two different maps of the same region?

- A) Both may be useful if each suits its intended purpose.
- B) One must be dishonest because details differ.
- C) Only the larger map can be accurate.
- D) They should use identical symbols and scales.

126. Calling maps “arguments made with distance and direction” is an example of ____.

- A) rhyme
- B) metaphor
- C) dialogue
- D) foreshadowing

127. Which word best describes the author’s tone?

- A) mocking
- B) alarmed
- C) thoughtful
- D) careless

128. As used in paragraph 3, priorities most nearly means ____.

- A) printed directions
- B) measured distances
- C) unintentional errors
- D) matters considered important

Literary Passage: The Spare Key

Leila was responsible for opening the stage workshop before Saturday's practice. At the school entrance, she reached into her bag and found an empty key pocket. Her teammates would arrive in fifteen minutes. She retraced her route to the bus stop, watching the sidewalk. Nothing gleamed near the curb. Then she

remembered lending her ruler to Omar during Friday's class. She had opened the same pocket to put his ruler away.

Leila called Omar, who checked beneath their classroom table with a custodian's help. The key was there, but the building was across town. Leila expected practice to be canceled. Instead, teammate Inez messaged that the library's meeting room was available and their drafting software worked on tablets.

The team spent the morning revising measurements and drawing a new hinged scenery brace. They could not assemble the set model, yet they solved two problems that had slowed them all week. On Monday, Leila collected the key and attached it to a bright orange cord. She had learned two lessons: make important objects difficult to lose, and do not confuse a changed plan with a wasted day.

129. Select the best answer. Where does Omar find the key?

- A) Beneath the classroom table
- B) At the bus stop
- C) Inside Leila's tablet case
- D) Near the school entrance

130. Select the best answer. Why does the team move to the library?

- A) It stores a second set model.
- B) It offers a place and tools for work that does not require the set model.
- C) Omar is already waiting there.
- D) The school forbids Saturday practice.

131. Select the best answer. As used in the final paragraph, attached most nearly means ____.

- A) explained
- B) mailed
- C) fastened
- D) compared

132. Select the best answer. The bright orange cord mainly symbolizes Leila's ____.

- A) interest in team colors
- B) wish to replace the key
- C) fear of entering school
- D) decision to prevent the same mistake

133. Select the best answer. Which statement best expresses the central idea?

- A) Adaptability can turn a setback into productive work.
- B) Plans succeed only when nothing changes.
- C) Technology makes keys unnecessary.
- D) Teamwork requires meeting at school.

Scientific Passage: How Fog Nets Collect Water

In some dry coastal regions, mist arrives even when rain is scarce. Mist consists of tiny water droplets suspended in air. A dew screen captures some of those droplets as wind carries them through a mesh panel. When droplets strike the mesh, they join with other droplets and grow heavier. Gravity pulls the water downward into a channel, which directs it toward a storage tank. The mesh must allow air to pass while providing enough surface for droplets to collect. A solid wall would force much of the moving air around it.

Dew screens do not create water, and their output varies. Wind speed, droplet size, mesh design, and the number of misty hours all affect collection. The stored water may also require treatment, depending on how it will be used and what substances are present in the air or on the equipment.

Because performance depends on local conditions, planners test small collectors before installing a large

system. Where mist is frequent and other water sources are limited, nets can supplement rather than replace existing supplies.

134. Select the best answer. What moves collected water from the mesh toward a channel?

- A) sunlight
- B) gravity
- C) electricity
- D) air pressure

135. Select the best answer. Why would a solid wall be less effective than mesh?

- A) It would make droplets evaporate instantly.
- B) It could not stand outdoors.
- C) It would cause much of the air to flow around it.
- D) It would produce too much drinking water.

136. Select the best answer. What is the passage mainly about?

- A) Why coastal rain is increasing
- B) How tanks manufacture fog
- C) Why mesh replaces all water systems
- D) How dew screens collect water and why their success varies

137. Select the best answer. Why do planners test small collectors first?

- A) Local results help show whether a larger installation is worthwhile.
- B) Small nets always collect more water.
- C) Testing removes treatment needs.
- D) Large nets cannot be repaired.

138. Select the best answer. Which choice best summarizes the final paragraph?

- A) Dew screens work equally well everywhere.
- B) Testing helps determine where dew screens can usefully supplement water supplies.
- C) Existing supplies should be abandoned.
- D) Only large systems can be tested.

Informational Passage: Layers Behind Street Names

Street names can preserve clues about landscape, language, and human history. A name may describe a physical feature, honor a person, recall an event, or carry forward a word from an earlier language. Yet names that seem permanent often have complicated histories.

The same road or square may have been known by several communities, each using a different name. Municipal clerks sometimes selected one version for official documents, while local speakers continued using another. Spellings also changed when sounds from one language were represented in the alphabet of another.

Researchers who study street names compare plans, diaries, government records, and oral histories. No single source is automatically decisive. An old plan may contain a copying error, while a story passed through families may preserve information absent from official records. Comparing sources helps researchers distinguish strong evidence from an appealing guess.

Studying names is therefore more than making a list. It means examining who used a name, when they used it, and why one version became widely recognized. A familiar label on a map may be the final layer of a much longer conversation.

139. Select the best answer. Which statement best captures the central idea of the place-name passage?

- A) Official maps always preserve the earliest name.
- B) Every physical feature has only one valid name.
- C) Place-name research combines varied sources to uncover complex naming histories.
- D) Spellings never change between languages.

140. Select the best answer. Which sources do researchers compare?

- A) Only modern road signs
- B) Weather reports and novels
- C) Photographs and recipes
- D) Maps, letters, government records, and oral histories

141. Select the best answer. Why is no single source automatically decisive?

- A) Each kind of source may contain errors or omit information.
- B) All sources use identical names.
- C) Official records are always fictional.
- D) Oral histories cannot preserve facts.

142. Select the best answer. As used in the third paragraph, preserve most nearly means ____.

- A) invent
- B) keep
- C) hide
- D) shorten

143. Select the best answer. Calling a street sign the “final layer” suggests that it ____.

- A) was printed with thick ink
- B) cannot ever change
- C) rests on earlier names and decisions
- D) covers the landscape physically

144. Select the best answer. How does the author develop the discussion?

- A) By ranking names from shortest to longest
- B) By narrating one explorer’s journey
- C) By giving rules for inventing names
- D) By introducing varied name origins, describing conflicting versions, and explaining research methods

Literary Passage: The Last Window Box

When Mrs. Vale announced that she was moving, Nia expected the apartment hallway to feel quieter. Instead, it filled with boxes, tape, and neighbors offering advice. On the final afternoon, Mrs. Vale pointed to the window box outside her kitchen. Its mint and marigolds had survived three summers above the noisy avenue. “The movers will not take this,” she said. “Would you?”

Nia hesitated. Her own windowsill was narrow, and she had never kept a plant alive. Still, she carried the box upstairs. During the first week, several leaves drooped. Nia nearly returned the box to the empty apartment, but the new tenant had already arrived. She searched a gardening book and learned that the afternoon sun was too strong. With her father’s help, she fastened a small cloth shade above the plants.

By August, fresh mint spilled over the rim. Nia clipped a few sprigs for lemonade and left a glass outside Mrs. Vale’s new building. The next morning, a note appeared beneath the empty glass: “I knew the garden had chosen well.” Nia smiled at the odd sentence. Looking at the bright leaves, however, she understood exactly what it meant.

145. Select the best answer. Why does Nia add a cloth shade?

- A) The plants receive too much afternoon sun.
- B) Birds are eating the marigolds.
- C) The window box blocks her view.
- D) Rainwater is filling the box.

146. Select the best answer. What does Nia's delivery of lemonade most strongly suggest?

- A) She wants Mrs. Vale to return the box.
- B) She is proud to share the result of her care.
- C) She plans to sell mint drinks.
- D) She needs advice about the new tenant.

147. Select the best answer. As used in the passage, drooped most nearly means ____.

- A) grew rapidly
- B) changed color
- C) bent downward
- D) spread outward

148. Select the best answer. The window box mainly functions as a symbol of ____.

- A) the inconvenience of moving
- B) the danger of city sunlight
- C) Mrs. Vale's unusual habits
- D) care passed from one person to another

149. Select the best answer. Which statement best expresses the story's central idea?

- A) Accepting responsibility can reveal abilities a person did not expect.
- B) Books always solve practical problems.
- C) Neighbors should exchange gifts when they move.
- D) Plants grow best in crowded cities.

Literary Passage: A Seat Near the Door

The youth orchestra's rehearsal room had one chair that nobody wanted. It stood near the door, where late arrivals squeezed past and cold air entered whenever someone came in. Mateo, the newest cellist, found his name taped to its back.

At first, every interruption broke his concentration. He missed entrances and tightened his grip on the bow. Then he began noticing something useful: from that seat, he could see both the conductor and the brass players reflected in the glass door. The reflection helped him anticipate sections that began behind him.

Before the winter concert, a stage assistant asked the orchestra to practice an unusual entrance. Players would walk on in groups while continuing to perform. Several musicians worried about losing sight of the conductor. Mateo suggested using reflections in the framed posters along the aisle. The orchestra tested his idea, and the entrance became smooth.

After the concert, the director offered Mateo a chair closer to the center. Mateo thanked her but remained by the door. The draft was still annoying, and people still brushed past him. Yet the seat no longer felt like the place assigned to the least important player. It had become the place from which Mateo had learned to look differently.

150. Select the best answer. What first helps Mateo anticipate sections that begin behind him?

- A) The conductor changes his position.
- B) He memorizes every brass part.
- C) He sees reflections in the glass door.
- D) The director gives him a signal.

151. Select the best answer. Why does Mateo keep his original chair?

- A) He is afraid to move his cello.
- B) He now values the perspective the seat provides.
- C) The center chair is too small.
- D) He wants to leave rehearsal early.

152. Select the best answer. Mateo's changed view of the chair primarily shows ____.

- A) a shift in perspective
- B) a conflict with authority
- C) an unanswered mystery
- D) a humorous misunderstanding

153. Select the best answer. What is the main idea of the passage?

- A) Orchestras should remove distracting doors.
- B) New musicians need easier music.
- C) Concert entrances matter more than rehearsals.
- D) A disadvantage can become useful when viewed creatively.

154. Select the best answer. How is the passage mainly organized?

- A) It compares two orchestras.
- B) It presents a problem, a discovery, and a broader application.
- C) It lists rehearsal rules in order of importance.
- D) It explains the history of a concert hall.

Informational Passage: Why Some Seeds Wait

A seed may appear inactive, yet it contains a living embryo and stored food. Many seeds begin growing soon after receiving water, oxygen, and a suitable temperature. Others remain dormant even when these basic conditions are present. Dormancy prevents growth until additional signals suggest that survival is likely. Different species use different signals. Some seeds have coats so hard that water cannot enter until weathering, soil movement, or an animal's digestion weakens the covering. Certain forest plants respond to chemicals in smoke or to heat from a fire. Because fire removes dense vegetation, a seed that sprouts afterward may encounter more sunlight and less competition. Other seeds require weeks of cold before they can germinate. This delay keeps them from sprouting during a brief warm period in autumn, when young plants might soon be killed by winter.

Dormancy also spreads risk over time. Seeds from one plant may not all awaken during the same season. If drought destroys one year's seedlings, seeds still resting in the soil may grow under better conditions later. For farmers and gardeners, dormancy can be inconvenient, but understanding its triggers allows them to imitate nature—scratching a hard coat, chilling seeds, or applying carefully controlled heat.

155. Select the best answer. According to the passage, why can sprouting after a fire be advantageous?

- A) The soil immediately becomes colder.
- B) All seed coats disappear.
- C) There may be more light and less competition.
- D) The seedlings no longer need water.

156. Select the best answer. What is the author's main purpose?

- A) To explain how dormancy helps seeds respond to favorable conditions
- B) To argue that dormant seeds should not be planted
- C) To compare the cost of several gardening methods
- D) To describe only the structure inside a seed

157. Select the best answer. Why might all seeds from one plant not germinate together?

- A) The plant produces seeds of different species.
- B) Some seeds contain no embryos.
- C) Dormancy guarantees that every seed survives.
- D) Staggered germination reduces the risk of one bad season destroying all seedlings.

158. Select the best answer. As used in the final paragraph, imitate most nearly means ____.

- A) observe
- B) reproduce
- C) prevent
- D) measure

159. Select the best answer. Which choice best describes the passage's structure?

- A) A claim is stated and then rejected.
- B) A historical event is narrated from two viewpoints.
- C) Several plants are ranked by growth rate.
- D) A process is explained through causes, examples, and practical applications.

Literary Passage: The Quiet Rehearsal

Mara had practiced the cello solo until even the family cat seemed able to anticipate every note. Yet on the afternoon of the community concert, the rehearsal room felt unfamiliar. Empty chairs faced her like rows of judges, and the polished floor returned each small scrape of her bow.

Mr. Ibarra, the conductor, listened from the back row. Halfway through, Mara missed a shift and stopped. "Again from the beginning?" she asked.

"No," he said. "Begin two measures before the mistake."

Mara frowned but obeyed. The second attempt was no better. On the third, she reached the difficult note cleanly, only to rush the phrase that followed. Mr. Ibarra tapped the seat beside him. "You are treating the mistake like a locked door," he said. "It is only one uneven stone in a long path."

Mara returned to the music, this time beginning several measures earlier. She noticed how the melody gathered energy before the troublesome shift and relaxed afterward. The note no longer seemed like a separate obstacle; it belonged to a larger musical sentence.

That evening, when the audience filled the chairs, Mara still felt nervous. But as she approached the difficult passage, she listened for the melody's direction instead of bracing for one note. Her hand moved without hesitation.

160. What does Mr. Ibarra first tell Mara to do after she stops?

- A) Rest before trying again
- B) Play the entire solo more slowly
- C) Begin shortly before the mistake
- D) Practice without the bow

161. Why does beginning several measures earlier help Mara?

- A) It lets her understand the difficult note as part of the melody.
- B) It gives her hand more time to rest.
- C) It makes the audience seem less intimidating.
- D) It allows Mr. Ibarra to mark the music.

162. As used in the passage, "bracing" most nearly means

- A) supporting.
- B) preparing tensely.
- C) decorating.
- D) fastening.

163. Mr. Ibarra's comparison of a mistake to an uneven stone mainly emphasizes that the mistake

- A) can damage the whole performance.
- B) should be removed through repetition.
- C) is difficult for every musician.
- D) is a small part of a longer journey.

164. Which statement best summarizes the passage?

- A) Mara learns that flawless practice matters more than confidence.
- B) A conductor changes a concert program after a difficult rehearsal.
- C) Mara performs better after viewing a difficult note within the whole phrase.
- D) A young musician discovers that audiences rarely notice mistakes.

Scientific Passage: A Forest's Hidden Exchange

On a tree's roots, certain fungi form threadlike networks called mycorrhizae. These fungi do not merely grow beside the roots; they establish a partnership with the tree. The fungal threads extend far into the surrounding soil, reaching spaces too narrow for most roots. From those spaces, the fungi absorb water and minerals, especially phosphorus, and pass some of these resources to the tree.

The exchange also benefits the fungi. Trees use sunlight to produce sugars through photosynthesis. Some of that sugar travels to the roots and then to the fungi, which cannot make their own food from sunlight. Both partners therefore gain something difficult to obtain alone.

Researchers once described these networks mainly as underground pipelines connecting plants. That comparison can be useful, but it is incomplete. Soil conditions, fungal species, and the health of individual trees all affect what moves through a network. Furthermore, fungi use much of the sugar they receive for their own growth. The relationship is cooperation, not a system in which one organism simply serves another.

Scientists study these partnerships by tracing substances marked with special, detectable forms of elements. Such studies reveal movement through roots and fungi without requiring researchers to dig up and destroy the entire network.

165. According to the passage, what resource does the tree provide to the fungi?

- A) Sunlight
- B) Sugar
- C) Phosphorus
- D) Oxygen

166. What is the main idea of the passage?

- A) Tree roots can enter narrower spaces than fungal threads.
- B) Detectable elements are harmful to underground organisms.
- C) Forest plants compete for every mineral in the soil.
- D) Trees and fungi exchange resources in a complex partnership.

167. Why is the pipeline comparison described as incomplete?

- A) The exchanges vary with several biological and environmental conditions.
- B) Fungal networks always move resources in only one direction.
- C) Pipelines are usually found above ground.
- D) Researchers cannot observe any movement in the networks.

168. As used in the final paragraph, "tracing" most nearly means

- A) copying a shape.
- B) following the movement of.
- C) discovering the origin of a word.
- D) drawing lightly over.

169. How is the passage mainly organized?

- A) It lists competing theories and selects one.
- B) It presents a problem and argues for a legal solution.
- C) It describes an exchange, qualifies a comparison, and explains a research method.
- D) It narrates discoveries in strict chronological order.

Biographical-Style Passage: Mapping with Patience

In the early 1900s, ocean charts could still contain large blank areas. Marie Tharp, born in 1920, would later help transform those blanks into a detailed picture of the seafloor. Working with thousands of depth measurements collected by research ships, she plotted each number by hand along the ships' routes. The task demanded patience: a single voyage could produce long rolls of data, and the measurements formed only narrow paths across a vast ocean.

Tharp compared one route with another, using the scattered lines to infer the landscape between them. Her maps revealed mountain chains, plains, and a deep central valley running through the Mid-Atlantic Ridge. At first, some colleagues doubted the valley because it supported the then-controversial idea that Earth's crust moves. Tharp checked the data rather than removing the feature.

Later, earthquake locations plotted by another researcher lined up with the valley. This independent evidence strengthened the interpretation. When Tharp's seafloor maps were eventually published for broad audiences, they allowed people to see the ocean bottom not as a smooth basin but as a varied landscape.

Her achievement did not come from traveling to every mapped location. It came from recognizing a coherent pattern in measurements gathered by many expeditions—and from trusting careful analysis when an unexpected picture emerged.

170. What later evidence supported Tharp's interpretation of the central valley?

- A) New photographs of the ocean surface
- B) Reports from coastal communities
- C) Changes in ship design
- D) Earthquake locations aligned with the valley

171. Which statement best expresses the central idea of the passage?

- A) Research ships made accurate maps without help from land-based analysts.
- B) Tharp used careful analysis of scattered data to reveal seafloor patterns.
- C) Ocean charts were more complete in the early 1900s than they are today.
- D) Earthquake research replaced the need for depth measurements.

172. What can be inferred about Tharp when colleagues doubted the valley?

- A) She preferred familiar explanations to new ones.
- B) She abandoned the map until more voyages occurred.
- C) She valued evidence more than pressure to revise an unexpected result.
- D) She believed every early measurement was exact.

173. As used in the final paragraph, "coherent" most nearly means

- A) logically connected.
- B) brightly colored.
- C) widely publicized.
- D) quickly produced.

174. The contrast between "blank areas" and a "detailed picture" mainly highlights

- A) the artistic style of Tharp's maps.
- B) the change in ship routes over time.
- C) the difference between land and ocean travel.
- D) the expansion of knowledge about the seafloor.

Section 4: Mathematics

64 questions | Recommended time: 45 minutes

175. What is the value of $18 - 2(3 + 4)$?

- A) 4
- B) 2
- C) 16
- D) 112

176. Which fraction is equivalent to 0.375?

- A) $\frac{3}{5}$
- B) $\frac{3}{8}$
- C) $\frac{5}{8}$
- D) $\frac{37}{100}$

177. What is the least common multiple of 12 and 18?

- A) 6
- B) 24
- C) 36
- D) 72

178. A quantity decreases from 80 to 62. What is the percent decrease?

- A) 18%
- B) 29%
- C) 77.5%
- D) 22.5%

179. Solve $3(x - 4) + 5 = 20$.

- A) 9
- B) 7
- C) 11
- D) 13

180. If $y = 4x - 1$, what is y when $x = -2$?

- A) -7
- B) -9
- C) 7
- D) 9

181. Which inequality represents “seven less than twice n is at most 15”?

- A) $2(n - 7) \leq 15$
- B) $7 - 2n \leq 15$
- C) $2n - 7 \leq 15$
- D) $2n - 7 \geq 15$

182. A streaming plan costs \$8 plus \$3 per movie. If the bill is \$29, how many movies were rented?

- A) 6
- B) 8
- C) 9
- D) 7

183. Two angles of a triangle measure 48° and 67° . What is the third angle?

- A) 65°
- B) 55°
- C) 75°
- D) 115°

184. What is the area of a trapezoid with bases 8 and 14 and height 5?

- A) 44 square units
- B) 55 square units
- C) 70 square units
- D) 110 square units

185. A right triangle has legs 9 and 12. What is the hypotenuse?

- A) 13
- B) 18
- C) 15
- D) 21

186. A train leaves at 9:47 a.m. and arrives at 12:18 p.m. How long is the trip?

- A) 2 hours 21 minutes
- B) 2 hours 41 minutes
- C) 3 hours 31 minutes
- D) 2 hours 31 minutes

187. A recipe uses 2.5 cups of flour for 20 muffins. How many cups are needed for 32 muffins?

- A) 4 cups
- B) 3.2 cups
- C) 4.5 cups
- D) 5 cups

188. What is the median of 12, 5, 9, 14, 7, and 11?

- A) 9
- B) 10
- C) 10.5
- D) 11

189. A bag contains 4 red, 3 blue, and 5 green tiles. What is the probability of drawing a tile that is not green?

- A) $5/12$
- B) $7/5$
- C) $7/12$
- D) $1/2$

190. The scores 6, 8, 8, 10, and x have a mean of 9. What is x , and what is the resulting range?

- A) $x = 9$; range = 4
- B) $x = 13$; range = 5
- C) $x = 15$; range = 9
- D) $x = 13$; range = 7

191. Select the best answer. What is $4\frac{2}{5} - 1\frac{3}{10}$?

- A) $2\frac{9}{10}$
- B) $3\frac{1}{10}$
- C) $3\frac{3}{10}$
- D) $3\frac{7}{10}$

192. Select the best answer. What is $|-8| + (-13)$?

- A) 5
- B) -21
- C) -5
- D) 21

193. Select the best answer. A \$72 item is discounted 25%. What is the sale price?

- A) \$18
- B) \$47
- C) \$57
- D) \$54

194. Select the best answer. Simplify $4(3x - 2) + 5$.

- A) $12x - 3$
- B) $12x + 3$
- C) $7x - 2$
- D) $12x - 7$

195. Select the best answer. Inezve $6 - x/3 = 2$.

- A) 4
- B) 12
- C) 8
- D) 24

196. Select the best answer. If $h(n) = 2n^2 + 1$, what is $h(3)$?

- A) 13
- B) 18
- C) 19
- D) 37

197. Select the best answer. A tank contains 80 liters and drains 6 liters per minute. Which expression gives the liters remaining after t minutes?

- A) $74t$
- B) $80 + 6t$
- C) $6t - 80$
- D) $80 - 6t$

198. Select the best answer. A regular decagon has a perimeter of 90 centimeters. What is one side length?

- A) 9 centimeters
- B) 8 centimeters
- C) 10 centimeters
- D) 18 centimeters

199. Select the best answer. A circle has diameter 18 inches. What is its circumference?

- A) 9π inches
- B) 18π inches
- C) 36π inches
- D) 81π inches

200. Select the best answer. A triangle has vertices (0,0), (0,6), and (4,0). What is its area?

- A) 10 square units
- B) 20 square units
- C) 12 square units
- D) 24 square units

201. Select the best answer. How many centimeters are in 3.4 meters?

- A) 34
- B) 3,400
- C) 0.34
- D) 340

202. Select the best answer. A runner completes 7.5 kilometers in 50 minutes. At the same rate, how far in 2 hours?

- A) 18 kilometers
- B) 15 kilometers
- C) 16 kilometers
- D) 20 kilometers

203. Select the best answer. A recipe needs 10 ounces per loaf. How many pounds are needed for 8 loaves?

- A) 4 pounds
- B) 5 pounds
- C) 6 pounds
- D) 8 pounds

204. Select the best answer. The values are 2, 5, 8, 11, and 14. What is the mean?

- A) 7
- B) 9
- C) 8
- D) 10

205. Select the best answer. A fair spinner has 5 equal sectors. What is the probability of landing on the same sector twice?

- A) $\frac{1}{10}$
- B) $\frac{1}{25}$
- C) $\frac{2}{5}$
- D) $\frac{1}{5}$

206. Select the best answer. Set P has range 8. Adding a new maximum 5 greater than the old maximum changes the range to what value?

- A) 13
- B) 8
- C) 10
- D) 40

207. Select the best answer. What is $\frac{2}{3} + \frac{5}{8}$?

- A) $1\frac{1}{24}$
- B) $1\frac{7}{24}$
- C) $1\frac{3}{8}$
- D) $\frac{7}{11}$

208. Select the best answer. Which number is prime?

- A) 59
- B) 57
- C) 51
- D) 69

209. Select the best answer. What is the value of $(-6)^2 - |-11|$?

- A) -47
- B) 25
- C) 47
- D) -25

210. Select the best answer. A ratio of 5:8 is equivalent to which ratio?

- A) 15:21
- B) 20:30
- C) 25:35
- D) 30:48

211. Select the best answer. Solve $4x + 7 = 2x + 19$.

- A) 6
- B) 8
- C) 10
- D) 13

212. Select the best answer. Simplify $5a - 2(3a - 4)$.

- A) $a + 8$
- B) $11a - 8$
- C) $-a - 8$
- D) $-a + 8$

213. Select the best answer. A line follows $y = -3x + 10$. What is x when $y = -5$?

- A) 5
- B) 3
- C) -5
- D) 15

214. Select the best answer. Three consecutive integers have a sum of 72. What is the greatest integer?

- A) 23
- B) 24
- C) 25
- D) 26

215. Select the best answer. Each exterior angle of a regular polygon measures 45° . How many sides does the polygon have?

- A) 6
- B) 8
- C) 9
- D) 12

216. Select the best answer. A square has area 121 square units. What is its perimeter?

- A) 22
- B) 33
- C) 40
- D) 44

217. Select the best answer. A rectangular prism measures 3 by 4 by 7. What is its volume?

- A) 14
- B) 28
- C) 98
- D) 84

218. Select the best answer. A 15-foot board is cut into pieces each 18 inches long. How many complete pieces are made?

- A) 8
- B) 9
- C) 10
- D) 12

219. Select the best answer. A map scale is 1 inch = 12 miles. Two towns are $3\frac{1}{2}$ inches apart on the map. What is the actual distance?

- A) 30 miles
- B) 36 miles
- C) 42 miles
- D) 48 miles

220. Select the best answer. The data are 4, 7, 7, 9, 13. Which statement is true?

- A) The mode is 7.
- B) The median is 9.
- C) The range is 7.
- D) The mean is 9.

221. Select the best answer. A jar has 3 yellow and 5 purple counters. Two counters are drawn without replacement. What is the probability both are yellow?

- A) $\frac{3}{8}$
- B) $\frac{3}{28}$
- C) $\frac{6}{64}$
- D) $\frac{1}{4}$

222. Select the best answer. The mean of six numbers is 14. Five numbers total 61. What is the sixth number?

- A) 19
- B) 21
- C) 23
- D) 25

223. Which fraction lies exactly halfway between $\frac{2}{5}$ and $\frac{3}{5}$?

- A) $\frac{1}{2}$
- B) $\frac{5}{8}$
- C) $\frac{7}{15}$
- D) $\frac{4}{5}$

224. What is the least positive integer that is divisible by 8, 12, and 18?

- A) 48
- B) 72
- C) 96
- D) 144

225. A price is reduced from \$80 to \$68. What percent decrease is this?

- A) 12%
- B) 15%
- C) 17%
- D) 20%

226. If $f(n) = n^2 - 3n$, what is $f(-2)$?

- A) -10
- B) -2
- C) 2
- D) 10

227. Which expression is equivalent to $4(2x - 3) - 5(x + 1)$?

- A) $3x - 17$
- B) $3x - 7$
- C) $13x - 17$
- D) $13x - 7$

228. A theater charges a \$6 service fee plus \$9 per ticket. If a purchase costs \$51, how many tickets were bought?

- A) 4
- B) 5
- C) 6
- D) 7

229. Which inequality represents all values of y for which $7 - 2y > 15$?

- A) $y > 4$
- B) $y < 4$
- C) $y > -4$
- D) $y < -4$

230. A regular polygon has exterior angles measuring 45° each. How many sides does it have?

- A) 6
- B) 8
- C) 10
- D) 12

231. A circle has circumference 14π centimeters. What is its area?

- A) $14\pi \text{ cm}^2$
- B) $28\pi \text{ cm}^2$
- C) $49\pi \text{ cm}^2$
- D) $196\pi \text{ cm}^2$

232. A right triangle has legs of 9 units and 12 units. What is the length of its hypotenuse?

- A) 15 units
- B) 18 units
- C) 21 units
- D) 25 units

233. A train travels 126 miles in 2 hours 15 minutes. What is its average speed?

- A) 52 mph
- B) 54 mph
- C) 56 mph
- D) 63 mph

234. A rectangular garden measures 18 feet by 12 feet. A path 2 feet wide is built inside along all four edges. What is the area of the path?

- A) 88 ft^2
- B) 96 ft^2
- C) 104 ft^2
- D) 112 ft^2

235. A container holds 2 gallons and 1 quart. How many quarts does it hold?

- A) 6
- B) 8
- C) 9
- D) 10

236. The median of 4, 9, 11, x , and 20 is 11, and x is greater than 11. Which value could x be?

- A) 7
- B) 10
- C) 11
- D) 12

237. A bag contains 4 red, 3 blue, and 5 green tiles. One tile is selected and replaced, then another is selected. What is the probability that both are blue?

- A) $\frac{1}{16}$
- B) $\frac{1}{12}$
- C) $\frac{3}{16}$
- D) $\frac{1}{4}$

238. The mean of six numbers is 14. After one number is removed, the mean of the remaining five is 12. What number was removed?

- A) 12
- B) 18
- C) 20
- D) 24

Section 5: Language

60 questions | Recommended time: 30 minutes

239. Which sentence correctly uses a comma after an introductory phrase?

- A) After the final rehearsal, the cast rested.
- B) After the final rehearsal the cast, rested.
- C) After, the final rehearsal the cast rested.
- D) After the final rehearsal the cast rested.

240. Which sentence correctly uses an apostrophe?

- A) The two puppys bowls were beside the door.
- B) The two puppies' bowls were beside the door.
- C) The two puppy's bowls were beside the door.
- D) The two puppies bowls' were beside the door.

241. Which sentence correctly introduces a list?

- A) Please bring: three supplies, paper, tape, and scissors.
- B) Please bring three supplies; paper, tape, and scissors.
- C) Please bring three supplies: paper, tape, and scissors.
- D) Please bring three supplies paper: tape: and scissors.

242. Select the correctly capitalized sentence about the trip.

- A) We studied french before visiting Quebec in June.
- B) We studied French before visiting quebec in june.
- C) We studied french before visiting quebec in June.
- D) We studied French before visiting Quebec in June.

243. Select the correctly capitalized sentence about the school event.

- A) Mayor Ortiz spoke at Lincoln Middle School on Monday.
- B) Mayor ortiz spoke at Lincoln middle school on Monday.
- C) mayor Ortiz spoke at Lincoln Middle School on monday.
- D) Mayor Ortiz spoke at lincoln Middle School on Monday.

244. Choose the standard spelling of the word meaning "required."

- A) neccessary
- B) necessary
- C) necesary
- D) necessery

245. Which sentence needs a spelling correction?

- A) The mechanic inspected the engine.
- B) Our neighbor recommended the bakery.
- C) The committee reached a seperate decision.
- D) The athlete maintained a steady pace.

246. Which version correctly completes “The coach selected ____”?

- A) Jordan and I
- B) Jordan and myself
- C) me and Jordan’s
- D) Jordan and me

247. Which sentence uses the verb tense correctly?

- A) By the time we arrived, the film had begun.
- B) By the time we arrived, the film has begun.
- C) By the time we arrive, the film had begun.
- D) By the time we arrived, the film begun.

248. Which revision correctly fixes the misplaced modifier?

- A) Walking through the market, the bright banners caught Luis’s attention.
- B) Walking through the market, Luis noticed the bright banners.
- C) The bright banners, walking through the market, caught Luis’s attention.
- D) Luis noticed, walking through the market, the banners were bright.

249. Which word correctly completes the sentence? The storm did not ____ our plans.

- A) effect
- B) except
- C) affect
- D) accept

250. Which revision states the idea without redundancy?

- A) The two teams cooperated together.
- B) Together, both of the two teams cooperated.
- C) The two separate teams mutually cooperated together.
- D) The two teams cooperated.

Editing Passage: A Pocket Meadow

(1) An unused corner beside our school parking lot once held only gravel and weeds. (2) Last fall, students proposed turning it into a small meadow for native flowers. 251. Which sentence should be removed because it does not support the paragraph’s focus?

- A) Sentence 4
- B) Sentence 2
- C) Sentence 5
- D) Sentence 6

252. Which sentence would be the best topic sentence for the passage?

- A) Native flowers come in several bright colors.
- B) Parking lots are found beside many schools.
- C) A neglected patch of ground can become a valuable habitat through a shared effort.
- D) Gardeners use many kinds of tools.

253. Where should the following sentence be placed? "They also measured how many hours of sunlight reached the area."

- A) After sentence 1
- B) After sentence 5
- C) After sentence 7
- D) After sentence 3

254. Select the best answer. Which sentence correctly joins two independent clauses?

- A) The gate opened, the crowd entered.
- B) The gate opened: and the crowd entered.
- C) The gate opened the crowd entered.
- D) The gate opened; the crowd entered.

255. Select the best answer. Which version correctly punctuates the quotation?

- A) "Please close the window," said Ravi.
- B) "Please close the window" said Ravi.
- C) "Please close the window", said Ravi.
- D) Please "close the window," said Ravi.

256. Select the best answer. Which version is capitalized correctly?

- A) We crossed the rocky Mountains in June.
- B) We crossed the Rocky Mountains in June.
- C) We crossed the Rocky mountains in june.
- D) We crossed The Rocky Mountains in June.

257. Select the best answer. Which version is capitalized correctly?

- A) senator Kim spoke at Central High school.
- B) Senator kim spoke at central High School.
- C) Senator Kim spoke at Central High School.
- D) Senator Kim spoke at Central high school.

258. Select the best answer. Which spelling is correct?

- A) independant
- B) indepedent
- C) independint
- D) independent

259. Select the best answer. Which sentence contains a spelling error?

- A) The room had a pleasent aroma.
- B) The response was accurate.
- C) The schedule was flexible.
- D) The bridge remained accessible.

260. Select the best answer. Which word correctly completes the sentence? The two accounts had many _____.

- A) similarities
- B) similarities
- C) similaritys
- D) similareties

261. Select the best answer. Which sentence follows standard subject-verb agreement?

- A) A list of names appear on the screen.
- B) A list of name appear on the screen.
- C) A list of names appears on the screen.
- D) A list of names appearing on the screen.

266. Select the best answer. Which title best represents the paragraph?

- A) Repairs to the Town Fountain
- B) Training for One Workshop
- C) Why Tools Become Damaged
- D) Finding Shared Tools Online

267. Select the best answer. Which revision would make sentence 1 the strongest topic sentence?

- A) An online borrowing guide would help residents locate shared tools across town.
- B) Our town has several public buildings.
- C) Many residents use the internet every day.
- D) Tools can complete many household tasks.

268. Select the best answer. Which sentence would provide the most effective conclusion?

- A) The website might use several colors.
- B) With reliable information in one place, residents could borrow equipment more easily and avoid unnecessary trips.
- C) Some equipment requires training before use.
- D) Town residents own many personal tools.

269. Select the best answer. Which sentence correctly punctuates a nonessential phrase?

- A) The bicycle, which has a red frame is mine.
- B) The bicycle which has a red frame, is mine.
- C) The bicycle, which has a red frame, is mine.
- D) The bicycle which, has a red frame is mine.

270. Select the best answer. Which sentence correctly shows plural possession?

- A) The players uniforms were washed.
- B) The players' uniforms were washed.
- C) The player's uniforms were washed.
- D) The players's uniforms were washed.

271. Select the best answer. Which sentence uses a semicolon correctly?

- A) The rain stopped; however, the field remained muddy.
- B) The rain; stopped however, the field remained muddy.
- C) The rain stopped however; the field remained muddy.
- D) The rain stopped, however; the field remained muddy.

272. Select the best answer. Which sentence is capitalized correctly?

- A) We studied the French Revolution in history class.
- B) We studied the french revolution in History class.
- C) We studied the French revolution in History Class.
- D) We studied the french Revolution in history class.

273. Select the best answer. Which sentence is capitalized correctly?

- A) Aunt Rosa visited Lake Erie in July.
- B) Aunt rosa visited Lake Erie in july.
- C) Aunt Rosa visited lake Erie in July.
- D) Aunt Rosa visited lake erie in July.

274. Select the best answer. Which spelling is correct?

- A) maintenance
- B) maintainance
- C) maintenace
- D) maintanance

275. Select the best answer. Which word correctly completes the sentence? The scientist recorded each ____ measurement.

- A) separate
- B) separete
- C) seperate
- D) seperrate

276. Select the best answer. Which sentence uses pronoun case correctly?

- A) The award was given to Maya and I.
- B) Her and me organized the display.
- C) The teacher spoke with he and Carlos.
- D) Jordan and I completed the experiment.

277. Select the best answer. Which sentence correctly uses a restrictive clause?

- A) The books, that are overdue, must be returned.
- B) The books that are overdue must be returned.
- C) The books which are overdue, must be returned.
- D) The books, which are overdue must be returned.

278. Select the best answer. Which sentence avoids a dangling modifier?

- A) Walking through the orchard, the ripe apples caught Lena's attention.
- B) Walking through the orchard, there were ripe apples everywhere.
- C) Walking through the orchard, Lena noticed the ripe apples.
- D) Walking through the orchard, the baskets seemed heavy.

279. Select the best answer. Which word correctly completes the sentence? The new rule applies to everyone ____ two visiting students.

- A) accept
- B) beside
- C) among
- D) except

280. Select the best answer. Which sentence uses the most precise language?

- A) The machine did something strange.
- B) The machine emitted a sharp clicking sound.
- C) The machine was kind of unusual.
- D) The machine had a thing happen.

281. Select the best answer. Which revision is most concise?

- A) At this point in time, the store is currently closed.
- B) The store is closed at the present time now.
- C) The store is currently closed now.
- D) The store is currently closed.

Editing Passage: Borrowing a Telescope

(1) Our science club wanted students to observe the night sky without buying expensive equipment. (2) We created a telescope-lending program with help from the public library. (3) Members labeled each case, wrote a one-page setup guide, and practiced checking the lenses for damage. (4) The library now lends the telescopes for three nights at a time. 282. Select the best answer. Which sentence should be removed because it disrupts the paragraph's unity?

- A) Sentence 2
- B) Sentence 4
- C) Sentence 6
- D) Sentence 7

283. Select the best answer. Where should the following sentence be placed? "First-time borrowers can attend a short demonstration before taking a telescope home."

- A) After sentence 1
- B) After sentence 5
- C) After sentence 3
- D) After sentence 7

284. Which sentence is punctuated correctly?

- A) The storm ended; however, the roads remained flooded.
- B) The storm ended, however; the roads remained flooded.
- C) The storm ended however, the roads remained flooded.
- D) The storm ended however the roads; remained flooded.

285. Which sentence uses punctuation correctly?

- A) The exhibit includes: fossils, shells, and minerals.
- B) The exhibit includes three collections fossils, shells, and minerals.
- C) The exhibit includes three collections: fossils, shells, and minerals.
- D) The exhibit: includes three collections, fossils, shells, and minerals.

286. Which sentence is capitalized correctly?

- A) My aunt studies french and History at college.
- B) My aunt studies French and history at college.
- C) My Aunt studies French and History at College.
- D) My aunt studies french and history at College.

287. Which sentence is capitalized correctly?

- A) The museum is west of Lake Michigan near the Wisconsin border.
- B) The Museum is West of lake Michigan near the Wisconsin Border.
- C) The museum is West of Lake michigan near the wisconsin border.
- D) The Museum is west of lake Michigan near the Wisconsin Border.

288. Which word is spelled correctly?

- A) occasionaly
- B) occassionally
- C) ocasionaly
- D) occasionally

289. Which sentence contains a misspelled word?

- A) The committee reached a unanimous decision.
- B) The mechanic inspected the equipment thoroughly.
- C) The speaker's argument was persausive.
- D) The schedule changed unexpectedly.

290. Which word correctly completes the sentence? The hikers were grateful for the guide's _____ advice.

- A) knowledgable
- B) knowledgeable
- C) knowledgeble
- D) knowlegeable

291. Which sentence is grammatically correct?

- A) Neither of the bicycles need new tires.
- B) Neither of the bicycles needing new tires.
- C) Neither of the bicycles were needing new tires.
- D) Neither of the bicycles needs new tires.

292. Which revision corrects the misplaced modifier in this sentence? Walking through the orchard, the ripe apples caught Elena's attention.

- A) Walking through the orchard, Elena noticed the ripe apples.
- B) The ripe apples, walking through the orchard, caught Elena's attention.
- C) Elena's attention caught the ripe apples walking through the orchard.
- D) Walking through the orchard, the attention of Elena was caught by apples.

Detailed Explanations

Verbal Skills

1. HSPT-V3-001 - Answer A: polite
Courteous means polite and considerate toward others.
2. HSPT-V3-002 - Answer B: vast
Immense means extremely large or vast.
3. HSPT-V3-003 - Answer C: notice
To perceive something is to become aware of or notice it.
4. HSPT-V3-004 - Answer D: narrow
Broad means wide; narrow means having little width.
5. HSPT-V3-005 - Answer A: superior
Inferior means lower in quality or rank; superior means higher.
6. HSPT-V3-006 - Answer B: guilty
Innocent means not responsible for wrongdoing; guilty means responsible.
7. HSPT-V3-007 - Answer C: temperature
A rudder controls direction; a thermostat controls temperature.
8. HSPT-V3-008 - Answer D: mammal
Gills enable a fish to breathe; lungs enable a mammal to breathe.
9. HSPT-V3-009 - Answer A: horse
A sapling is a young tree; a foal is a young horse.
10. HSPT-V3-010 - Answer B: thermometer
The other three measure length; a thermometer measures temperature.
11. HSPT-V3-011 - Answer C: mumble
All four describe ways of speaking quietly or indistinctly.
12. HSPT-V3-012 - Answer D: scene and play
A chapter is a division of a book; a scene is a division of a play.
13. HSPT-V3-013 - Answer A: Banner K is blue.
K cannot be gold, and every banner is blue or gold, so K must be blue.
14. HSPT-V3-014 - Answer B: L
J must be first and N fifth; the only arrangement fitting K before consecutive L and M is J, K, L, M, N.
15. HSPT-V3-015 - Answer C: The garden gate is not open.
By the contrapositive, an off path light means the condition of an open gate is not present.
16. HSPT-V3-016 - Answer B: careful
Meticulous means extremely careful and precise.
17. HSPT-V3-017 - Answer C: unwilling
Reluctant means hesitant or unwilling.
18. HSPT-V3-018 - Answer D: decrease
To diminish is to become or make smaller.
19. HSPT-V3-019 - Answer A: abundant
Scarce means limited; abundant means plentiful.
20. HSPT-V3-020 - Answer B: flexible
Rigid means stiff; flexible means able to bend.
21. HSPT-V3-021 - Answer C: reveal
To conceal is to hide; to reveal is to show.
22. HSPT-V3-022 - Answer D: weight
A compass indicates direction for navigation; a scale indicates weight.
23. HSPT-V3-023 - Answer A: bear
A hive shelters a bee; a den shelters a bear.

24. HSPT-V3-024 - Answer B: rain
A pebble is a small rock; drizzle is light rain.
25. HSPT-V3-025 - Answer C: emerald
The other three are shades of red; emerald is green.
26. HSPT-V3-026 - Answer D: limerick
All four are forms of poetry.
27. HSPT-V3-027 - Answer A: key and piano
A lens is a functional part of a camera; a key is a functional part of a piano.
28. HSPT-V3-028 - Answer B: It is not transparent.
The two statements imply that cedar boxes cannot be transparent.
29. HSPT-V3-029 - Answer C: R
The only possible order is R, P, Q, S.
30. HSPT-V3-030 - Answer D: The alarm is not armed.
The contrapositive shows that the alarm is not armed.
31. HSPT-V3-031 - Answer C: adaptable
Resilient means able to recover or adapt, so adaptable is the closest synonym.
32. HSPT-V3-032 - Answer C: brief
Concise writing is brief while still expressing the needed idea.
33. HSPT-V3-033 - Answer A: confirm
To verify something is to confirm that it is accurate.
34. HSPT-V3-034 - Answer D: agitated
Tranquil means calm; agitated expresses the opposite condition.
35. HSPT-V3-035 - Answer A: contract
To contract is to become smaller, the opposite of expand.
36. HSPT-V3-036 - Answer D: temporary
Temporary describes something that does not last permanently.
37. HSPT-V3-037 - Answer C: pottery
Wool is material made into a sweater, just as clay is material made into pottery.
38. HSPT-V3-038 - Answer A: building
A rehearsal plans and prepares a performance; a blueprint plans and guides a building.
39. HSPT-V3-039 - Answer D: rest
Water responds to thirst, while rest responds to fatigue.
40. HSPT-V3-040 - Answer B: bronze
Bronze is an alloy, whereas copper, iron, and silver are elements.
41. HSPT-V3-041 - Answer B: willow
Willow, like cedar, maple, and birch, is a type of tree.
42. HSPT-V3-042 - Answer A: school and fish
A flock is a group of birds, and a school is a group of fish.
43. HSPT-V3-043 - Answer C: Some lanterns are polished.
The brass lanterns are polished because every brass object in the cabinet is polished.
44. HSPT-V3-044 - Answer B: Thursday
Thursday is the only available pottery day Elena can attend.
45. HSPT-V3-045 - Answer D: Y
Y must be above Z, which is above W and X, so Y is on top.
46. HSPT-V3-046 - Answer B: resolute
Steadfast describes someone firm and unwavering, so resolute is the closest synonym.
47. HSPT-V3-047 - Answer C: demanding
Arduous describes something requiring great effort, making demanding the closest synonym.
48. HSPT-V3-048 - Answer A: retreat
To recede is to move back or away, which matches retreat.
49. HSPT-V3-049 - Answer D: strict
Lenient means permissive or not severe, while strict expresses the opposite quality.

50. HSPT-V3-050 - Answer B: orderly

Chaotic means disorganized or confused, while orderly means neatly arranged or controlled.

51. HSPT-V3-051 - Answer C: decelerate

Accelerate means to increase speed, while decelerate means to decrease speed.

52. HSPT-V3-052 - Answer A: joke

Applause is a common response to a performance, just as laughter is a common response to a joke.

53. HSPT-V3-053 - Answer B: account

A key grants access through a lock, just as a password grants access to an account.

54. HSPT-V3-054 - Answer D: speaker

An easel supports a painter's working material, just as a lectern supports a speaker's notes.

55. HSPT-V3-055 - Answer C: tulip

Maple, cedar, and birch are trees, while a tulip is a flowering herbaceous plant.

56. HSPT-V3-056 - Answer B: polka

A waltz, tango, foxtrot, and polka are recognized types of dance.

57. HSPT-V3-057 - Answer D: rocks

Granite, marble, and slate are all types of rock.

58. HSPT-V3-058 - Answer D: Thursday

Photography occurs one day after pottery, so Friday photography requires Thursday pottery.

59. HSPT-V3-059 - Answer A: No bronze token is wooden.

Every bronze token is stamped, and no stamped token can be wooden; therefore, no bronze token is wooden.

60. HSPT-V3-060 - Answer C: K

The constraints produce the order K, M, J, L, so K must be on top.

Quantitative Skills

61. HSPT-Q3-001 - Answer A: 61

The differences are 5, 8, 11, 14, then 17; $44 + 17 = 61$.

62. HSPT-Q3-002 - Answer B: 1.25

The operations alternate $\div 2$ and $\div 4$, so $2.5 \div 2 = 1.25$.

63. HSPT-Q3-003 - Answer C: 41

The pattern alternates $\times 3$ and -1 ; $42 - 1 = 41$.

64. HSPT-Q3-004 - Answer D: 47

Each term after the second equals the sum of the previous two: $18 + 29 = 47$.

65. HSPT-Q3-005 - Answer A: 72

If $1.25n = 90$, then $n = 90 \div 1.25 = 72$.

66. HSPT-Q3-006 - Answer B: 132

132 is even and has digit sum 6, so it is divisible by 6 but not by 9.

67. HSPT-Q3-007 - Answer B: 24

The number is $27 \times 4/3 = 36$, and $2/3$ of 36 is 24.

68. HSPT-Q3-008 - Answer C: The two quantities are equal.

Both quantities equal 28.

69. HSPT-Q3-009 - Answer A: Quantity A is greater.

Squaring a positive number below 1 makes it smaller, so x is greater than x^2 .

70. HSPT-Q3-010 - Answer D: The relationship cannot be determined from the information given.

The sum alone does not reveal whether a is greater than, equal to, or less than b .

71. HSPT-Q3-011 - Answer C: The two quantities are equal.

Both areas equal 36 square units.

72. HSPT-Q3-012 - Answer B: Quantity B is greater.

The perimeter is 18, so Quantity B is greater.

73. HSPT-Q3-013 - Answer D: The relationship cannot be determined from the information given.

A supplementary angle may be less than, equal to, or greater than 90° , so the relationship is unknown.

74. HSPT-Q3-014 - Answer C: 49

These are consecutive squares from 2 squared through 7 squared.

75. HSPT-Q3-015 - Answer D: 9

The operations alternate division by 2 and subtraction of 4.

76. HSPT-Q3-016 - Answer A: 50

Differences are 3, 6, 9, 12, then 15.

77. HSPT-Q3-017 - Answer B: 54

Multiply 45 by $6/5$ to obtain 54.

78. HSPT-Q3-018 - Answer C: \$72

12.5% of 64 is 8, so the new price is \$72.

79. HSPT-Q3-019 - Answer D: 12

The factors of 12 are 1, 2, 3, 4, 6, and 12.

80. HSPT-Q3-020 - Answer B: 15

Blue beads are $3/10$ of 50, or 15.

81. HSPT-Q3-021 - Answer B: Quantity B is greater.

Quantity A is $0.6 \times 45 = 27$. Since 27 is less than 30, Quantity B is greater.

82. HSPT-Q3-022 - Answer C: The two quantities are equal.

Both quantities equal 32.

83. HSPT-Q3-023 - Answer D: The relationship cannot be determined from the information given.

The comparison depends on whether k is positive, zero, or negative.

84. HSPT-Q3-024 - Answer B: Quantity B is greater.

The diameter is 8, so Quantity B is greater.

85. HSPT-Q3-025 - Answer A: Quantity A is greater.
The area is 33 and the perimeter is 28.
86. HSPT-Q3-026 - Answer C: The two quantities are equal.
Both quantities equal $3t$.
87. HSPT-Q3-027 - Answer A: 1
Each term is divided by 3, so $3 \div 3 = 1$.
88. HSPT-Q3-028 - Answer D: 52
The differences are 3, 6, 9, and 12; adding 15 gives 52.
89. HSPT-Q3-029 - Answer B: 16
Two interwoven sequences double: 2, 4, 8, 16 and 5, 10, 20.
90. HSPT-Q3-030 - Answer D: 46
Successive additions are 3, 6, 9, and 12; next add 15 to get 46.
91. HSPT-Q3-031 - Answer A: 170
Fifteen percent of 200 is 30, and $200 - 30 = 170$.
92. HSPT-Q3-032 - Answer C: 60
Each box holds $84 \div 7 = 12$ markers, so five hold 60.
93. HSPT-Q3-033 - Answer D: 5
The known digits total 13; adding 5 makes 18, which is divisible by 9.
94. HSPT-Q3-034 - Answer B: Quantity B is greater.
Quantity A is 24, which is less than 30.
95. HSPT-Q3-035 - Answer C: The two quantities are equal.
The least common multiple of 6 and 8 is 24, so the quantities are equal.
96. HSPT-Q3-036 - Answer A: Quantity A is greater.
Because $p > q$ and both are positive, p/q is greater than 1.
97. HSPT-Q3-037 - Answer B: Quantity B is greater.
The side is $28 \div 4 = 7$, so Quantity B is greater.
98. HSPT-Q3-038 - Answer C: The two quantities are equal.
The missing angle is $90^\circ - 38^\circ = 52^\circ$, making the quantities equal.
99. HSPT-Q3-039 - Answer A: Quantity A is greater.
Using $30 = \frac{1}{2} \times 10 \times h$ gives $h = 6$. Since 6 is greater than 5, Quantity A is greater.
100. HSPT-Q3-040 - Answer B: 41
The pattern alternates $\times 3$ and -1 : $14 \times 3 = 42$, then $42 - 1 = 41$.
101. HSPT-Q3-041 - Answer D: 49
The differences increase by 3: $+3, +6, +9, +12$, so the next difference is $+15$; $34 + 15 = 49$.
102. HSPT-Q3-042 - Answer C: $3/64$
Each term is half the preceding term, so half of $3/32$ is $3/64$.
103. HSPT-Q3-043 - Answer A: 48
Increasing 50 by 20% gives 60, and decreasing 60 by 20% gives 48.
104. HSPT-Q3-044 - Answer D: 10
Since $3/5 = 12/20$, $n + 2 = 12$ and $n = 10$.
105. HSPT-Q3-045 - Answer B: 1
Adding 3 to a number with remainder 5 gives remainder 8, which is remainder 1 after division by 7.
106. HSPT-Q3-046 - Answer A: 7.5
The scale factor is $3 \div 2 = 1.5$, so the flour amount is $5 \times 1.5 = 7.5$ cups.
107. HSPT-Q3-047 - Answer A: Quantity A is greater.
For every negative x , x^2 is positive while x is negative, so Quantity A is greater.
108. HSPT-Q3-048 - Answer C: The two quantities are equal.
 $\text{LCM}(6, 15) = 30$, while $3 \times \text{GCF}(20, 30) = 3 \times 10 = 30$.
109. HSPT-Q3-049 - Answer D: The relationship cannot be determined from the information given.
The sum is fixed, but p may be greater than, less than, or equal to q .
110. HSPT-Q3-050 - Answer A: Quantity A is greater.
The square's side is 8, so its area is 64; the rectangle's area is 60.

111. HSPT-Q3-051 - Answer C: The two quantities are equal.

The equal base angles total 140° , so each measures 70° .

112. HSPT-Q3-052 - Answer B: Quantity B is greater.

The prism's height is $96 \div 24 = 4$ units, which is less than 5 units.

Reading Comprehension

113. HSPT-R3-001 - Answer A: Boot prints in the softened soil

The passage says Mara notices boot prints on the fern-lined path.

114. HSPT-R3-002 - Answer B: Her grandfather had connected it specifically with the correct turn.

The boulder matches a remembered landmark, while the footprints could lead elsewhere.

115. HSPT-R3-003 - Answer C: lasting and calm

Mara feels a calm, durable confidence beyond her immediate relief.

116. HSPT-R3-004 - Answer D: create a problem that reveals Mara's growing judgment

Without the marker, Mara must evaluate evidence and demonstrate independence.

117. HSPT-R3-005 - Answer A: Careful observation can build confidence and guide sound decisions.

Mara succeeds by observing and weighing clues, then recognizes attention as a portable guide.

118. HSPT-R3-006 - Answer B: They send more sunlight away instead of absorbing it.

The passage directly explains that reflective surfaces absorb less sunlight.

119. HSPT-R3-007 - Answer C: They can capture rainwater.

The third paragraph identifies rainwater capture as a benefit of planted roofs.

120. HSPT-R3-008 - Answer D: It can be applied relatively quickly without the weight of a green roof.

The passage contrasts quick coatings with the structural demands of green roofs.

121. HSPT-R3-009 - Answer A: evaluate carefully

Planners evaluate several local conditions before choosing methods.

122. HSPT-R3-010 - Answer B: It presents a problem, compares solutions, and explains how choices are made.

The paragraphs move from local warming to options, tradeoffs, and selection.

123. HSPT-R3-011 - Answer C: To make route connections easier to understand

The second paragraph states that simplified geography can clarify connections.

124. HSPT-R3-012 - Answer D: Maps are purposeful selections that should be read with attention to their makers and uses.

The entire passage explains maps as selective, purposeful representations.

125. HSPT-R3-013 - Answer A: Both may be useful if each suits its intended purpose.

The author treats different selections as valid when they serve different needs.

126. HSPT-R3-014 - Answer B: metaphor

The phrase figuratively compares a map's choices to an argument.

127. HSPT-R3-015 - Answer C: thoughtful

The author considers both the usefulness and limitations of maps in a reflective manner.

128. HSPT-R3-016 - Answer D: matters considered important

Names and borders can reveal what people of a period considered important.

129. HSPT-R3-017 - Answer A: Beneath the classroom table

The passage directly identifies the location.

130. HSPT-R3-018 - Answer B: It offers a place and tools for work that does not require the set model.

The team can revise code and designs there.

131. HSPT-R3-019 - Answer C: fastened

Leila fastens the key to a visible cord.

132. HSPT-R3-020 - Answer D: decision to prevent the same mistake

The cord represents a practical lesson learned.

133. HSPT-R3-021 - Answer A: Adaptability can turn a setback into productive work.

The team changes plans and still solves problems.

134. HSPT-R3-022 - Answer B: gravity

Gravity pulls the heavier droplets downward.

135. HSPT-R3-023 - Answer C: It would cause much of the air to flow around it.

The passage explicitly contrasts solid walls with mesh.

136. HSPT-R3-024 - Answer D: How dew screens collect water and why their success varies

The passage explains operation, variables, and limits.

137. HSPT-R3-025 - Answer A: Local results help show whether a larger installation is worthwhile.
Performance depends strongly on the site.
138. HSPT-R3-026 - Answer B: Testing helps determine where dew screens can usefully supplement water supplies.
This captures testing, suitable locations, and a supporting role.
139. HSPT-R3-027 - Answer C: Place-name research combines varied sources to uncover complex naming histories.
The passage emphasizes multiple names, sources, and evidence.
140. HSPT-R3-028 - Answer D: Maps, letters, government records, and oral histories
The third paragraph lists these sources.
141. HSPT-R3-029 - Answer A: Each kind of source may contain errors or omit information.
The passage describes different strengths and weaknesses.
142. HSPT-R3-030 - Answer B: keep
Family stories may keep information over time.
143. HSPT-R3-031 - Answer C: rests on earlier names and decisions
The metaphor presents the current name as one stage in a history.
144. HSPT-R3-032 - Answer D: By introducing varied name origins, describing conflicting versions, and explaining research methods
The passage moves from complexity to evidence-based study.
145. HSPT-R3-033 - Answer A: The plants receive too much afternoon sun.
Nia learns that excessive afternoon sun is causing the plants to droop.
146. HSPT-R3-034 - Answer B: She is proud to share the result of her care.
Sharing mint lemonade lets Nia show Mrs. Vale that the inherited garden is thriving.
147. HSPT-R3-035 - Answer C: bent downward
The leaves bent downward when the plants were struggling.
148. HSPT-R3-036 - Answer D: care passed from one person to another
The box carries Mrs. Vale's care forward through Nia's new responsibility.
149. HSPT-R3-037 - Answer A: Accepting responsibility can reveal abilities a person did not expect.
Nia's unexpected success grows from accepting and learning to meet a responsibility.
150. HSPT-R3-038 - Answer C: He sees reflections in the glass door.
The glass-door reflection lets Mateo see the brass players behind him.
151. HSPT-R3-039 - Answer B: He now values the perspective the seat provides.
Mateo keeps the chair because its unusual viewpoint has become useful and meaningful.
152. HSPT-R3-040 - Answer A: a shift in perspective
The same chair changes from a disadvantage to a valued position as Mateo's perspective changes.
153. HSPT-R3-041 - Answer D: A disadvantage can become useful when viewed creatively.
Mateo turns an inconvenient seat into a creative advantage for himself and the orchestra.
154. HSPT-R3-042 - Answer B: It presents a problem, a discovery, and a broader application.
Mateo faces interruptions, discovers reflections, and applies that discovery to the concert entrance.
155. HSPT-R3-043 - Answer C: There may be more light and less competition.
Fire can remove vegetation, leaving a newly sprouted seed more sunlight and less competition.
156. HSPT-R3-044 - Answer A: To explain how dormancy helps seeds respond to favorable conditions
The passage explains dormancy, its environmental triggers, its benefits, and ways people manage it.
157. HSPT-R3-045 - Answer D: Staggered germination reduces the risk of one bad season destroying all seedlings.
Seeds remaining dormant can survive to germinate after conditions improve in a later season.
158. HSPT-R3-046 - Answer B: reproduce
Gardeners reproduce natural triggers when they scratch, chill, or heat seeds.
159. HSPT-R3-047 - Answer D: A process is explained through causes, examples, and practical applications.
The author explains dormancy, illustrates several triggers and benefits, then describes practical uses.
160. HSPT-R3-048 - Answer C: Begin shortly before the mistake
Mr. Ibarra tells Mara to begin two measures before the mistake.
161. HSPT-R3-049 - Answer A: It lets her understand the difficult note as part of the melody.
Starting earlier helps Mara hear how the phrase gathers and relaxes around the difficult shift.

162. HSPT-R3-050 - Answer B: preparing tensely.
Mara anticipates the note with tension, so bracing means preparing tensely.
163. HSPT-R3-051 - Answer D: is a small part of a longer journey.
The uneven-stone metaphor presents the mistake as one minor obstacle along an extended path.
164. HSPT-R3-052 - Answer C: Mara performs better after viewing a difficult note within the whole phrase.
The passage centers on Mara overcoming one troublesome shift by hearing its place in the complete musical phrase.
165. HSPT-R3-053 - Answer B: Sugar
The passage states that trees make sugars and pass some of that resource to fungi through their roots.
166. HSPT-R3-054 - Answer D: Trees and fungi exchange resources in a complex partnership.
The entire passage explains the mutual resource exchange and the factors that make it complex.
167. HSPT-R3-055 - Answer A: The exchanges vary with several biological and environmental conditions.
The passage says soil, fungal species, and tree health all influence what moves through the network.
168. HSPT-R3-056 - Answer B: following the movement of.
Researchers mark substances so they can follow their movement through roots and fungi.
169. HSPT-R3-057 - Answer C: It describes an exchange, qualifies a comparison, and explains a research method.
The paragraphs proceed from partnership, to limitations of the pipeline comparison, to a method for studying movement.
170. HSPT-R3-058 - Answer D: Earthquake locations aligned with the valley
The passage directly states that independently plotted earthquake locations lined up with the central valley.
171. HSPT-R3-059 - Answer B: Tharp used careful analysis of scattered data to reveal seafloor patterns.
The passage emphasizes how Tharp combined separate measurements to map a coherent, previously unseen landscape.
172. HSPT-R3-060 - Answer C: She valued evidence more than pressure to revise an unexpected result.
Instead of removing the disputed valley, Tharp rechecked the data and retained the evidence-based feature.
173. HSPT-R3-061 - Answer A: logically connected.
Coherent describes how scattered measurements formed a logically connected overall pattern.
174. HSPT-R3-062 - Answer D: the expansion of knowledge about the seafloor.
The contrast shows the shift from missing information to a detailed understanding of underwater terrain.

Mathematics

175. HSPT-M3-001 - Answer A: 4

Evaluate parentheses first: $3 + 4 = 7$; then $18 - 14 = 4$.

176. HSPT-M3-002 - Answer B: $\frac{3}{8}$

$0.375 = \frac{375}{1000}$, which simplifies to $\frac{3}{8}$.

177. HSPT-M3-003 - Answer C: 36

The first common positive multiple in their lists is 36.

178. HSPT-M3-004 - Answer D: 22.5%

The decrease is 18, and $18 \div 80 = 0.225 = 22.5\%$.

179. HSPT-M3-005 - Answer A: 9

Expand to $3x - 7 = 20$, so $3x = 27$ and $x = 9$.

180. HSPT-M3-006 - Answer B: -9

Substitute -2: $y = 4(-2) - 1 = -9$.

181. HSPT-M3-007 - Answer C: $2n - 7 \leq 15$

"Seven less than twice n" is $2n - 7$, and "at most" means $\leq$.

182. HSPT-M3-008 - Answer D: 7

Solve $8 + 3m = 29$; then $3m = 21$ and $m = 7$.

183. HSPT-M3-009 - Answer A: 65°

Triangle angles total 180° , so $180 - 48 - 67 = 65^\circ$.

184. HSPT-M3-010 - Answer B: 55 square units

Area = $\frac{1}{2}(8 + 14) \times 5 = 55$ square units.

185. HSPT-M3-011 - Answer C: 15

Using the Pythagorean theorem, $\sqrt{(9^2 + 12^2)} = \sqrt{225} = 15$.

186. HSPT-M3-012 - Answer D: 2 hours 31 minutes

From 9:47 to 11:47 is two hours, then 31 more minutes reaches 12:18.

187. HSPT-M3-013 - Answer A: 4 cups

Scale by $\frac{32}{20} = 1.6$; $2.5 \times 1.6 = 4$ cups.

188. HSPT-M3-014 - Answer B: 10

Ordered values are 5, 7, 9, 11, 12, 14; the middle average is 10.

189. HSPT-M3-015 - Answer C: $\frac{7}{12}$

Seven of the 12 tiles are red or blue, so the probability is $\frac{7}{12}$.

190. HSPT-M3-016 - Answer D: $x = 13$; range = 7

The total must be 45, so $x = 13$; the range is $13 - 6 = 7$.

191. HSPT-M3-017 - Answer B: $3\frac{1}{10}$

Convert to tenths and subtract.

192. HSPT-M3-018 - Answer C: -5

Absolute value gives 8, and $8 - 13 = -5$.

193. HSPT-M3-019 - Answer D: \$54

The discount is \$18, leaving \$54.

194. HSPT-M3-020 - Answer A: $12x - 3$

Distribute and combine constants.

195. HSPT-M3-021 - Answer B: 12

Subtract 6, then multiply by -3.

196. HSPT-M3-022 - Answer C: 19

$2(9)+1=19$.

197. HSPT-M3-023 - Answer D: $80 - 6t$

Subtract the amount drained from 80.

198. HSPT-M3-024 - Answer A: 9 centimeters

Divide 90 by 10.

199. HSPT-M3-025 - Answer B: 18π inches
Circumference equals π times diameter.
200. HSPT-M3-026 - Answer C: 12 square units
Use one-half base times height.
201. HSPT-M3-027 - Answer D: 340
Multiply meters by 100.
202. HSPT-M3-028 - Answer A: 18 kilometers
The rate is 0.15 km/minute for 120 minutes.
203. HSPT-M3-029 - Answer B: 5 pounds
Eighty ounces equals 5 pounds.
204. HSPT-M3-030 - Answer C: 8
The sum 40 divided by 5 is 8.
205. HSPT-M3-031 - Answer D: $1/5$
After any first result, the second must match it with probability $1/5$.
206. HSPT-M3-032 - Answer A: 13
The range increases by 5, from 8 to 13.
207. HSPT-M3-033 - Answer B: $1\frac{7}{24}$
Using denominator 24 gives $16/24 + 15/24 = 31/24 = 1\frac{7}{24}$.
208. HSPT-M3-034 - Answer A: 59
Fifty-nine has no positive divisors other than 1 and 59.
209. HSPT-M3-035 - Answer B: 25
 $(-6)^2 = 36$ and $|-11| = 11$, so the difference is 25.
210. HSPT-M3-036 - Answer D: 30:48
Multiplying both parts of 5:8 by 6 produces 30:48.
211. HSPT-M3-037 - Answer A: 6
Subtracting $2x$ and 7 gives $2x = 12$, so $x = 6$.
212. HSPT-M3-038 - Answer D: $-a + 8$
Distribute first: $5a - 6a + 8 = -a + 8$.
213. HSPT-M3-039 - Answer A: 5
Set $-5 = -3x + 10$; then $-15 = -3x$, so $x = 5$.
214. HSPT-M3-040 - Answer C: 25
The integers are 23, 24, and 25, whose sum is 72.
215. HSPT-M3-041 - Answer B: 8
The number of sides is $360^\circ \div 45^\circ = 8$.
216. HSPT-M3-042 - Answer D: 44
A side measures $\sqrt{121} = 11$, so the perimeter is $4 \times 11 = 44$.
217. HSPT-M3-043 - Answer D: 84
Volume equals $3 \times 4 \times 7 = 84$ cubic units.
218. HSPT-M3-044 - Answer C: 10
Fifteen feet equals 180 inches, and $180 \div 18 = 10$ pieces.
219. HSPT-M3-045 - Answer C: 42 miles
Multiply 3.5 map inches by 12 miles per inch to get 42 miles.
220. HSPT-M3-046 - Answer A: The mode is 7.
Seven occurs most often, so it is the mode.
221. HSPT-M3-047 - Answer B: $3/28$
The probability is $3/8 \times 2/7 = 6/56 = 3/28$.
222. HSPT-M3-048 - Answer C: 23
The total is $6 \times 14 = 84$; therefore, the missing number is $84 - 61 = 23$.
223. HSPT-M3-049 - Answer A: $1/2$
The midpoint is the average: $(2/5 + 3/5) \div 2 = 1 \div 2 = 1/2$.
224. HSPT-M3-050 - Answer B: 72
Using prime factors, $8 = 2^3$, $12 = 2^2 \times 3$, and $18 = 2 \times 3^2$, so the LCM is $2^3 \times 3^2 = 72$.

225. HSPT-M3-051 - Answer B: 15%

The decrease is \$12, and $12 \div 80 = 0.15 = 15\%$.

226. HSPT-M3-052 - Answer D: 10

$f(-2) = (-2)^2 - 3(-2) = 4 + 6 = 10$.

227. HSPT-M3-053 - Answer A: $3x - 17$

Distribute and combine like terms: $8x - 12 - 5x - 5 = 3x - 17$.

228. HSPT-M3-054 - Answer B: 5

Subtract the \$6 fee: $\$51 - \$6 = \$45$; then $\$45 \div \$9 = 5$ tickets.

229. HSPT-M3-055 - Answer D: $y < -4$

Subtract 7 to get $-2y > 8$; dividing by -2 reverses the inequality, giving $y < -4$.

230. HSPT-M3-056 - Answer B: 8

Exterior angles total 360° , so the polygon has $360 \div 45 = 8$ sides.

231. HSPT-M3-057 - Answer C: $49\pi \text{ cm}^2$

From $2\pi r = 14\pi$, $r = 7$; therefore, the area is $\pi r^2 = 49\pi$ square centimeters.

232. HSPT-M3-058 - Answer A: 15 units

By the Pythagorean theorem, $\sqrt{(9^2 + 12^2)} = \sqrt{225} = 15$.

233. HSPT-M3-059 - Answer C: 56 mph

Two hours 15 minutes equals 2.25 hours, and $126 \div 2.25 = 56$ mph.

234. HSPT-M3-060 - Answer C: 104 ft^2

Total area is 216; the inner garden is $14 \times 8 = 112$, so the path is $216 - 112 = 104$ square feet.

235. HSPT-M3-061 - Answer C: 9

Two gallons equal 8 quarts; adding 1 quart gives 9 quarts.

236. HSPT-M3-062 - Answer D: 12

Since x must exceed 11, the ordered list still has 11 as its middle value; among the choices, only 12 qualifies.

237. HSPT-M3-063 - Answer A: $1/16$

The probability of blue on each draw is $3/12 = 1/4$; with replacement, $1/4 \times 1/4 = 1/16$.

238. HSPT-M3-064 - Answer D: 24

The original total is $6 \times 14 = 84$; the remaining total is $5 \times 12 = 60$, so $84 - 60 = 24$.

Language

239. HSPT-L3-001 - Answer A: After the final rehearsal, the cast rested.
The introductory prepositional phrase is correctly followed by a comma.
240. HSPT-L3-002 - Answer B: The two puppies' bowls were beside the door.
The bowls belong to multiple puppies, so the apostrophe follows the plural noun.
241. HSPT-L3-003 - Answer C: Please bring three supplies: paper, tape, and scissors.
A colon correctly follows a complete clause that introduces a list.
242. HSPT-L3-004 - Answer D: We studied French before visiting Quebec in June.
A language, a geographic proper noun, and a month are capitalized.
243. HSPT-L3-005 - Answer A: Mayor Ortiz spoke at Lincoln Middle School on Monday.
A title before a name, the school's official name, and the day are capitalized.
244. HSPT-L3-006 - Answer B: necessary
Necessary is spelled with one c and two s's.
245. HSPT-L3-007 - Answer C: The committee reached a seperate decision.
Separate, not seperate, is the correct spelling.
246. HSPT-L3-008 - Answer D: Jordan and me
Me is the correct object pronoun after selected.
247. HSPT-L3-009 - Answer A: By the time we arrived, the film had begun.
Past perfect had begun correctly shows the film started before the arrival.
248. HSPT-L3-010 - Answer B: Walking through the market, Luis noticed the bright banners.
The introductory phrase now clearly modifies Luis, the person walking.
249. HSPT-L3-011 - Answer C: affect
Affect is the verb meaning to influence.
250. HSPT-L3-012 - Answer D: The two teams cooperated.
Cooperated already expresses working together, so added wording is redundant.
251. HSPT-L3-013 - Answer A: Sentence 4
The library's closing time is unrelated to creating and observing the meadow.
252. HSPT-L3-014 - Answer C: A neglected patch of ground can become a valuable habitat through a shared effort.
This sentence introduces both the transformation and the cooperative effort developed in the paragraph.
253. HSPT-L3-015 - Answer D: After sentence 3
The sentence adds another research step and fits directly after the plant research in sentence 3.
254. HSPT-L3-016 - Answer D: The gate opened; the crowd entered.
A semicolon correctly joins related independent clauses.
255. HSPT-L3-017 - Answer A: "Please close the window," said Ravi.
The comma belongs inside the closing quotation mark.
256. HSPT-L3-018 - Answer B: We crossed the Rocky Mountains in June.
The geographic name and month are capitalized.
257. HSPT-L3-019 - Answer C: Senator Kim spoke at Central High School.
The title, name, and full school name are capitalized.
258. HSPT-L3-020 - Answer D: independent
Independent is the standard spelling.
259. HSPT-L3-021 - Answer A: The room had a pleasent aroma.
Pleasant should be pleasant.
260. HSPT-L3-022 - Answer B: similarities
Similarities is spelled correctly.
261. HSPT-L3-023 - Answer C: A list of names appears on the screen.
The singular subject list takes appears.
262. HSPT-L3-024 - Answer D: The job requires measuring, cutting, and assembling.
All three items are gerunds.

263. HSPT-L3-025 - Answer A: The lantern flickered during the storm.
It has a complete subject and predicate.
264. HSPT-L3-026 - Answer B: theirs
Theirs is the possessive pronoun.
265. HSPT-L3-027 - Answer C: however
However signals contrast.
266. HSPT-L3-028 - Answer D: Finding Shared Tools Online
The title captures the proposed online borrowing guide.
267. HSPT-L3-029 - Answer A: An online borrowing guide would help residents locate shared tools across town.
The revision states the proposal and its purpose.
268. HSPT-L3-030 - Answer B: With reliable information in one place, residents could borrow equipment more easily and avoid unnecessary trips.
The conclusion restates the guide's overall practical benefit.
269. HSPT-L3-031 - Answer C: The bicycle, which has a red frame, is mine.
Both commas correctly set off the nonessential which-clause.
270. HSPT-L3-032 - Answer B: The players' uniforms were washed.
The uniforms belong to multiple players, so the apostrophe follows the plural noun.
271. HSPT-L3-033 - Answer A: The rain stopped; however, the field remained muddy.
A semicolon correctly joins the clauses before the conjunctive adverb however.
272. HSPT-L3-034 - Answer A: We studied the French Revolution in history class.
French Revolution is a proper historical event; history is a general subject here.
273. HSPT-L3-035 - Answer A: Aunt Rosa visited Lake Erie in July.
The family title with a name, the lake's name, and the month are capitalized.
274. HSPT-L3-036 - Answer C: maintenance
Maintenance is the standard spelling.
275. HSPT-L3-037 - Answer A: separate
Separate is spelled with an a in its middle syllable.
276. HSPT-L3-038 - Answer D: Jordan and I completed the experiment.
I is correctly used as part of the compound subject.
277. HSPT-L3-039 - Answer B: The books that are overdue must be returned.
The restrictive that-clause identifies which books and requires no commas.
278. HSPT-L3-040 - Answer C: Walking through the orchard, Lena noticed the ripe apples.
Lena logically performs the action of walking, eliminating the dangling modifier.
279. HSPT-L3-041 - Answer D: except
Except means excluding, which fits the sentence's meaning.
280. HSPT-L3-042 - Answer B: The machine emitted a sharp clicking sound.
Emitted a sharp clicking sound specifies exactly what the machine did.
281. HSPT-L3-043 - Answer D: The store is currently closed.
Currently already expresses the time, so adding now or at this point is redundant.
282. HSPT-L3-044 - Answer C: Sentence 6
Sentence 6 concerns cartoons and does not support the telescope-lending topic.
283. HSPT-L3-045 - Answer B: After sentence 5
After sentence 5, the demonstration detail logically follows the information provided to borrowers.
284. HSPT-L3-046 - Answer A: The storm ended; however, the roads remained flooded.
A semicolon correctly separates the independent clauses, and commas set off the conjunctive adverb however.
285. HSPT-L3-047 - Answer C: The exhibit includes three collections: fossils, shells, and minerals.
A colon correctly introduces a list after the complete independent clause.
286. HSPT-L3-048 - Answer B: My aunt studies French and history at college.
Language names are capitalized, while general school subjects and common nouns are lowercase.
287. HSPT-L3-049 - Answer A: The museum is west of Lake Michigan near the Wisconsin border.
Lake Michigan and Wisconsin are proper geographic names; west and border are common terms here.

288. HSPT-L3-050 - Answer D: occasionally
Occasionally is correctly spelled with double c, single s, and double l.
289. HSPT-L3-051 - Answer C: The speaker's argument was persausive.
Persausive is misspelled; the correct spelling is persuasive.
290. HSPT-L3-052 - Answer B: knowledgeable
Knowledgeable is the correctly spelled adjective meaning well informed.
291. HSPT-L3-053 - Answer D: Neither of the bicycles needs new tires.
The singular subject neither requires the singular verb needs.
292. HSPT-L3-054 - Answer A: Walking through the orchard, Elena noticed the ripe apples.
The introductory phrase now logically modifies Elena, the person walking through the orchard.
293. HSPT-L3-055 - Answer C: The internship required arriving early, taking careful notes, and asking questions.
All three items use parallel gerund phrases.
294. HSPT-L3-056 - Answer D: The scientist pipetted the liquid into the narrow tube.
Pipetted precisely names the action and instrument-based method instead of using a vague verb.
295. HSPT-L3-057 - Answer B: The library is closed now.
This sentence communicates the complete idea without redundant expressions of time.
296. HSPT-L3-058 - Answer C: however
However signals the contrast between the design's low cost and its inadequate strength.
297. HSPT-L3-059 - Answer A: Sentence 4
The reference to gardens in art and stories does not contribute to the practical plan for creating a school garden.
298. HSPT-L3-060 - Answer D: Thus, one carefully organized space can support both practical learning and the school community.
This conclusion unifies the passage's ideas about planning, useful work, food projects, and science learning.
